

FORD BIG FACTOR IN FREEING HOLY LAND

W. T. Massey, British journalist, who recently recorded the Prince of Wales' tour through Canada and the United States, for the London Daily Telegraph of London, was official war correspondent with the English army under General Allenby — which wrested the Holy Land and Syria from the Turks.

When telling of his experiences, he says that he "used a Ford in many a journey from Beersheba to Jerusalem and to Nazareth, Damascus and Aleppo," and that "the old car took me more than 4000 miles in six weeks and I believe within one year it travelled over 30,000 miles in a country where roads are few, and these the worst in the world."

"In the Sinai country it is very sandy and it is quite a common sight to see a Ford running along with two rolls of wire netting secured to the foot boards. When the car gets to a place where the sand is impassable, the driver unrolls the netting over the roadway and thus an easily passable wire road is constructed; in fact, some parts of the country permanent wire roads have been made and over these the car runs along easily and smoothly, at thirty miles an hour."

Mr. Massey also stated that the Ford played no small part in helping "to deliver the Holy Land and Syria from the Turks" and that his "old 1908" Ford was the most wonderful car in the war.

Cops Must Know Shimmy, Says Chief's Ruling

Worcester, Mass., Dec. 4.—The letter "D. S. R." following the name of a Worcester policeman indicates he was graduated with the degree of "decent shimmy shaker."

Yes, the shimmy—the shaking, shaking and often mischievous shimmy—has been officially introduced into the police department here.

(Introduction for breathless astonishment and gasps.)

Chief of Police George H. Hill decided no "copper" unacquainted with the subtle convulsions of the dance was qualified to judge when the shimmy was decent or vulgar.

Upon this theory the police force was sent to a dancing school. They were graduated in a last wild wiggling competition and are now ready to put the ban on excessive wiggling.

DANDRUFF SURELY DESTROYS THE HAIR

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails. (Adv.)
