

PAULUS CHOSEN AS COMMERCIAL CLUB HEAD AGAIN

Robert C. Paulus, manager of the Salem Fruit Union and president of the Commercial club, who last night was named to succeed himself as president of the club, said today that "he wouldn't shrink the job if they give it to me."

Paulus, during the past year, has been busily engaged with work of the fruit union and was unable to devote much time to the Commercial club. But, he said today, that if such devotion to the work of the club was satisfactory he would do it again, and said that he believed he would have more time the coming year.

Election December 10.
The nominating committee named Theo Roth and W. G. Allen as candidates for the post. Roth is present vice-president.
Election of the officers will be held December 10.

Other nominations follow:
Vice-president—C. B. Clancy, Roy R. Wise and E. G. Deckebach.
Secretary—W. M. Hamilton, William Gahlsdorf and W. D. Dyer.
Treasurer—S. B. Elliott, William S. Walton and Joseph H. Albert.
Directors Suggested.
Directors for the various departments suggested are:
Social—L. Greenbaum, C. O. Rice and A. L. Fraser.

Agriculture—L. J. Chapin, D. A. White and George W. Weeks.
Industrial—Frederick Schmidt, C. K. Spaulding and C. W. Niemeier.
Legislative—Hal D. Patton, George Putnam, Daniel J. Fry, Sr.
Civics—R. O. Snelling, O. B. Gingrich, Walter Denton.
The director of the tourist, publicity and conventions department is, by custom, the newly elected King Bing of the Cherrians, and the director of the commercial department is the president of the Business Men's league, elected by the league.

When the open forum meeting of the Commercial club is held Wednesday evening December 10, nominations may be made from the floor and receive the same account as those named by the nominating committee.

RESULTS OF RIOTING AT FOO CHOW FEARED

Tokio, Nov. 22.—(Delayed.)—In official quarters it is feared the rioting at Foo Chow between Chinese and Japanese Formosans, which started November 15, will lead to serious international conflict.

The Peking government has protested the despatch of Japanese warships, which already are steaming towards Foo Chow. The Japanese legation replying, declared the presence of warships at Foo Chow is absolutely necessary because a Japanese community is endangered.

Dispatches from Peking declare many Chinese and one American Y. M. C. A. secretary were injured when Formosans claiming Japanese citizenship attacked Chinese students, who were urging a boycott on Japanese merchandise.

The shanting award by the peace conference offers the background for the disturbance.

Based upon the school census of the city, Baker has a population of more than 12,000, there being 2500 children of school age.

A robber entered the house of Charles Ache, a resident of Glendale and stole his trousers, which contained \$500, the profits of a real estate deal.

Auto Embrace Placed Under Ban In Tacoma

Tacoma, Wash., Nov. 25.—(United Press.)—The "auto embrace" is under the ban in Tacoma, and young men who desire to spoon with their sweet-hearts are warned to do their hugging outside automobiles, especially if they happen to be drivers of machines. Edwin Valentini appeared before Police Judge Hackett on a charge of reckless driving, and pleaded guilty.

"What are the facts?" inquired the judge.
"Well, I was driving only about 12 miles an hour—with one arm," said Valentini.
"And what about the other arm?"
"That was around a young lady," hesitatingly admitted the autoist.
"That is reckless, all right, and a violation of the law," the court declared. "I will admit it is a pleasant form of law violation, but we will have to fine you \$10."

From the manner with which Valentini paid the fine his offense was well worth the price.

SMALL SALARIES OF TEACHERS IS THREAT TO NATION—FOSTER

The teachers' situation as it relates to national welfare was most forcefully pointed out by Dr. William F. Foster, president of Reed college in an address recently made before the Washington Educational association. Dr. Foster said:

"The lack of a living wage for school teachers is a national crisis. No other large class of workers in the country, except ministers, have become such victims of the war. Other workers took advantage of wartime conditions to double their wages or the price of their products, while the teachers who were not called by the government for other work, stood by their jobs loyally and uncompromisingly.

"The did not strike or loaf on the job; they did not picket the school buildings or burn them down; they refrained from shooting their superintendents and school boards. During all this time there was scarcely a branch of the government which did not call on the schools for specific war work. They responded wholeheartedly, effectively, and as a reward, teachers had their wages reduced about 50 per cent—ihat is to say, in purchasing power.

"Not a single shipyard, street railway, bank, mine, hospital, laundry, theatre, that could have continued to do business during the war without vast increase in wages. Yet there is scarcely a school system in America that pays its teachers, in purchasing power, three-fourths as much as it paid them five years ago. There are hundreds of colleges, faculties who are daily facing increases in living expenses more than five times as great as the increase in their pay. The wonder is not that the morals of the schools and colleges has suffered; the wonder is that they have gone at all. I am not sure but what the explanation is found in a professional spirit higher than that, at the present time, of any large group of workers in the world."

At a special election at Creswell last week the people of that city voted to issue bonds for the purchase of the water system now in operation there and owned by private parties.

For killing two deer after the season was closed, John Lawson, a farmer residing near Oakland, on Saturday paid a fine of \$50 in the justice court.

Small pox in The Dalles has reached an epidemic form and drastic measures are being taken to combat the disease. There are more than 50 cases in the city.

NEW POWER PLANTS FOR TUMALO RIVER ARE CONTEMPLATED

The construction of two power plants along the Tumalo river at a cost of approximately \$229,000 for the development of 4235 horse power is contemplated by the Bond Water, Light and Power company which filed application with the state engineer's office this morning for permission to appropriate fifty second feet of water from Tumalo creek.
According to plans submitted with the application the company proposes to appropriate the water in two falls. One of the plants would be operated with water taken from the canal of the Tumalo irrigation district and the other from a canal to be constructed lower down the stream. Inasmuch as the plan involves the appropriation of water already appropriated for irrigation purposes the company proposes the construction of another irrigation canal lower down the river from which to supply land that would be deprived of water by reason of the connection of the power plant with the Tumalo irrigation canal. A contract embodying this phase of the project was presented to the state land board by the company some time ago and is still pending. Action by the state engineer's office upon the power application depends upon the approval of the contract by the state land board.

MILK JUMPS AGAIN
Spokane, Wash., Nov. 25.—Blaming the producers, milk companies here put a half cent a quart raise into effect today. The bottled product now sets the consumer back 15 1/2 cents. The producers get an increase of 25 cents a hundred pounds.

LIBERTY Jack Pickford "IN WRONG"

A story of a typical country boy who is always in wrong until chance makes him a hero. It is a picture of the rag doll days, the old swimmin' hole and school day loves, with their joys and sorrows, just as you lived them yourself.

LAST DAY

PLACING OF HIGHWAY SIGNS IS CONSIDERED

At one o'clock this afternoon the representatives of the road sign districts, named by the Marion County Community Federation to formulate plans for the erection of road signs in all parts of the county, convened for an all afternoon session at the Commercial club. Decision they reach in the matter of raising funds, purchase of material and building will probably be made known tomorrow.

EPISCOPAL CHURCH TO BACK UP LEGION THROUGHOUT STATE

Portland, Nov. 25.—The Episcopal church in Oregon intends to get vigorously behind the American Legion in every possible way.
Bishop Sumner has written to all clergy in Oregon urging them to take immediate steps to support the American Legion in every possible way, and where there is no post of the America Legion to call the service men together and aid them in organizing one.
"At this critical time of import and possible revolution full membership in the American Legion is all important, said Bishop Sumner. "The American Legion is one of the most practical ways of Americanization of the foreign born."
"In my judgment the American Legion stands as one of the most potent forces in the country in the direction of order and loyalty. I trust the clergy of our church will give special attention to the ideals for which the American Legion stands, as named in the preamble of its constitution. As part of the work of its nation-wide campaign the Episcopal church plans a gigantic Americanization plan, and in the process of this plan it intends to work hand in hand with the American Legion."

Mrs. Nannie Parmlee, Hoyt Parmlee and Jesse G. Farrin were killed and three others badly injured by the explosion of a boiler at the sawmill of G. S. Parmlee & Son at Taft, on Siletz bay.
