The dealers being aware of the shortage of dairy timber of the responsible kind, agreed to pay an additional 40c per hundred to reliable dairymen and charge approximately the same in proportion to the consumer, as the dealers do not feel that they should forfeit the additional cost, as the general cost of operating and delivering has increased very much over that of 1 year ago. We therefore agree to continue to serve our patrons with milk of good quality and render good service during the winter months, for prices listed.—C. H.
