

OLCOTT PLANS TO CHECK DELUGE OF CHARITY DRIVES

With a view to bringing about a closer cooperation between the various charitable organization operating within the state if not, ultimately, a consolidation of several of the organizations and, incidentally the elimination of much of the overhead expense now incident to their operation, thereby, Governor Olcott today named a voluntary commission of seven which will be asked to study and report on the situation in the state at the present time. The personnel of the commission includes R. W. Montague, Ben Selling, Rufus Holman, W. P. La Roche, Mrs. W. B. Ayer, Mrs. C. Lewis Mead and John F. Daly, all of Portland.

"Inasmuch as this a voluntary commission, with no funds provided for expense, selections were made from Portland alone," said Governor Olcott today, in announcing the personnel. "Making the selection entirely from one community will also allow the members to get together frequently, and give more of an opportunity for full attendance at the meetings."

"An effort was made, in determining the membership of the commission, to have all of the varied interests connected with charitable work represented as nearly as possible. The personnel includes representation of the county, of the city, and of the various classes and kinds of charitable organizations with due regard being paid to various sects which are strongly engaged in this class of effort, as well as of women's organizations which have thrown themselves in a whole souled manner into causes representative of service to humanity."

Deluged with Drives
"The people of Oregon have been mercilessly deluged with 'drives' of every kind and description. It seems that whenever a suggestion is made for the promotion of some project the first step is to perfect a new organization for the purpose of calling upon the people for financial assistance."

"It is true that in the main the objects sought to be obtained are entirely worthy, but each organization has an executive secretary who is paid a salary. Each organization establishes an office with a rental expense, hires stenographers and in many other ways piles up overhead charges, all of which must come out of the pockets of the people who are donating for the particular charity. The system is bad and is rapidly unpopulating an form of charitable effort. The people of this state are inclined to give liberally to each worthy cause which they have shown in every instance when demand has been made. I believe, however, the people are entitled to protection from promiscuous demands coming from all quarters."

Four Killed By Auto Collision In Mountains

San Francisco, Nov. 24.—Authorities questioned H. H. Brandt today as to his part in the automobile accident yesterday when the machine driven by Charles M. Belshaw plunged 400 feet down Pedro mountain.

Belshaw and Mrs. Belshaw and their guests, Mr. and Mrs. J. D. Sherwood of Spokane, were killed. Sherwood was a pioneer Spokane capitalist. W. T. Hess, an attorney, said he saw Brandt's car collide with Belshaw's. Belshaw had been active in politics for years and had a wide acquaintance.

Oregon Agricultural college will offer a course of instruction in book-keeping during farmers' week.

Wonderful Results At 70 From Internal Baths

Mrs. L. M. Wadlia, 2043 National Ave., San Diego, Cal., writes Tyrrell's Hygienic Institute of New York as follows:

"Within the last month have had wonderful results and all inflammation has nearly subsided. I could hardly expect a woman over 70 to receive benefit from a trouble of long standing as quickly as a younger person. Money could not buy my 'J. B. L. Cascade' if I could not get another."

It is difficult to believe how many internal troubles internal bathing will relieve until you realize that physicians agree that 95 percent of human ailments are caused by accumulated waste in the lower intestine.

The "J. B. L. Cascade," the scientific method of internal bathing, removes in a perfectly natural way all poisonous waste, and has been so successful in promoting health that over half a million intelligent Americans are now using it regularly.

It is the invention of Chas. A. Tyrrell, M. D., of New York, who for 25 years was a specialist on internal bathing, and it is now being shown and explained by Daniel J. Fry of Salem, Oregon. They will give you on request a very interesting booklet on internal bathing by Dr. Tyrrell, "Why Man of Today is Only 50 Percent Efficient."

ITALY WEARIED BY MAD ADVENTURE OF IRRESPONSIBLE POET

By Camillo Cianfarra (United Press staff correspondent)

Rome, Nov. 23. — (Night) — The whole nation deplores the "irresponsible attitude" of Gabriele D'Annunzio which "threatens to involve Italy in serious international complications," the Messaggero declared today. The press of all parties, apparently realizing the poet aviator's adventures must be brought to an end, carried lengthy comment on D'Annunzio's Zara coup, severely condemning his action.

Expressing surprise at Admiral Millo's lack of firmness in failing to prevent the Zara coup, Epoca declared that Italy is tired of adventures such as the Fiume expedition and that they must be stopped.

While the poet aviator probably is prompted by the noblest motives, the newspaper said, his success in Fiume must not encourage repetition. The government should not permit actions of its military forces to embarrass the entire nation, the newspaper added. D'Annunzio's Zara expedition was "superfluous" in the opinion of the Tribuna. The city was garrisoned with Italian troops and has been assigned to Italy by the pact of London, the paper pointed out.

The Irea Nazionale, approving D'Annunzio's latest coup, reproached the government for the tone of its communications, which criticized the action of Admiral Millo in joining the poet. Premier Nitti had a long conference with the British ambassador and General Diaz last night over the Adriatic situation.
