CHARGES OF CONTEMPT ARE CONTINUED AGAIN

Indianapolis, Ind., Dec. 16.—Hearing charges of contempt of court against officials of the United Mine Workers of America today was continued indefinitely by Judge A. B. Anderson in United States district court. The charges were based on alleged violations of the injunction issued by Judge Anderson during the strike of bituminous coal miners preventing union heads from furthering the strike.

The case can now be called up at any time. Judge Anderson took this action upon request of counsel of the United Mine Workers, who asserted the defendants are using all their power to induce the miners to return to work. The request was concurred in by government attorneys, except in the case of Alexander Howat, president of the Kansas district of the miners' union and leader of the "radical" element within the organization.

Salvation Army To Carry Cheer To Those In Need

With the approach of the holiday season the Salvation Army has begun its investigation for locating the needy families of the city who are in need of the necessities of life, and are preparing Christmas baskets of food and clothing to be distributed Wednesday, December 24. No personal subscriptions are being solicited this year, according to Ensign Hunter, the kettles on the principal street corners being the only method used to receive contributions. Any one wishing to make a private donation may drop a note to that effect in one of the kettles, or call at the army hall 241, State street, or telephone 1820. The usual custom of having a Christmas tree each year for the distribution of toys and presents to the poor children of the city will also be adhered to this year. The tree will be held on Friday, December 26.

"The need is especially great this winter," says Ensign Hunter, "because of the weather conditions, and the necessitated close of a number of industries, such as the mills, and those places of business that are unable to operate because of the snow."

Sports Doom Foot Binding in China

Freedom of Action Imperative and Bound Feet Disappearing.

Basket ball, tennis and jumping the rope are curing China of the age-old, cruel custom of binding the feet of her daughters. These American sports are proving just as efficacious in doing away with that evil as is the law of the Chinese republic against the practice of foot-binding. In many instances it is even more efficacious for there can be no basket ball, tennis or rope jumping for the girl with bound feet and since the "new woman" of China, even in her girlhood, insists upon participating in American sports the bound foot must go.

American Playground One of Our Most Valued Exports to the Orient, Says this Observer

John W. Wood, Foreign Secretary to the Board of Missions of the Episcopal Church, who recently returned from a nine-months' tour of the Far East in connection with the Episcopal Nation-Wide Campaign. In fact, Mr. Wood ranks the American playground as one of our most important "exports" to the Orient. He hopes it will be "exported" in still larger quantities through the Nation-Wide Campaign as that campaign seeks to raise more than \$42,000,000 to strengthen all phases of Episcopal activities at home and abroad.

"Quietly but systematically for the past twenty years," he said, "we have been exporting to the Orient that distinctly American institution, the playground; and now the Chinese Empire is dotted with these open air places. One can't easily estimate the extent of the benefits future generations in the Orient will derive from this infusion of the spirit of free, open air America into the youth of China.

The Brunswick

On The Brunswick any make record can be played at its best. These marvelous accomplishments are made possible by two patented features that constitute the Method of Reproduction. They are the ULTONA and the TONE AMPLIFIER.
