AUTOMATIC PHONE USERS IN PORTLAND UPHELD IN OPINION

Although the physical connection between the manual and automatic telephone systems in Portland has been completed patrons of the old Home Telephone company are entitled to service at the rate charged by that company at the time of its absorption by the Pacific company until complete directories and any other accommodations necessary to permit them the full use and benefit of the consolidated system has been provided.

Thus F. G. Buchtel, chairman of the public service commission, in a letter directed to James T. Shaw, attorney for the Pacific Telephone & Telegraph company at Portland, today, puts a temporary halt to any increase in rates contemplated on the part of the Pacific company to its newly acquired patrons.

In the event a patron of the old Home company desired to change from a single party line to a multi-party line the company is required to make the requested change, or in the event of inability to comply therewith because of lack of equipment of facilities, must at least grant the subscriber the benefit of the rate for the service requested although still continuing on the main line service, the letter directs.

Ladies! Secret To Darken Grey Hair

Bring back color, gloss and youthfulness with Grandma's recipe of Sage and Sulphur

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready to use preparation improved by the addition of other ingredients a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.
