

RID LAND OF REDS LEGION CRY AS SHOOTING RESULT

Centralla, Wash., Nov. 12.—The shooting at Centralla resulted today in demands from American Legion posts for immediate legislation to rid the country of revolutionaries.

Such a message was received by Representative Johnson, Washington, from the Centralla post and read to the house. Johnson in reply declared that "the deaths will arouse the loyal people of the country as nothing else in years has done."

The country must be purged of seditionists and revolutionists to the last one and if this means war, the quicker the better," Johnson said.

"History will record these heroes as among the first to fall in an attempt at armed revolution against the United States and for which every man who has been preaching syndicalism, communism and class hatred is responsible. This is an attempt at revolution with bullets and rifles that these enemies of law and order have been desiring for years.

"We of the Pacific northwest have long seen it coming. We have been patient, have avoided bloodshed under every provocation, only to see these young men murdered."

STATE UNABLE TO AID SAFETY PLAN, REPORT

There are no state funds available for the purchase and distribution of warning signs for use on automobiles, Sam A. Koser, deputy secretary of state, informs F. C. Bittler of Portland, who has suggested that plates bearing the words "Safety First" be provided by the state to all automobile owners with the understanding that the plates be affixed in a conspicuous place about the automobile in an effort to reduce accidents. Bittler is referred to the "Safety first" organization in Portland of which Harry P. Coffin is secretary with the suggestion that the idea might be furthered through them.

Steps To Stop Speculation Taken By Federal Bank

MACHINISTS VOTE ON GENERAL STRIKE AGAINST LEGISLATION

By Ralph F. Couch (United Press Staff Correspondent)

Washington, Nov. 12.—Three hundred and seventy-five thousand union machinists throughout the United States were voting today on a general strike, in connection with the railroad labor situation.

"The vote is returnable late this month," said William H. Johnston, president of the International Machinists Union. "Ballots were sent out a month ago.

"The question directly before the men is whether they shall strike if congress passes anti-strike and compulsory arbitration legislation," now before it in connection with settling the railroad problem.

"If I know the machinists they will hit the street the minute this legislation passes—if it does."

One hundred and twenty-five thousand of the union machinists are employed in railroad shops. As provided in the strike ballot instructions, they would be the first to go out. Later union machinists in all industries would be called out to support them in a sympathetic strike if necessary.

The machinists' vote is being taken at a time when members of two of the four great railroad brotherhoods are conferring with Rail Director Hines and pressing their demands for immediate wage increases to make their earnings conform to the increased cost of living. These two brotherhoods are the trainmen and conductors.

An answer falling far short of the demands of these unions was given to the committee yesterday, it was learned. President W. G. Lee of the Brotherhood of Railway Trainmen and President L. E. Sheppard, of the Order of Railway Conductors were to confer with Hines again today.

A referendum on Hines' answer will be taken by both the trainmen and conductors, it is expected.

Trainmen and conductors through the country are threatening strike unless their demands are met.

Edward Cookingham, Oregon War Loan Chairman, who sends Armistice Day greetings through local Liberty Loan Committee.

Permit me to extend greetings to yourself and your citizens, and to join with you in the celebration of the first anniversary of that day destined to become memorable in history, which commemorates the glorious victory of our country and its allies in the great world war. I again congratulate the people of your community upon the overwhelming success which they achieved in the several Liberty Loan campaigns. The record of your district is a lasting monument to their self-sacrifice, and will be an inspiration to Americans whenever their country again stands in peril.

On this occasion shall we not pledge anew our lives and fortunes to our country and its institutions and resolve to bear our obligations of citizenship today with the same serious and highminded enterprise that was shown in the dark days of the war? Let us not give less freely to our country now in the face of domestic peril than we gave when it confronted foreign enemies.

Your record during the war is undoubted assurance of quick response to every call of your country for financial support. I am sure it is only necessary to remind your citizens of the deficit in Oregon's War Savings quota to make certain its prompt subscription. Oregon has never failed.

EDWARD COOKINGHAM, Director War Loan Organization for Oregon.

Church, III, state superintendent of instruction, who has received information to that effect from the publishers, the McMillan company. Many letters of protest are received by the superintendent's office because of the presence in the geography of text matter regarded as favorable to Germany.

The ladies of this community meet every Wednesday afternoon in order to sew and do other work for the baby home in Portland. Last Wednesday there were only about four or five of the good old faithful ladies that want to help keep those little ones comfortable. Now let more of us get busy. There are about 60 infants in the home to be cared for and some are doing all the can but they need more help.

PRINCE OF WALES AT CAPITAL; THANKS RED CROSS WOMEN

By W. R. Hargraves (United Press staff correspondent)

Washington, Nov. 12.—The expressed wish of the Prince of Wales personally to extend the gratitude of Great Britain to the women of the American Red Cross was to be gratified today.

His program for the day called for a strenuous sweep around the national capital, during which he will visit Red Cross headquarters, Lincoln Memorial and Walter Reed hospital, where he will meet a number of wounded veterans of the great war. The first formal reception will be tendered the prince tonight at the congressional library, where at a brilliant function, he will receive members of the cabinet, congress and the

diplomatic corps. It was expected that he will meet President Wilson tomorrow. In all of his brief talks since he has been here the prince has expressed the hope that the president's condition will permit of a meeting. Prince Edward's left hand was showing signs of limpness after last night's hand shaking experience at the National Press club, where more than 300 greeted him. After paying high tribute to the American soldiers and newspapermen who participated in the war, the prince asked that he might be presented to all at the club, provided "they don't squeeze my hand."
