

BOARD EMPOWERED TO PERPETUATE AID TO SOLDIERS' FUND

The state emergency board will have authority to create a deficiency appropriation for the purpose of carrying out the provisions of the soldiers' educational aid bill when the funds appropriated by the last legislature for use in that connection shall have been exhausted.

Although no money has been paid out by the state under the provisions of this act and none will be paid out until after January 1 when the fund becomes available applications now on file with the secretary of state's office from ex-service men who are seeking to take advantage of the aid extended by the state through this act insure an early depletion of the fund of approximately two hundred thousand dollars which will be provided by the two-tenths of a mill tax levy authorized by the legislature for the administration of the act.

The emergency board is to meet November 25 to pass upon an appeal from the public service commission for financial aid in maintaining its grain inspection department. Although no action is contemplated on the soldiers' educational aid fund deficiency at this meeting it is proposed to have the board express its sentiments toward a deficiency appropriation at this time for the benefit of the ex-service men whose educational plans this year depend upon the ability of the state to make good its promise as represented by this act.

In his opinion today Attorney General Brown holds that whereas whatever deficiency may occur will not be by any state officer or board but by the operation of the law itself a deficiency appropriation to meet the situation will be entirely within the province of the emergency board.

SALEM BRICK LAYERS VOTE WAGE INCREASE

By an unanimous vote of the brick layers, who met at the Central Trades and Labor council hall Monday night, the scale of wages here was raised from \$8 a day of eight hours to \$9. The raise will take effect on all new work, President George Viesko, of the brick layers, said today. The work now under way by the brick layers will be finished at the old rate, he said.

Mr. Viesko said that the matter of a raise has been discussed for a long time by the brick layers. The raise was endorsed by the Portland union, he said; and they encouraged action here boosting the rate. Mr. Viesko said that the bricklayers here work only about half of the time, and the raise, therefore, was necessary for them to meet living conditions. There are about ten bricklayers in this city.

No More Catarrh. This Simple Home Treatment has Stood the Test of Time

Every fall and winter, for more than twenty years, thousands of people have made it a daily practice to breathe the air of Hyomei and so keep themselves free from catarrh, coughs, colds, bronchitis, sore throat and influenza.

This is certain and you should try it. If you will breathe Hyomei daily, as directed, it will free you and keep you free from all these troubles or it won't cost you a cent.

Daniel J. Fry or any reliable druggist can supply you with the complete Hyomei outfit, including a hard rubber pocket inhaler. The inhaler will last a life time and extra bottles of the liquid Hyomei cost but a few cents. A few drops of oil in the inhaler will last for days and its pure, soothing, antiseptic, healing air, breathed deep in the air passages of your nose and throat, should keep you free from coughs, colds, influenza and catarrh all winter long. Pleasant to use, takes but a few minutes daily and is guaranteed to satisfy or money back. (Adv)

ROAD MAY BE REVIVED TO TOP TIMBER BELT

The revival of the Pacific & Eastern railroad, an old Hill line from Medford to Butte Falls, depends upon the construction of a 150,000 foot lumber mill at the eastern terminus of the road, which in turn depends upon the arrangement of satisfactory thru freight rates, according to Millard D. Olds of Medford and J. F. Brownlee, Mississippi lumberman, who were here Tuesday in consultation with members of the public service commission. Olds is negotiating the deal for the railroad and Brownlee is back of the proposed lumber mill. There are 4,000,000,000 feet of lumber in the hills east of Medford, according to Brownlee, who sees wonderful possibilities in that section with adequate railroad facilities provided.

WHY MAKE THE ANNUAL STRUGGLE WITH RHEUMATISM

Nature Gives a Cry for Help That S. S. S. Can Answer With the Right Treatment

This is the season when the damp, cold, changing weather of winter intensifies the pains and other disagreeable symptoms of rheumatism. Rheumatism never comes by accident. It is in the blood and system before a pain is felt.

The symptoms of this disease are almost unnoticed at first, so insidiously do they steal over the body; gradually the little pains and stiffness increase until they develop great inconvenience day by day, and if neglected or improperly treated will become chronic.

Not only is rheumatism the most painful of all diseases, with its swollen, stiff joints, throbbing muscles and stinging nerves, but it is a formidable and dangerous trouble.

Every day the poison remains in the system the disease gets a firmer hold and the patient is soon left a helpless cripple.

Of course, if this painful disease was on the surface only, you might reasonably expect to get relief by the use of lotions, liniments and other local applications. But the source of the disease is in your blood, the tiny disease germs find lodgment there and multiply by the millions, scattered by means of the blood circulating throughout your entire system.

In order to get permanent relief from this dreadful disease, the blood must be purified, and all irritating matter removed from the circulation. No remedy does this so quickly as S. S. S., the best blood purifier on the market today, that has stood the test of time with fifty years of success behind it, and more popular today than it has ever been before.

S. S. S. not only contains purifying and tonic properties, but solvent qualities, and, being purely vegetable, will not injure the system as do medicines which contain potash and other mineral ingredients.

While cleansing the blood of all poison, it builds up the system and relieves the sufferer of the nagging pains of rheumatism and is the one remedy that is so useful in repairing the damage done by impoverished blood.

Don't wait for your trouble to become chronic, but begin the use of S. S. S. today and purge the blood of the germs of rheumatism.

We maintain a medical department for the benefit of all who are afflicted, and our Chief Medical Adviser, who is familiar with all forms of rheumatism, will gladly give you advice without charge as to the treatment of your own case. Address: Medical Director, 11 Swift Laboratory, Atlanta, Ga.
