Bankers Ask to Not Raise Interest Rates on Deposits  
 Washington, Jan. 6.—An appeal to the bankers of the country not to raise interest rates on deposits in a scramble for out-of-town balances was made today by Governor Harding of the federal reserve board, in opening a conference of representatives of clearing house association from all parts of the country.  
 Governor Harding served warning that the federal reserve board did not recognize any relations between the re-discount rates of federal reserve banks and the interest rates paid by member banks on deposit, and gave notice that the board would be free to raise or lower its re-discount rates whenever the industrial or commercial situation might require such action.  
 All members of the public service increase in the freight and passenger rates on the Sumpter Valley rail road in Baker county.

When it comes to selling insurance policies or collecting money for civic or patriotic drives there are few people that can beat the record achieved by J. F. Hutchason of Salem, says the Oregonian. Mr. Hutchason has an office on State street in the heart of town and he has such sociable ways that he just naturally can't help people from helping him pile up policy sales until last year he won special recognition from the eastern company he represents. Hutchason took the day off yesterday and shed some of his smiles and persuasiveness around the imperial lobby.

A meeting of the Salem Auto Dealers association is scheduled for Tuesday night at the Commercial club rooms. The association, which was recently formed has announced that plans for an exhibition of motor vehicles are being furthered and that the show will probably be held at the armory some time in February.

"MADE IN OREGON WEEK"

The Associated Industries association of Oregon are asking the merchants of Salem to put on a "Made in Oregon Week" the latter part of January in which the several store displays will be made of Oregon manufactured products and special effort will be made to show and familiarize the people of Marion and Polk counties with products of our state. The Woolen Mill store is going to take an active part in this "Made in Oregon Week" campaign and has already made arrangements with a number of manufacturers for displays and it is plan of the management to put on a display that will be worth seeing and the entire public is cordially invited to view the exhibit. Capable salesmen will be provided to explain the different lines, and as this is purely an exhibit affair no one will be importuned to buy. A list of the Oregon made lines that we expect to represent will be given the public as soon as final details can be arranged.—C. P. Bishop
