

### STATE APPEALS SUIT TO ENJOIN PURCHASE OF PRESERVE IN LANE

Insisting as he did in his demurrer to the injunction in the Marion county circuit court that the plaintiff fails to state facts sufficient to constitute a suit, I. H. Van Winkle, assistant attorney general, representing the state fish and game commission in the suit filed by H. A. Holmes to prevent the purchase of the Reddish farm in Lane county as a game preserve, has filed notice of appeal to the supreme court from the adverse decree handed down by Judge Bingham last week. Holmes in his injunction suit had insisted that the fish and game commission was without any appropriation with which to purchase the Reddish farm on which it is proposed to propagate Chinese pheasants. Replying to this argument the fish and game commission insists that "all moneys received from hunters and anglers licenses and fines collected for violation of the hunting and angling laws are placed in the game protection fund of the state of Oregon and appropriated for said purposes and authorized to be expended under the direction of the fish and game commission." Ben W. Otsch, as secretary of state, and O. P. Hoff, as state treasurer, are also made defendants in the suit which would enjoin the payment of approximately \$7000 by the state for the farm in question.

### MORMONS WHO INVALE CHURCH ARE SCORED

Spokane, Wash., Nov. 10.—Mormons invaded the meeting of the First United Presbyterian church here last night and attempted to turn the service into a debate.

The pastor, Dr. W. A. Stevenson, roundly denounced Mormonism, drawing from the invaders interruption and objection.

Mormons are "profane, obscene and adulterous," Stevenson declared. "They practice polygamy and they don't deny it."

"Oh, yes they do," yelled a man in the congregation.

Referring to Brother Smith, Stevenson jeered that "he drove his wives four abreast."

A body guard of his congregation, fearing attack, escorted Stevenson home.

### GOVERNMENT TO TEST VALIDITY OF DRY LAW

Washington, Nov. 10.—Unusual haste was shown today by the government in asking the supreme court for a decision as to the constitutionality of the war time prohibition act.

During the session of the court, Attorney General Palmer suddenly asked that the government's appeal from the decision of the Louisville federal court decision, declaring the law unconstitutional, be heard November 20.

The government previously had proposed that the case be called up after December 8.

**Fighting Crabs of Japan.**

In Japan there is a species of the crab which is always looking for a fight. As soon as two of them meet they challenge each other by scraping their claws together and then they rush at each other and struggle until one of them is exhausted, but he still keeps on scraping his claws in defiance of the other. The victor then twists off one of the claws of the vanquished one and carries it off as a trophy of victory.

### Deprived Of Silks And Furs By Meager Wage, Girl Attempts Suicide

Spokane, Wash., Nov. 10.—She worked as a lumber miller in a local mill for \$13.20 a week. Her hands were red and raw from her work and her pretty face was white and seamed.

She was only 19 years old, but she loved pretty clothes.

The furs and silks paraded down the avenue by well-to-do women got into her soul.

She longed for them.

Sunday night she climbed onto the railing of the Monroe street bridge here, 200 feet above the boiling river.

"Goodbye, everybody," she sobbed.

Her culotte dress caught in a railing as she was about to jump.

Two boys caught her and took her, weeping wildly, to the police station.

Her name is withheld by the police.

### FATE OF NEW SUITS FOR COAST PEOPLE IS BEING DECIDED

San Francisco, Cal., Nov. 10.—The fate of that new suit of clothes probably depends upon meetings today between merchant tailors and their former employees. Following the announcement of the Pacific Coast Merchant Tailors' association that all shops would open this morning on the "open shop" basis, individual employers were meeting delegations of their striking employees to explain the new wage scale.

The employers, through Sam G. Levy, president of the Merchant Tailors' association, said they "had no grievance with legitimate organized labor and stand ready at all times to deal collectively with employees."

Claims that the leaders of the striking tailors are radicals favoring the Russian soviet form of government, and that "there absolutely is no doubt the tailors are connected up with the general 'red' attempt to control the country" were made today by Levy.

"The \$40, forty eight basis that we are offering the men is four dollars better than the wage scale in effect in all eastern cities. A new one year agreement for \$36 per 48 hour week was signed up in September between eastern tailors unions and their employers," he said.

"The public will be able to get clothes immediately for we expect the tailors to go to work this week, in spite of the action of their leaders," said Louis Scheeline of Oakland today.

**CLEMON'S FUNERAL TAKES PLACE TODAY**

The funeral of Mrs. Charlotte Clemons, 69, who died at her home, 720 S. 22d street, late Saturday night, was held from the residence this afternoon at three o'clock. Rev. Porter of the Christian church officiated. The burial was in the I. O. O. F. cemetery, with the Webb and Clough company in charge. Mrs. Clemons was born in Alabama.

Besides her husband she leaves two daughters, Mrs. Bert Murphy and Mrs. J. S. Hoyt, both of Salem.

Douglas Larsen of Cove has been convicted and fined \$100 for refusing to help fight a forest fire in the Grand Ronde district last summer.

### WILLAMETTE TAKES CHAMPIONSHIP BY BEATING PACIFIC

Pacific university's hopes for the non-conference football title were snuffed out Saturday by Willamette's 12 to 0 victory in one of the hardest played battles ever staged on Sweetland field.

Willamette kicked off, but after an exchange of punts it was the visitors' ball on the 10-yard line. As a result of several costly fumbles Pacific advanced to within four yards of the goal, but was held for down.

In the second period the Bearcats tried the aerial route, and passes to Ganzans and Varato netted 30 yards. A fumble gave the over to Pacific on her 12-yard line and she advanced 20 yards on a punt exchange and line bucks. On Gonham's fumble Fullback Rarey raced 32 yards through an open field for the first touchdown.

Within three minutes six more points were added to the score by Dimick's touchdown. With good interference he went through tackle for 18 yards and drove over the line on straight bucks.

Pacific made desperate attempts to score in the second half, resorting to considerable passing and both place and drop kicking, which fell short. One pass to Hoar netted 35 yards, but Willamette's line was too strong for straight gains.

### FUMBLE GIVES W. S. C. COAST CHAMPIONSHIP

Portland, Or., Nov. 10.—Taking advantage of a "break" in the third quarter, when Howard, Oregon end, fumbled a delayed pass on his own 20-yard line, the Washington State college football team started a series of plunges which carried them over the University of Oregon goal line and gave to them a 7 to 0 victory in one of the most brilliant football games ever witnessed in this city.

While Oregon gained ground more consistently than did Washington and twice had the ball within their opponent's five-yard line, they were unable to score, the northerners stiffening their defense at the critical times.

The game practically given the coast championship to the winners and with it the right to represent the west against the east at Pasadena on New Year's day. Only a defeat at the hands of the University of Washington in their game next Saturday can now keep the Pullmanites from making the southern trip during the holidays.

**Uses of Paraffin.**

Paraffin is very useful and does wonders for the housekeeper, though some people look upon it as a greasy liquid unfit for cleaning purposes. A soft clean cloth moistened with it and used on the furniture in regular dustings will brighten the wood. Many laundresses put a little into the water in which soiled clothes are soaked, and a little added to the starch will keep the irons from sticking. Paraffin is also good for cleaning enameled bedsteads, bath tubs, sinks, etc. Paint is greatly improved if cleaned with a soft cloth and paraffin, the dirt coming away without injuring the surface or spoiling the lustre.

**The First Typewriter**

So long ago as 1714 a patent for a typewriter was taken out in England by Henry Mill; it was called a "machine for impressing letters singly and progressively as in writing, whereby all writings may be impressed in paper so exact as not to be distinguished from print." His machine was very clumsy, and it was not until more than a century later (1829). Then the first American typewriter, called a "typographer," was patented by W. A. Burt.

### "Be An American" It's Cheap, Says Mayor Baker

Portland, Or., Nov. 10.—Mayor Baker occupied the pulpit at the Highland Congregational church last night. His "text" was "Be an American; it doesn't cost anything."

The mayor recommended rough treatment for all men who refuse to live up to the laws of the United States. He advocated putting radicals aboard a vessel to be taken into mid-ocean and sunk.

Baker cited the avaricious capitalist and the radical labor man as two classes of persons who are dangerous to the welfare of the country.

### WATER PUMPED ELECTRICALLY SAVES MONEY FOR PUEBLO

At the South Side water works at Pueblo, Colo., an electrically driven, direct-connected pump, of a capacity of 3,000,000 gallons daily was installed during the year 1918. The city is now preparing to install a second unit with 6,000,000 gallons daily capacity, and it is the intention of the trustees to electrify the entire pumping system during 1919. The trustees estimate an annual saving of \$10,000 when the plant is completely equipped for electrical operation.

### To Make Potato Flour

Arrangements have been made in Great Britain for the establishment of mills for the production of potato flour, which it is hoped will be on a large scale. Although this industry has been established on the Continent for several years, it is a new one in Great Britain. Before the war there were 500 potato flour factories in operation in Germany. The present estimate is that there are now over 2,000 there. The British Ministry of Foods has for some time been conducting experiments in potato flour, as there has been an over-production of potatoes, and the flour will provide a means for the consumption of the over-supply.

### WE WILL PURCHASE YOUR Used Furniture

Ranges, Heaters, Cook Stoves, Beds, Mattresses, Springs, Bureaus, Commodes, Sewing Machines, Dishes. In fact, any article which you wish to sell.

Call Us Up Phone 1177 WHY?
