

GOVERNOR URGED TO USE EXTRA PAY TO CALL SESSION

That Governor Olcott use the money due him as salary as secretary of state and which he has refused to accept in defraying the expense of an extra session of the legislature to ratify the suffrage amendment to the constitution, is urged in a letter received Wednesday from Mrs. E. May Newell, 774 Hoyt street, Portland.

Mrs. Newell declares that the response to a campaign of addresses in favor of an extra session has been hearty and spontaneous and that it is evident that a special session is desired by the public. Should the governor use the money to which he is entitled as secretary of state salary for the session it would plainly emphasize the fact that no business other than ratification of the amendment is being called.

The letter in part follows:

"The attorney general assures us that, while you are entitled to draw two salaries, under the unusual circumstances existing, you have, in reality, drawn but one. The state, therefore, is saving, through you, the salary of one official. This makes it possible for you, without any abnormal drain upon the treasury of the state, to call an extra session of the legislature for the purpose of ratifying the suffrage amendment. I am confident that the women of Oregon would deem it a very gracious and friendly act on your part. They would not fail to realize that it was due not only to your very practical and effective support of the complete enfranchisement of women and the democratization of the nation, but also to your generous and patriotic conception of your duty as a public official to refrain from taking personal advantage of peculiar but legitimate opportunities.

"No one could question the expenditure, for a public emergency, of a sum equivalent to a salary that is not only pledged to you, but earned by you. On the contrary, it would make your position in requesting the legislators not to enact any other legislation, almost impregnable. The opinion of the citizens who are genuine suffragists could be concentrated on the members of the legislature in such a way that they would realize the danger of trying to take advantage of your generosity. Protests of friendliness to suffrage are of no avail in a case like this, unless they are backed by actions that harmonize."

Grown-Ups at Play? Yes, Kiddies, Too, Urged in "Better World" Movement

Play for everybody—kiddies and grown-ups alike—is a feature of the plan of the National Social Unit Organization for organizing neighborhoods to make a better democracy. The Social Unit has the idea that every city block should be a play center, and in its "demonstration community," which is situated in Cincinnati, there are block parties, block picnics, block sings, block dances, and even block journeys to the community health clinic.

That the public schools should be open all the year round and used by everybody is another cause for which

thousand people have attended the Wednesday evening community sings instituted in the neighborhood. Plans for extending the Social Unit idea to other municipalities are now being discussed by twelve committees of distinguished experts representing many fields of social endeavor, who will present recommendations to the country at a national conference to be held late in October. Rowland Haynes, Director of New York War Camp Community Service, heads a national committee of recreation experts who are helping to program wider activities from this angle.
