#### INCREASE OF 1 MILL TO PROVIDE HIGHER SALARIES FOR TEACHERS WOULD STILL KEEP LEVY BELOW OTHER OREGON CITIES

Salem, with a lower school levy than any of 16 other cities of similar school rating in Oregon, would still have a levy .2 of a mill less than the lowest of these 16 cities even if, at the special school election to be held next Monday, it should vote the additional 1 mill asked to provide increases in the salaries of

Figures showing the school taxes paid in 16 other cities in the state demonstrate that Salem is paying a smaller tax than any of the 16, by 1.2 mills, and 5.5 mills less than the average, which is 12.8 mills for the 17 cities including Salem.

Next to Salem the lowest levy in any of these places is 8.5 mills, the present assessment for school purposes in Oregon City. Bend, with a levy of 31 mills leads the list.

The last levy in Salem for school purposes was 7.3 mills and the following table shows the amount in excess of this figure which is assessed against the taxpayers of the 16 other cities:
