

RADICAL ARRESTED IN LOGGING CAMP AT BLACK ROCK IS HELD

Dallas, Or., Nov. 18.—Walter Benkopp, a Russian by birth and an I. W. W. agitator, was arrested by Sheriff John W. Orr in one of the logging camps above Black Rock in the western part of Polk county Saturday morning, and brought to Dallas where he was lodged in the county jail awaiting a hearing.

Benkopp is alleged by members of the Loyal Legion of Loggers and Lumbermen of the Black Rock camps to have made remarks concerning the shooting affair at Centralia, upholding the I. W. W. and placing all the blame on the soldiers. He is also opposed to everything in which the government has a hand and would much rather see this country run the same as Russia in being handled, it is said. He will probably be held until work is received from the United States district attorney's office in regard to his case.

During the past week there has been several demonstrations by I. W. W. sympathizers about Dallas. Thursday, an employe of the Willamette Valley sawmill in this city was given his walking papers for making remarks derogatory to the government. Later on he was advised by Sheriff Orr to leave town as feeling was running high among ex-service men and members of the L. L. L.

Wednesday another citizen, alleged to have been pro-German during the war, made remarks condemning the ex-service men for the Centralia affair and claiming that the government was doing more for the soldiers now than was necessary. His case has also been presented to the district attorney's office in Portland for consideration.

The authorities in Polk county are bound to see that no I. W. W. gain a foothold here and they have the cooperation of both the Loyal Legion of Loggers and Lumbermen and the ex-service men together with that of practically every citizen of the county. During the past several months no less than 16 I. W. W. agitators and sympathizers have been forcibly kicked out of the logging camps near Black Rock and told never to come back again.

A New Tinless Bearing Metal
Letters have been granted W. D. Berry for a tinless phosphor bronze bearing metal. During the war and while the government was pleading for every one to conserve tin, Mr. Berry made experiments, the outcome of which resulted in the development and perfecting of a bearing metal alloy without the use of tin.

Putting Pest Damage to Profit
Everyone who has a garden detests a mole—everyone, perhaps, but a certain woman gardener out in Bryan county, Okla., they attend all the who reported her experience to the United States Department of Agriculture, puts them to work. A number of these pests undermined her garden this season, digging diminutive tunnels here, there, and everywhere. It would have discouraged the average woman; it didn't disturb this one. She started a little irrigation plant of her own, using the tunnels as irrigation ditches. She filled the tunnels with water repeated, until the garden was well watered, and finally drove the moles off the premises.

Cured His Piles

Now 88 Years Old But Works At
Trade of Blacksmith and Feels
Younger Since Piles
Are Gone.

Mr. Jacob Lyon, Homer, Mich.
I wish that you could hear him tell of his many experiences with ointments, salves, dilators, etc., before he tried my method. Here is a letter just received from him:

Dear Sir: I want you to know what your treatment has done for me. I had suffered with piles for many years and used ointments and all kinds of treatments, but never got relief until I tried yours. Am now completely cured. Although I am 88 years old, and the oldest active blacksmith in Michigan, I feel years younger since the piles have left me. I will surely recommend it to all I know who suffer this way. You can use my letter any way you wish and I hope it will lead others to try this wonderful remedy.

Yours truly,
J. L. LYON.
