Ask any of the boys who "got across" where Havre is in France and he will begin a merry tale of war time adventures, never stopping until he has tangled up a few Suzannes or Marie-Louises and mixed up a dozen or two French politics and English Tommies in the story. A suit for divorce was started here in district court today by Veta M. Smallwood against Harry M. Smallwood, in which Mrs. Smallwood charges her husband with cruel and inhuman treatment. They were married at Grass Valley, Or., October 26, 1918.

In her complaint Mrs. Smallwood claims that her husband is of a sort of nomadic nature, never dwelling for long at any one place, and that by reason of this fact he has wrought great hardships upon her. She says that in one of his jaunts, he left her virtually marooned in a small eastern Oregon place, where she became ill. Unable to receive proper medical attention, she says, it later became necessary for her to undergo an operation.

She says that he repeatedly belittled her in the eyes of her friends, and often said that she was "crazy, foolish, too sympathetic, and did not have a lick of sense."

Mrs. Smallwood asks that her maiden name of Veta M. Dugger be restored to her.

Dr. Mendelssohn and his wife were divorced October 3, 1917. A short time before the divorce came up for trial they entered into a pact settling all property matters. He was required to pay to Mrs. Mendelssohn, under the terms of this private agreement, \$500.

Two days after the divorce Dr. Mendelssohn paid her \$100 and gave her a Victrola, which she accepted as full payment of the \$500 and gave him a receipt and written release from all further obligation.

Due to erroneous wording of the receipt he is still required to pay the \$500, and the decree was issued to that end.

**"NEIGHBORLY LOVE" IN TRADE NEEDED, CLAIM**

New York, Oct. 28.—(United Press.) Practical application of the "love your neighbors" principle by Americans is necessary to restore normal trade conditions with Europe, Edward Filene, of Boston, director of the United States chamber of commerce, told the New York clerical conference today.

Granting credits particularly to the small European nations in order to bolster up exchange rates until the enormous trade balance in favor of this country is lessened, is necessary to save weaker countries, he said.

If bankers are forced to assume the entire burden of credits, Filene said they must demand absolute security and nations that are in most need and consequently have least credit, will suffer.

**Callus? "Gets-It" Will Peel It Off!**

Nothing on Earth Like Simple "Gets-It" For Corns or Calluses

A callus, or thickened skin on the sole of the foot, which often makes walking a misery is of the same nature as a corn. "Gets-It" removes it as easily as it does the toughest corns. By using a few drops of "Gets-It" on the callus, you will be able to peel it off with your fingers in one complete piece just as you would a banana peel. It leaves the skin free and smooth as though you never had a callus. You need no more fussy plasters, sticky tape, "speckage" bandages, knives or scissors for corns or calluses. "Gets-It" is the national corn remover the biggest on earth, used by millions. It never fails. You'll work, play and dance at ease in spite of corns.

"Gets-It", the only sure, guaranteed money-back corn-remover, costs but a trifle at any drug store. M'd'd by E. Lawrence & Co., Chicago, Ill.

Sold in Salem and recommended as the world's best corn remedy by J. C. Perry, D. J. Fry and Wm. Neimeyer.
