

Emergency Board Provides \$300,000 To Pay Soldiers Allowances Temporarily

The state emergency board in session here Tuesday authorized the secretary of state to issue certificates of indebtedness up to three hundred thousand dollars with which to meet claims of ex-service men taking advantage of the provisions of the soldiers' educational aid act; authorized a deficiency appropriation of ten thousand dollars for the maintenance of the grain inspection department of the public service commission; authorized a deficiency appropriation of ten thousand dollars for the prosecution of criminals throughout the state by special agents of the governor's office; and expressed themselves as favorable to a deficiency appropriation of \$5000 for the Portland medical college of the University of Oregon for the purpose of meeting increased salaries for members of the faculty when the present appropriation shall have been exhausted, probably next June.

Action Made Unanimous.
The action of the board in meeting the huge deficiency looming in the soldiers' educational aid fund was made unanimous, was preceded by but little discussion and was necessitated by the inability of the legislature passing the act to force the extent to which its provisions would be accepted by returned soldiers, sailors and marines anxious to continue their education under the encouragement provided by the financial aid extended by the state. The fund of approximately two hundred thousand dollars which will be provided by the two-tenths mill levy included in the legislative act, it is estimated, will have been exhausted by claims incurred under the act up to January 1 when the funds will be available. Already 2500 applications, duly approved by the heads of educational institutions, have been filed with the secretary of state's office. A large percentage of these, it is estimated, will require financial aid to the limit of the \$200 per year provided by the act. Based upon these figures it is estimated that \$500,000 will be required to meet the state's promise the first or \$300,000 in excess of the legislative provision which deficiency is met in the authorization granted by the emergency board today, which is regarded as being sufficient to meet the needs of the act for the present school year at least after which further action will be taken as circumstances require.

Grain Bureau Cared For.
The \$10,000 deficiency appropriation for the maintenance of the grain inspection department came only after strenuous opposition on the part of Willamette valley millers and grain dealers and several members of the emergency board itself and represents a compromise on the \$19,800 estimated by the department as needed to insure its efficient operation for the next two years. On the final vote the motion to authorize the appropriation was supported by Governor and Secretary of State Olcott, Seymour Jones, speaker of the house; State Treasurer Hoff and Herbert Gordon, chair of the house ways and means committee. W. T. Vinton, president of the senate, and Dr. J. C. Smith, chairman of the senate ways and means committee, opposed the appropriation which they would have reduced even more.

Washington Failure Blamed.
The need for financial aid for this department, according to statements made at the meeting, was due to the failure of the Washington state grain inspection department to live up to its agreement to schedule a fee which would have made the department self-supporting. After the Oregon legislature had adjourned without making any appropriation for the grain inspection department the Washington legislature appropriated \$40,000 to cover overhead expenses, permitting of a material reduction in inspection fees which the Oregon department was compelled to meet in order to prevent diversion of grain shipments to Puget Sound ports. It was stated. This reduced fee, it was explained, was not sufficient to meet the expenses of the department and any attempt at an increase would only result in driving grain shipments away from Columbia river ports. The public service commission was heartily supported in this argument by representatives of the Portland dock commission and several Portland grain companies who declared that any increase in fees would necessitate the routing of their grain shipments to Puget Sound. Willamette valley millers present at the meeting opposed the appropriation on the ground that the department was inefficient, inaccurate in its weights and unnecessary. The contention was emphatically refuted by Portland grain men present.

Medical School Aided.
The promise of a \$5000 deficiency appropriation for the U. of O. medical school also went throughout without contest. The need for the appropriation was presented by President Campbell of the university who explained that members of the medical school faculty were receiving a salary of only \$2800 a year as against from \$4500 to \$6000 a year paid by other schools of similar standing. The deficiency appropriation which will be authorized as soon as present funds are exhausted will provide for an increase in salaries up to \$3500 per year for all department heads in the school. It was stated. Members of the faculty, it was stated, had repeatedly been offered better salaries in other schools, repeatedly but had remained with the institution at the lower figure through loyalty.

\$10,000 Crime Fund.
The authorization of the \$10,000 deficiency appropriation requested by Governor Olcott for the prosecution of criminals throughout the state was also granted without contest, except that Senator Smith took occasion in casting his vote to declare that he would like to see as much effort expended in apprehending and punishing other classes of criminals as was the case with bootleggers. Of this appropriation \$7500 will be used in dealing with disloyalty and general criminal operations and \$2500 will be required in the enforcement of the prohibition laws during the remainder of the biennium. In presenting his request for the appropriation Governor Olcott explained that of the \$5000 appropriated by the last legislature for the payment of salaries and expenses of special agents for the apprehension and conviction of criminals and the return of fugitives from justice, but \$629.28 remained. According to figures submitted by the governor to explain the use of this fund it was shown that more than \$9000 in fines have been realized by the various counties from convictions secured through investigation of crime by special agents of the governor's office.

One Fatally Injured And Many Hurt In Train Wreck
Fort Madison, Iowa, Nov. 26.—One person was fatally injured and more than a dozen others were hurt when Santa Fe California Limited No. 1 collided with a freight train on a bridge over the Mississippi here this morning. Despite the terrific impact, none of the cars of either train left the bridge.

Discovery Of Explosives Lead To Further Search
New York, Nov. 26.—Search of other radical headquarters here was to be undertaken today, following discovery by detectives last night of sufficient high explosives to wreck several city blocks, hidden in a wall at headquarters of the Union of Russian Workers.

LAND OFFICE GIVES FULL INFORMATION UPON LAND GRANTS
From the offices of the department of the interior at Roseburg, comes the following information regarding the Coos Bay military wagon road grant. The information is sent out in answer to the many letters received by the department, from all over the state, and is correct in every detail. The lands of the grant extend in a belt about 12 miles wide, running west of Roseburg, in both Douglas and Coos counties. The lands are now being classified and will be opened at a future date. Regulations will be issued later. Lands with less than 300,000 feet of timber to 40 acres will be classified as agricultural, and will be entered under the general provisions of the homestead laws, as modified by a special act vesting the land. In addition, the entryman must pay at the rate of \$2.50 per acre—50 cents at the time of entry and \$2 per acre at the time of proof. Lands with 300,000 feet, or more, of timber will be classified as timber lands. Such lands will not be open to entry until the timber thereon has been sold by the government and removed by the purchaser. They will then be opened under the homestead laws. Township plats, at the rate of \$1 per plat, are now obtainable. The plats show the location of all grant lands in the townships, as well as lands subject to entry at date of mailing. Orders for the plats should be accompanied by a post office money order, made payable to R. B. Turner, receiver, and should clearly state the correct number of the township and range desired.

San Francisco Housewives To Boycott 17-Cent Bread
San Francisco, Nov. 26.—An organization of San Francisco housewives today began a campaign of education for a boycott on 17 cent bread. Raisin bread, the women say, should not be eaten now that raisins have become a luxury.

Absorbing Story In "Miracle Man" Thrills Oregon Crowds
A motion picture that will thrill audiences wherever it is shown, not only because of its absorbing story, but because of its powerful heart appeal, is "The Miracle Man," a new Paramount-Artcraft feature, produced by George Loane Tucker, which is showing at the Oregon theatre for the next two days. The story deals with a notorious band of crooks operating in New York's Chinatown, who learn of an ancient patriarch living out in the country and possessing the power to heal the sick and make whole the crippled. With the idea of making money out of his operations, Tom Burke and his pals go to the deaf and blind healer. Then commences a transformation in these crooks, that makes one of the most fascinating stories of all time. The chief roles are finely interpreted by Thomas Meighan, Elinor Fair, Betty Compson and others of similar calibre.
