

### HARVEST YIELD IS \$50,000 FROM FARM OF STATE HOSPITAL

The five principal crops produced on the state hospital farms this year total \$50,325.55 in value and all the products will be used by the patients and employees, according to Dr. L. F. Griffith, superintendent of the state hospital. The crops are potatoes, apples, oats, wheat and hay.

The potato crop will reach 13,000 bushels, according to estimates made on the half that has been dug. The value is \$1.26 a bushel or \$15,600 for the yield. There are fields totalling 143 acres in potatoes. The average yield at the farm is 8000 to 10,000 bushels.

Apples picked amount to 7000 bushels and 1000 bushels remain on the trees, the latter being winter varieties. The apples are divided into two lots, one lot of 1000 bushels being valued at \$7 a bushel and the remaining 7000 bushels at \$1.25 or a total of \$9750 for the crop.

The yield of oats which the harvest is completed, runs to 13,283 bushels valued at 85 cents or \$11,375.55 for the crop. Hay yielded 733 tons at \$15 a ton or a total value of \$11,070. The wheat yield was 1270 bushels listed at \$2 a bushel of \$2540 for the crop.

In all crops but potatoes a number of varieties are represented but the entire yield of potatoes is of the Oregon Wonder variety.

Dr. Griffith in commenting upon the yields said that the production is considerably over the average and is due in large measure to the late rains. Quality of all crops is excellent, this being especially true of potatoes.

### MINIMUM WAGE LAW IN OREGON MAY BE MODEL

That Oregon minimum wage law is attracting favorable attention in the east, and is shaping to a certain extent the instigation of similar instruments in big cities and states on the Atlantic coast, is shown by the receipt of a letter at the Salem Commercial club from the New Orleans Association of Commerce, retail merchants bureau.

The letter was written in quest of information regarding the operation of the law here, and its effect in retail merchants in country districts. It said that the New Orleans Association of Commerce had a copy of the Oregon minimum wage law, and that parts thereof probably would be embodied in a proposed minimum wage law in Louisiana. The New Orleans organization is now working with legislative bodies for this accomplishment, it read.

**WHAT BOYS LIKE BEST**  
\*\*\*\*\*

In answer to numerous inquiries of "What do boys like best?" the majority of replies were to the effect that "a small boy will do anything for a pen-knife."

Men are but grown-up boys and when they get away in the country hunting, or fishing with "the other fellows" they romp, play jokes and games "just like a lot of kids." They also have a fondness for keen cutlery, but the fancy usually applies to a pet razor. No other razor was its equal in the estimation of the owner.

Did anyone ever hear of a man showing so much affection for the modern contraptions called safety-razors? No indeed. But there is one kind of razor known as the Durham-Duplex that all men like from the moment they hear of it, and after its first trial, give it that strong affection no other tool can gain. The reason is that it is a real razor made safe and convenient with all the real razor advantages of long blades, used in the real-razor way in a real-razor handle, making a light diagonal stroke possible. A guard prevents the skin being cut even when carelessly used, and the detachable double-edged blades are a great convenience as a sharp razor is always ready either by attaching a new blade or honing and sharpening the old one in the regular way. A Durham-Duplex is what the "grown-up boy" likes best.

### MOTOR COMPANY HEAD VISITING IN EUROPE

Edward S. Jordan, president of the Jordan Motor Car company; David Beercoff, directing editor of the Class Journal Publications, and Russell S. Begg, chief engineer of the Jordan company, sailed for Europe on the steamship Adriatic, October 25.

They will visit the principal motor car factories abroad, and be present at the opening of the Olympia show in London.

As one of the most successful automobile manufacturers in the United States, Mr. Jordan will be in position to make an especially keen analysis of the problems and achievements of foreign manufacturers. The marked success of the Jordan car has been noted by automobile men in England and France, and Mr. Jordan's reputation as an authority in the American automobile world will cause his arrival at the London show to be greeted with more than usual interest.

During the last few months, Mr. Jordan has been asked to address important meetings of automobile men in twenty-one different states. Manufacturers and dealers in all parts of the country who have come to regard Mr. Jordan's opinion on all phases of the automobile business as authoritative, will be eager to hear what he has to say about conditions in the motor car business abroad, when he returns.

The girl's winning smile and her unique arguments failed to convince recruiting sergeant she should be allowed to enlist with her husband.

"Sub, we'd like to join up together," she said. "Don't know just why, but seems we can't keep along with the price of 'haws'. Can't you take us both? I'm a dandy cook."

### Heavy Meat Eaters Have Slow Kidneys

Eat less meat if you feel Backache or have bladder trouble—Take glass of Salts

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage and attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications. (Adv)
