SALEM, OREGON, FRIDAY, NOVEMBER 14, 1919. FORTY-SECOND YEAR

PRICE TWO CENTS — ON TRAINS AND NEWS STANDS—FIVE CENTS

RESERVATION TO ARTICLE 10 IS DANGEROUS

Rejection of Entire Treaty By President or Senate Certain If Clause Is Approved as Part Of Interpretations.

By Hugh Bailie
(United Press Staff Correspondent)
Washington, Nov. 14.—Rejection of the peace treaty by the senate or by President Wilson himself is assured if the resolution of ratification goes to a vote containing the reservation to article 10, already adopted by senate, sitting in committee of the whole.

This was the opinion in administration quarters here today, based on the president's own words, frequently reiterated, during his recent tour of the United States. Whether the president will carry out his threat to send leading treaty opponents, including Senator Lodge, to Weimar, to negotiate a new treaty remains to be seen.

IRISH REPUBLIC FLAGTORN FROM D'VALERA'S CAR

Portland, Or., Nov. 14.—The flag of the "Irish republic" was ripped from the automobile of Eamon DeValera, by a score of American Legion members here today.

The "president of the Irish republic" had just entered an automobile which was to take him for a trip over the Columbia highway.

The former service men, who were standing near, observed the Irish banner flying from the windshield of the machine, on a level with the American flag.

Approaching DeValera, the legion members demanded that the Irish emblem be removed, without waiting for compliance with the order, ripped the banner off.

Irish leaders in Portland are highly incensed and are making a vigorous effort to recover the flag. The emblem was carried away and hidden by the former service men.

FEDERAL AND STATE CHARGES FACED BY TACOMA RADICALS

Tacoma, Wash., Nov. 14.—The sixty-four alleged I. W. W. members rounded up in Tacoma and held in the city jail faced state as well as federal charges today.

Prosecuting Attorney William G. Askren filed an information in the superior court charging all of them with criminal syndicalism under the new law passed by the last legislature.

This is the first action which authorities have taken hitting directly at the I. W. W. as an organization. The government charges being prepared by United States District Attorney Saunders, alleges conspiracy on the part of members to overthrow the government.

Continued arrests of I. W. W. in Tacoma and surrounding country were expected today with four I. W. W. locals were obtained by the department of justice in the raid on its headquarters Wednesday. All those arrested probably will also be included in the state information.

\$800,000,000 Available Now for Development of Enterprises Over Nation

Washington, Nov. 14.—Approximate \$800,000,000 will be released to help local enterprise throughout the United States as a result of the crash in the New York stock market, government officials here said today.

This vast sum when it is no longer attracted by speculation, will be available to local business men in need of cash to increase production, build factory additions, buy new machinery and boost business generally. It is believed this will tend to help reduce prices and living costs, officials hope.

Speculation Ends.

Financial experts here believe that the orgy of speculation which has swept over the country since the armistice is ended. The treasury department sounded a warning against speculation early in the summer. The federal reserve board issued a formal statement condemning it.

A drop expected in call money is the key to the situation, it is explained. Call money is the term used to describe loans made for an extremely short time, sometimes for a day only,

LEGION NOT TO ADD MORE NEW HONOR MEMBERS

Minneapolis, Minn., Nov. 14.—Unless the American Legion amends its constitution new honorary members cannot be added to the rolls of the various posts. The executive committee decided the rectification clause of the constitution allows posts to retain honorary members already elected but bars any additions.

Delegate Stockbridge of Georgia, member of the executive committee, urged the constitution be amended as soon as possible.

The yearly dues were placed at \$1, which includes subscription to the American Legion weekly. The weekly will be published in Indianapolis providing facilities can be found there to print copies for a paid up circulation of more than 250,000 a week.

CITY SALESMEN TO ORGANIZE AT TONIGHT'S MEET

Tonight the doors of the Commercial club are thrown open to new members. Any one in Salem, with \$5 and a desire to pull for a greater capital city, are invited to attend the monthly membership meeting, dinner and business session, which begins at 8 o'clock. It is expected that many citizens will take advantage of the reduction in membership rates and will sign up together.

OFFICE RACE INTERESTS

The Salesmen's club forms tonight. It is probable that the leaders of the club will be elected. Benjamin R. Perkins and J. F. Hutchison have been named for the presidency of the club. Both are insurance men of this city.

PLANES ARE FRAMED

The administration forces are going ahead with plans for what they will do in the event the resolution of ratification containing the reservations will be adopted. The resolutions will be a two-thirds vote and is thereby defeated. In that case, the resolutions today, they will offer a program of substitute resolutions. These, Senator Hitchcock said today, are as follows:

- 1.—All members of the league to have the right to withdraw on two years' notice, each member so withdrawing to be the sole judge as to whether his obligations under article 1 have been fulfilled.
- 2.—No member to be required to submit to the league any domestic question such as immigration, labor or tariff.
- 3.—The Monroe doctrine not to be impaired by any decision of the league.
- 4.—Article 10, merely advisory and the right to use American troops or naval forces under the league to rest with congress.
- 5.—Dominions or self-governing colonies of empires not to be permitted to vote in any dispute to which the empire or its dominions or self-governing colonies is a part.
- 6.—Hitchcock has offered the reservations at this time fearing that adoption of the Lodge clause motion might prevent offering further reservations and amendments.

that can be terminated on demand. In normal times call money often was quoted as low as 2 per cent. For several days it has been quoted at from 14 to 25 per cent.

Speculators in need of quick cash negotiate call loans. The tremendous rise in stocks and the vast amount of sales shot call money to high rates.

Enterprises Slighted.

This daily attracted millions in ready cash from small banks in every part of the country. Instead of putting their money into local enterprises at their money into their banks piled the 4 and 6 per cent New York call market at cash into the New York call market from 14 to 25 per cent. The transactions were made daily by telegraph. These small banks are known as the "farmer banks." The "farmer dollar" thus helped extend the period of speculation that began with the armistice, government experts pointed out.

Now they say the "farmer dollar" is going back home, eight hundred millions of it, to help finance local needs.

20 Million Gallons For Chicago Celebration

Chicago, Nov. 14.—Twenty million gallons of liquor is available for Chicago's celebration tomorrow night if Judge George A. Carpenter holds war time prohibition invalid. The dust-covered glasses and the mahogany were polished in anticipation of the celebration. Hundreds of reservations have been made at the cafe.

OREGON NOT TO TOLERATE REDS SAYS GOVERNOR

Olcott Declares Executive Offices Will Co-Operate With Communities To Prevent Rioting Here.

The executive office will co-operate with the peace officers of the various communities throughout Oregon in safeguarding the citizens of the state from any outrage such as was perpetrated by I. W. W. members at Centralia, Wash., Armistice day, according to a statement given out by Governor Olcott, Thursday night.

All district attorneys, sheriffs, mayors, police chiefs, constables and other peace officers in the state are urged by the governor to keep a weather eye open for the working of radical propaganda and to apply the ounce of prevention necessary to stamp out such propaganda before it shall have been permitted to show its sting as in the case of the Washington outrage.

The governor's statement follows:

Statement Pointed.

"There will be no repetition in Oregon of the Armistice day outrage at Centralia if I can prevent it. The constitution of the state declares that the governor shall see that the laws are faithfully executed, and I believe that the old adage 'an ounce of prevention is worth a pound of cure' should be in as nearly full working order as possible from now on.

"It is the desire of the executive offices to co-operate in every way possible with the peace officers of the several communities in every section of the state. I am going to suggest that every district attorney, sheriff, mayor, police chief, constable, or any other officer in any way connected with the enforcement of the law keep his eyes alert as to the situation in the community where his jurisdiction extends and stamp out as far as possible every semblance of any organization having for its object the fostering of crime and antagonism to the institutions of our state and nation.

"Now is the time to take up the cudgel against those forces which must be undermined if the nation is not to be undermined in turn by them.

Pledges Co-operation.

"I will pledge the fullest co-operation the power of the state will give. In event any situation arises with which the local authorities cannot cope I urge that a speedy report be made to this office and I will endeavor to meet the situation with all of the state machinery that is necessary.

"The safety of the lives of our citizens and the safety of our homes have been put in jeopardy by the workings of a lawless organization, which all may now plainly see is determined to work ruin, destruction and slaughter wherever it may extend its hand.

"The organization has lifted its bloody hand to strike and that overt act should place every citizen alive to the dangers that face him and his country.

"Prompt action on the part of federal and state authorities may go a long way toward eradicating this evil and wherever it exists in Oregon it should be mercilessly stamped out."

SEATTLE RECORD PUBLISHES, BUT CLOSELY WATCHED

Seattle, Wash., Nov. 14.—The Seattle Union Record, labor organ, was closed up again at 1 o'clock this afternoon by United States authorities, operating under warrants issued yesterday.

Seattle, Wash., Nov. 14.—With the permission of United States District Attorney Robert C. Saunders, the Seattle Union Record was publishing this morning its resumed publication of regular editions. While not under government censorship, its editors will be held strictly accountable for articles appearing in it in the future and, if the matter printed is deemed seditious will be arrested and prosecuted under the federal espionage act, according to Ben L. Moore, assistant United States attorney.

A lone policeman remained on guard at the Union Record office this morning. Members of the staff were permitted to enter without being questioned as the work of getting out the paper was begun in an office minus its lists of subscribers and nearly a truckload of other books and records seized by government agents in the raid of yesterday.

PLANS IN OPERATION

Late yesterday evening the United Record issued an extra edition, United States Attorney Saunders having given permission to operate the plant. This was seven hours after men from the United States marshal's office had entered the place, taken complete charge and arrested E. E. Ault, the editor, on a seditious charge. Ault has been released on \$5000 bail.

When Ernest Newsham, district secretary of the United Mine Workers, had posted \$5000 bail for Ault, the latter was re-arrested on a state charge of alleged criminal libel of the dead, and was released on \$10000 bail. The state alleges Ault libeled world war veterans massacred at Centralia in an editorial published November 12, in which it was said, "the rioting, which resulted in the deaths was the result of a long series of illegal acts by these men themselves."

DIRECTORS ARRESTED

Newsham was accompanied to the federal building by Frank A. Rust, member of the Union Record control board, who was immediately arrested for alleged seditious and released when he deposited \$5000 bail. George F. Listman, third member of the newspaper directorate, was taken into custody later when he called at the marshal's office. He likewise was released on bail of \$5000.

Ault, Listman and Rust will be given a hearing before United States Commissioner McClelland Tuesday morning.

MORE RAIDS ON REDS ARE MADE IN SPOKANE

Spokane, Wash., Nov. 14.—Two more raids, announcement of two I. W. W. meetings, prompted counter attacks. Police absolutely will forbid any more radical meetings, Police Commissioner Tilsley said today.

Thousands of pamphlets of radical nature were seized here in two raids, one on a barber shop and the other on a reading room.

No arrests have been made up to noon, since midnight last night.

Police absolutely will forbid any more radical meetings, Police Commissioner Tilsley said today.

BODY OF COLLEGE STUDENT FOUND IN RIVER IDENTIFIED

Philadelphia, Pa., Nov. 14.—The body of Fred L. Jenkins, University of Pennsylvania student, found in the Schuylkill river late yesterday, was identified by his father, H. L. Jenkins, a wealthy lumberman of Vancouver, B. C. Post mortem examination showed the boy was suffering from cerebral hemorrhage when he leaped to his death more than two weeks ago.

REDS STILL FIGHT BACK; ROCHESTER MAN FIRED UPON

Centralia, Wash., Nov. 14.—While crossing the Scatter creek bridge several miles west of the city last night, Clyde Paton of Rochester was fired at three times.

All of the bullets struck the automobile in which Paton was riding. Following the attempted murder of George Paxson, while he was crossing the bridge between Centralia and Chehalis early Thursday morning, the shots directed at Paton made the fact stand out more significantly that the radicals who are being sought in this vicinity are not altogether on the defensive.

The large American flag which flies from a hill near the heart of the city of Chehalis was ripped by a rifle bullet yesterday. The shot was evidently fired at long range.

SEATTLE RECORD PUBLISHES, BUT CLOSELY WATCHED

Seattle, Wash., Nov. 14.—The Seattle Union Record, labor organ, was closed up again at 1 o'clock this afternoon by United States authorities, operating under warrants issued yesterday.

GUARD SHOOTS MILL WORKER AT CHEHALIS

Complaints Charging Murder In First Degree Filed Against Ten I. W. W. Who Participated In Armistice Day Riot

Chehalis, Wash., Nov. 14.—S. A. Godfrey, a mill hand, who refused to obey an order to halt as he approached the county jail here early this morning, was shot and wounded by one of the American Legion volunteers on guard at the jail.

Following reports that a gang of I. W. W.'s had planned to come to Chehalis and attempt a jail delivery, the county jail had been under heavy guard since Wednesday night.

Godfrey said he didn't understand the commando halt. He said he was not an I. W. W.

MURDER IS CHARGED

Centralia, Wash., Nov. 14.—Complaints charging murder in the first degree will be filed this afternoon against ten alleged I. W. W. members against ten alleged I. W. W. members arrested at the Chehalis jail during the Armistice day murders. It was announced by Prosecuting Attorney Herman Allen and C. D. Cunningham, special prosecutor.

The complaints will be against the following men:

T. C. Morgan, Brit Smith, Roy Becker and James H. McInerney, all held in the Centralia jail; Eugene Barnett, C. C. Bland and A. E. Faulkner, held in the Chehalis county jail; J. H. Lamb held in the jail at Olympia; Loren Roberts and Bert Bland, who are at large.

CONFESSION ALLEGED

Captain Lloyd-Dysart, at the head of the American Legion, announced today that complete confession, signed by members of the American Legion, who were fighting I. W. W. propaganda, has been obtained by American Legion men.

Of those against whom the murder charges were filed, Eugene Barnett is said to be one of the most desperate. He was captured in the hills near Centralia.

THREE IDENTIFIED

Brit Smith identified McInerney, Becker, Morgan and Lamb as having guns during the attack on the American Legion parade.

Becker was found with three others in the room back of the hall with guns by the Legion men who charged the hall after the shooting.

McInerney is said to have been in the Everett riots four years ago, when I. W. W.'s took a boat from Seattle to Everett to shoot up the town.

Sixteen men got off a freight train from the north at Centralia at 5 o'clock this morning, showed the brakeman revolvers, made threats to "raise hell" with Centralia then scattered. The brakeman immediately reported their threats to the American Legion.

An armed posse is out searching for the men.

MEMORIAL SERVICES BEFITTING HEROES WHO DIED IN A WAR WERE HELD HERE THIS AFTERNOON FOR THE FOUR YOUNG SOLDIERS SHOT TO DEATH AS THEY MARCHED IN THE ARMISTICE DAY PARADE LAST TUESDAY AFTERNOON

The auditorium was the only place in town large enough to accommodate those who gathered to do honor to Warren Grimm, attorney; Arthur McGiffresh, pharmacist; Dale Hubbard, bookbinder, and Ben Casagrande, bookbinder, all citizens of Centralia, and all veterans of our war.

Portlanders who spent Thursday in Salem are J. W. Morrow and A. C. Spencer.

Mr. and Mrs. R. J. Smith of Astoria are visiting friends in Salem.

ALLEGED RED LEADER TWINS STATE'S EVIDENCE; ROUND-UP OF "WOBBIES" IS SIMPLIFIED

Centralia, Wash., Nov. 14.—The task of officials who are attempting to bring to justice all members of the I. W. W. who participated in the massacre of American Legion members here Tuesday, has been somewhat simplified by the fact "Brick" Smith, alleged secretary of the Centralia I. W. W. local, has turned state's evidence.

Prosecuting Attorney Herman Allen is authority for the statement that Smith pointed out to him four of his fellow prisoners in jail here as some of those who were in the I. W. W. headquarters Tuesday afternoon when the armistice day parade passed.

Smith, according to Allen, said all four of the men he indicated were armed and he "guessed" they participated in the shooting. Smith claimed

he himself was unarmed and fired no shots.

The coroner's jury which deliberated here last night failed to fix responsibility for the shooting which resulted in the death of four members of the American Legion during the Armistice Day parade Tuesday afternoon.

So large was the crowd that gathered for the hearing that it was necessary to hold the inquest in the city commissioner's office instead of the undertaking establishment as first scheduled.

Those who expected sensational testimony and a long drawn-out hearing, however, were disappointed. The inquest lasted little more than an hour and practically all of the evidence introduced had been previously heard many times.

STRIKE LAWS WILL PARALYZE ALL RAILROADS

Washington, Nov. 14.—The railroads will be completely tied up within sixty days if congress passes anti-strike laws, Representative Burke, Pennsylvania, told the house today during debate on the Esch railroad bill.

Burke is chairman of the general adjustment committee of the conductors of the Baltimore and Ohio railroad.

Burke indicated the tieup would be brought about by a general strike of railroad men but did not specifically say so.

After Burke's speech the house passed the Anderson amendment to the Esch bill which continues the present system of settling disputes between railway managers and employes thru six adjustment boards.

The vote of 161 to 108 was taken as showing sentiment for the Anderson amendment as against the Webster amendment which would have prohibited strikes.

The Anderson amendment has the approval of the railway brotherhoods it was said.

MINE UNION AND COAL WORKER IN BIG CONFERENCE

Washington, Nov. 14.—With the government acting as mediator, mine operators and representatives of the United Mine Workers came together here today in an effort to settle the dispute over wages and hours which caused the recent coal strike.

As the delegates assembled for this "peace conference" it appeared there would be a deadlock from the very outset.

The union representatives were prepared to enter the conference at 2:30 this afternoon determined to hold out for an uncompromising victory. Less than complete triumph, they feared, will give the extreme radical element control of the miners—the men will lose faith in their conservative leaders. Acting President Lewis was expected to insist on full compliance with the men's demands for a 30 hour week and wage increases ranging up to 60 per cent.
