Distribution of the \$115,405.74 recently received by the state from the federal government for apportionment among the various counties containing forest reserve areas, was completed Monday by Sam A. ### LOCAL FORD DEALERS MAKE BEST SHOWING

All orders for Ford cars received by the Valley Motor company and other Ford dealers of the state by January 15 will be filled by the Ford Motor company, despite the curtailed output of the factory, according to assurances given by S. A. Stellwagen, the new Ford manager for Oregon, at the convention of Ford and Fordson dealers of the state, held at the Hotel Benson, in Portland Friday.

Watt Shipp, John Harbison and Ben Vick were the representatives of the Valley Motor company, which was complimented as being the Oregon agency with the most bonafide orders on file to date, during the sessions which were held both in the afternoon and the evening. The Valley Motor company has orders for 128 cars and the announcement of Mr. Stellwagen assures their delivery by January 15.

Many matters of great importance regarding the Ford sales, policies, service and general distribution of Ford products were taken up, also a new film recently received from the Fordson factory, entitled "Keep the boy on the farm," was shown and was highly interesting. This film will be shown in Salem during the corn show at one of the local theaters.

### COLD WAVE TIES UP MOUNTAIN TRAINS

Denver, Colo., Dec. 8.—A minimum of 19 below zero officially recorded here set a record for the fourth cold wave which has struck Denver and Colorado within six weeks. Telegraph and telephone service between Denver and the outside world was seriously crippled, due to snapping of wires from the extreme cold.

Two passenger trains scheduled to leave Denver last night were stalled, due to storm conditions east.

The western slope reported extreme heavy snowfall with sub-zero temperatures today.

Heavy snow and low temperatures were reported from the Rocky Mountain states generally, extending southward into New Mexico and eastward into Nebraska and Kansas.

The cold spell will last one more day, it was predicted.

Mrs. F. R. Vance, accompanied by Miss Betty Sauceville, have gone to Sutherland for a visit of indefinite length with Miss Sauceville's grand parents.

### National Banks May Exceed State Rates Of Interest

Washington, Dec. 9.—National banks have the right to charge interest in excess of the maximum amount allowed under state law, the supreme court has decided.

The case was brought by the Citizens & Savanah Bank against the Naton Bank of Savannah, Ga., the claim being interest in advance from the total loan, making the interest figured on the amount received instead of the face value of the loan, exceed 5 per cent, the maximum in Georgia.

Justices Pitney, Clarke and Brandeis dissented.

### Why Not "Gaep"?

Temporary arrangements for caring for the employment problem in Oregon will be perfected at a conference in Portland, Wednesday noon between State Labor Commissioner C. H. Gram, Wilfred F. Smith, former manager of the federal employment bureau in Portland, and A. W. Jones, manager of the Portland city free employment bureau.

In a letter received by Gram, Monday, from J. B. Densmore, director-general of the federal employment service, it is suggested that Gram, as state labor commissioner, accept the appointment as federal director of the U. S. employment service at a nominal salary of one dollar per year. This appointment would carry with it authority to appoint a clerk at a salary of \$150 per month who would be the executive officer of the employment in the state.

This arrangement would be only temporary pending the outcome of legislation now pending in congress which provides for a similar arrangement but which carries with it an appropriation of \$4,000,000 approximately \$25,000 of which would be apportioned to employment work in Oregon contingent upon a similar amount being appropriated by the state legislature for the same cause.
