Americans Eat Less BREAD Than They Should

Why do people in Europe live more cheaply than Americans? Because BREAD forms the greater portion of their diet.

In Great Britain 10 per cent more BREAD is eaten than in America. In Italy 28 per cent more is eaten. In France 70 per cent more is eaten.

In each of these countries the production of wheat is only a fraction of what it is in America.

If Bread is the Best Food for other nations, why should it not be for Americans.

HOLSUM is your Best BREAD Eat More of it.
