

CAPITAL NATIONAL BANK RECEIVES U.S. TRUST COMMISSION

The federal reserve bank has recently granted the application of the Capital National bank of this city for authority to act as executor, administrator, trustee, guardian and registrar of stocks and bonds, according to Joseph H. Albert, cashier, Monday. Both the federal government and the Oregon state banking department will have supervision over the trust business done by the bank which is

required to keep \$50,000 in securities on deposit with the state for protection of its patrons.

This is the first time in Salem's history that a bank has been qualified to act in these capacities, and will be a convenience to many citizens, particularly those who wish to have a bank act as executor of their will, or handle other trusts and guardianships.

Heretofore none of these facilities have been available to people of this community; Portland being the nearest point where they could be obtained.

PHONE COMPANY ASKS MORE

Application for an increase in rates was filed with the public service commission by the Sherwood Telephone company Friday.

MYSTERIOUS FIRES HIT SAN BERNARDINO

San Bernardino, Cal., Dec. 20.—Two Chinese were burned to death and \$35,000 damage done when 13 incendiary fires broke out in the rear of stores in the business section here early today. All the fires started within a period of one hour beginning at 1 a. m. The combined efforts of the city fire department saved the business section from destruction. Police are entirely without a clue to the insanity of the firebug. They believe he was either insane or was a "red" bent on a campaign of destruction.
