Woodchopping Sport Of California Nabobs

Los Angeles, Cal., Nov. 28.—Introducing wood-splitting, king of outdoor sports, successor to golf as a waist line reducer and the newest fad of the wealthy tourist.

Linnard has installed at his hotels in Santa Barbara and Pasadena just a common, old-fashioned woodpile, well equipped with axes of various weights and not too sharp.

Guests are welcome to chop to their hearts' content. Linnard is willing to furnish all the wood they want.

The spot is popular. Henry Ford was responsible for its introduction in southern California. When he was here last winter he and his son, Edsel, seldom missed a day without an hour at the wood pile.

At Santa Barbara it was whispered that William G. McAdoo raised a crier on his right hand at the woodpile last winter.

Native Santa Barbarans, who expect President Wilson to join their colony for at least a few weeks when he gets a real vacation, have a tree all selected for him to demolish.

But it was Linnard who has brought wood-splitting to the masses—that is the masses of tourists.

The queen of the Belgians, the Princess of Wales, and other foreign dignitaries together with Gen. Pershing and other notables have planted memorial trees. The forestry association points out that these trees all will be famous a hundred years from now...
