Advanced milk prices to take effect Dec. 1st, 1919: 1 pt. per day per month \$2.40; 1 qt. per day per month \$4.50; 3 pt. per day per month \$6.60; 2 qt. per day per month \$8.70; 5 pt. per day per month \$10.75; 3 qt. per day per month \$12.25; 4 qt. per day per month \$15.25. All extra milk 8c per pt. 15c per qt. Cream 35c pt. table cream 45c pt., whipping cream 1.4 pt. table cream 10c per bottle. Wholesale, in bottles per gal. 48c. in cans 2 gallons or less 45c per gal. in cans 3 gallons or more 40c per gal. The advance in price was demanded by producers owing to high price of milk feed and advance in operating expenses in general over that of a year ago. The dealers being aware of the shortage of dairy timber of the responsible kind, agreed to pay an additional 40c per hundred to reliable dairymen and charge approximately the same in proportion to the consumer, as the dealers do not feel that they should forfeit the additional cost, as the general cost of operating and delivering has increased very much over that of 1 year ago. We therefore agree to continue to serve our patrons with milk of good quality and render good service during the winter months, for prices listed, Salem Sanitary Dairy, Meadow Lawn Dairy, Fairmount Dairy. 285*

Reports Show Silverton Banks Make Rapid Growth

Silverton may well feel proud of the splendid showing being made by her banking houses. The published statements appearing in this issue of the Appeal is evidence enough of the steady growth and prosperity of the community. The growth of the banking houses is the index through which the growth of a community may be looked. The mounting deposits bespeak the advent of new capital and new blood and the wealth of the inhabitants.
 The combined resources of the two banks are nearing the two million mark. A perusal of the statements will give a better understanding of the phenomenal growth of our banking houses than we can tell it. Read them over, they will interest you.—Appeal.
