

THREE CITIES CLAIM HAVE WOMEN WITH SMALLEST FOOTIES

New York, Oct. 29.—(United Press.)—The honor of possessing the community Cinderella was jointly claimed today by Chicago, San Francisco and Atlanta.

Inquiry among shoe dealers in principal cities revealed that the average woman of those three communities possesses the smallest foot in the country—size 4 1/2.

Atlanta dealers said the sales were about equally divided among the intermediate sizes from 3 1/2 to 5 1/2 while in Chicago and San Francisco the average size was definitely fixed at 4 1/2. At the same time it was indicated that St. Paul owns the largest community foot—size six.

Since the south and the Pacific coast were conceded an "edge" in the pedal handicap, the honors apparently go to Chicago, once popularly supposed to be the habitat of fairly large feminine feet.

As regards styles and colors, brown and tan laced boots apparently are the most popular just at present, although many cities evince a decidedly cosmopolitan taste, particularly New York.

The startling announcement was made in New York and Milwaukee that women's feet are growing bigger. Dealers here explain that their customers' feet are becoming longer, but narrower, which they regarded as commendable.

The reports by cities include:

San Francisco—Average 4 1/2; brown laced boots with French heels the favorite.

New York—Average 4 1/2. Tastes range from blunt toed brown walking boots to sly pumps with French heels. All styles low shoes with spats are popular.

Portland—Average 5 1/2. Favorite is high heeled brown laced boot.

Los Angeles—Average, black pumps the favorite.

In Three Weeks Gains 14 Pounds

"I'll Always Bless the Day I Began Taniae," Says Mrs. Whitney

"It's the actual truth, I've gained fourteen pounds since I began taking Taniae three weeks ago, and it's simply wonderful the way this medicine has completely restored me to health in so short a time," was the statement made to a Taniae representative the other day by Mrs. Lucy Whitney who lives at 245 East 48th St., Los Angeles, Cal.

"I was in a miserable run down condition, and what little strength I had was dwindling away. My appetite left me and the little I ate didn't agree with me. My nerves were all upset, any little thing out of the ordinary that happened irritated me and at night I would have awful nightmares. For days and weeks at a time I have gone on half the sleep I ought to have had. My housework was a drudge. I couldn't half do it and several times I thought of giving up entirely. I tried so many different medicines and treatments without relief, and all the time my health was getting worse. Finally I kept running down and getting so weak that I actually weighed only eighty two pounds, and I became alarmed at my condition.

"One of my friends, a neighbor, suggested that I try Taniae, as it had helped her so wonderfully. I was willing to give it a trial—so I told my husband to get me a bottle. To my dying day I'll bless the day I first got this medicine, for it's the finest thing I ever saw and the only medicine that ever did me any good. I began to improve from the very start and have taken only two bottles, but I've actually gained fourteen pounds, and I'm glad to be able to tell you the wonderful good this Taniae has done me. I've gotten completely over my nervousness and I can sleep like a child every night. My appetite has come back and I can eat just anything I want and am gaining in weight every day. My constitution and system have been built up, and I had no idea such a great change could come over me in so short a while. I just feel so much better that my housework is a pleasure to me."

Thug Loses Life When He Asks Big "Split"

New York, Oct. 28.—(United Press.)—Demand for a 75-25 split of the money he stole instead of 50-50 cost the life of Benjamin H. Bliskowitz, Wall Street broker messenger, who ran away with \$178,000 worth of bonds last August.

This was the statement, according to detectives today, of "one eyed Bill" Smith, police character, now under arrest at Bridgeport, Conn. Smith "squealed," detectives declared, when he found himself frozen out of a share of the loot.

Men who know tobacco, chew the best without its costing them any more. They take a little chew and it's amazing how the good taste stays in a rich, high grade chewing tobacco. For lasting tobacco satisfaction, there's nothing like a small chew of that rich-tasting tobacco.

Now Is a Good Time To Drive Out Catarrh.

The Trouble Is in the Blood.

Summer catarrh, with its nausea, discharge, stuffed up glands, difficult breathing, and summer colds, is bad enough, but the worst of it is yet to come if you neglect to check the growth that is forming to attack you with ten-fold greater power during the winter. That's why it is so important to treat catarrh and other blood disorders with S. S. during warm weather, and thus free the system from all impurities.

It is now an established fact that catarrh is in the blood and that lotions and salves do not give relief. The experience of others has proven that S. S. strikes at the very root of the trouble and eliminates it. Waste no time in this matter, for it is of the utmost importance. Write to our Medical Advisor about your case. WHEN ADMIRAL FARRAGUT lightened his ships to lead them boldly over a treacherous Mississippi River bar and fight the great battle of New Orleans, he worked without ceasing for ten nights and days, eating and sleeping when and where he could.

His shaving had to be postponed. Yet no amount of physical or mental work could dull the fighting edge of the man who said "Damn the torpedoes—go ahead!"—and the razor that he used was like him—time-tested in principle—keen-tempered, dependable—perfectly balanced. If Farragut's razor lacked any modern feature, it was simply the extra convenience and safety of the guarded and two-edged

The Modern Medical Idea — Sickness Prevention

Back in 1796, when he developed the vaccine treatment to combat smallpox, Edward Jenner helped to start the trend of medical thought in the new direction of Sickness Prevention. Today anti-toxins, serums, vaccines and sanitation—all these check disease before it can gain hold. But constipation still remains one of the most devastating of all plagues, because by reducing the body's power of resistance it makes it an easy victim of every and any disorder.

Leading medical authorities agree that 90% of disease has its origin in the intestinal tract—in constipation.

Your physician will tell you that pills, salts, castor oil, mineral waters, etc., simply force the system and weaken the intestinal muscles.

Nujol is entirely different. Nujol prevents constipation because it softens the food waste and encourages the intestinal muscles to act naturally. Nujol helps Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Get a bottle from your druggist today.

For valuable health books—"Thirty Feet of Danger"—free, write Nujol Laboratories, Standard Oil Co. (New Jersey) 50 Broadway, New York.

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark as shown here. Beware of products represented to be "the same as Nujol." You may suffer from imitations.

With fine tea an abundance of exquisite tea-flavor develops before the tannin begins to draw. In common tea the tea-taste hardly starts before the tannin comes along and smothers it. Tannin, the rank harsh injurious—what people use to tan leather with.

There are four flavors of Schilling Tea—Japan, Ceylon, India, Oolong, English Breakfast. All one quality. In parchment-lined moisture-proof packages. At grocers everywhere.
