

### WHITMAN AND WILLAMETTE TO PLAY ON TUESDAY

Meeting against the crack Whitman college five, the Willamette university quintet will make its debut into the Northwest intercollegiate conference on the home floor in a two-game series, next Wednesday and Thursday nights, when the northerners invade Oregon for games with the local team, University of Oregon, Oregon Agricultural college and Multnomah club of Portland.

Just how good are the chances of the Bears to romp on the visiting Missionaries no one can tell with any degree of accuracy. Whitman is in the habit of placing a strong team on the floor and will number in its lineup at least two stars—Dement and Garver, two all-northwest selections of former years. Rick, rated by sport writers as one of the most promising intercollegiate players in the state of Washington in recent years, will also wear the colors of the visitors.

While the fans await the call of the referee's whistle, Coach Mathews is through the paces with stiff practices every afternoon at the armory. All of the regulars have reported back from the Christmas vacation, with the exception of Wapato, who spent the holidays in southern California, and the development of team work and active scrimmage have taken the place of the light workouts of last month. Jackson, Gillette, R. Dimeck, Irvine, McKelrick, Wapato and Doney look like the probable selections of Mathews to start against the Missionaries, and three of this aggregation have had previous experience on conference floors. Jackson in 1918, and McKelrick and Wapato during the 1917-18 season. Dimeck and Doney were both members of the freshman team of last year, which established the victory hopes of a number of crack high school aggregations.

Both of the contests are to be staged on the armory floor, giving the team the advantage of a regular court. The wax surface used for dancing purposes will be removed to speed up the play, and ample seating accommodations will be provided. Seats for the game will be placed on sale at Hanner Bros. Friday.

George Anderson, manager and coach of the Multnomah club quintet, who has won the reputation of being one of the best conference officials, will probably referee the games.

The minister of interior declared today that Barcelona was calm and confirmed reports that there were 100 arrests had been made in consequence of recent outbreaks. Leaders of the radicalists there had disappeared, he said. He added that the government intended to order the termination of the lockout recently declared in Barcelona which has been keeping 100,000 persons out of employment.

### DOERFLER FARMS AT SILVERTON REFLECT VALUE OF PURE STOCK

Silvertown, Jan. 8.—Several years ago when Doerfler Brothers first conceived the idea of stocking their farms in the Waldo Hills with fancy stock, they were met with universal approval. It was not only the center of attraction throughout this community, and all manner of predictions of success and bankruptcy were current; but at the Doerfler farms today may be seen illustrations of what scientific dairying will do for the farmer of the Willamette valley. If they will pursue the same course these enterprising men have followed.

In a communication from K. H. Hennessey, who is superintendent of the F. A. Doerfler farm, it is learned that the Jersey cow, Grandiosa Rosaire, owned by Mr. Doerfler, has produced within the past two months over 200 pounds of fat and nearly 4000 pounds of milk. Grandiosa Rosaire is the dam of the world record holder, Silver Chimes Grandiosa, and this is her fourth year of test. She had less than six weeks rest before freshening. The animal is a beauty and has proven a great asset to the owner.

**Big Prices Paid**  
Price is not an object with the Doerflers when purchasing stock for their farms. Recently F. A. Doerfler sold \$1400 for a Jersey cow at a stock sale in Youhill county and he finds that it was a good investment.

To succeed in dairying it is plain that every man must have an high appreciation as is possible for him to obtain by study and close observation of the essential qualifications of a dairy cow. He must know a dairy cow himself, and of course it is impossible for him to know this until he has had lots of experience with the cow, until he has bred and raised her, and stayed by her through her milk-making period until she reaches the highest state of her physical development. If one wants to get a perfect type in his mind he has only to look at the famous Jersey stock which inhabit the Doerfler farms. Quality stock has always been the motto of Messrs. Doerfler. They have from time to time purchased fancy stock from eastern breeders and today own a herd second to none in the northwest. The production of high crops has been an important factor of the Waldo Hills farms and constituted an income for the husbandmen of no small importance, but today, in addition to the annual checks from purchasers of grain and other crops the Doerflers are receiving weekly checks from the dairy industry, and selling fancy stock at enormous prices, shipping to all parts of the United States.

**Doerfler Breeding**  
Through the nation wide fame established by his immense dairy business F. A. Doerfler went to Bangor, Maine, last fall to superintend a large dairy farm, and his Waldo Hills farm has been under the supervision of K. H. Hennessey. Mr. Doerfler has resigned his position in the east, however, on account of his interests here and will return this month to look after the herd which has been a source of great profit and pleasure to him.

### INDIANS SCORE EASY VICTORY OVER ALBANY

The Chemawa basketball quintet annexed their third victory for the present season, Thursday night, when they defeated the Albany American Legion team by the score of 28 to 6.

### CARPENTIER READY TO GIVE CHAMPION WEIGHT ADVANTAGE

Paris, Jan. 8.—Georges Carpentier is willing to give concessions in the matter of weight in order to meet Jack Dempsey, according to a statement made tonight to the Associated Press by Desamps, Carpentier's manager. Desamps said he was willing to split the \$400,000 purse offered by James Cofferth on a basis of 60 per cent for the winner and 40 per cent for the loser.

**Kearns Is Pleased.**  
Los Angeles, Cal., Jan. 8.—Jack Kearns, manager for Jack Dempsey, expressed confidence today that in view of the attitude of Carpentier and his manager, Desamps, there would be no difficulty in getting together on the details of the fight plans and staging it at Tijuana, Mexico, under the direction of Promoter Gutfrot.

"I am glad to hear that Desamps is willing to yield a few points on the division of the purse," said Kearns, and I feel sure that this can be arranged to suit everybody.

"As regards Desamps' statement that Carpentier will give away weight, that is just a joke. Jack weighed 187 when he met Willard. Carpentier weighs between 180 and 185 pounds. The slight difference in heavyweights means nothing. According to the story from Paris, they must think that Jack is the stand killer, weighs 217 pounds.

**It is true, of course, that Carpentier is leaving his home land and undertaking a long trip to meet Dempsey; but to offset this, if Cofferth is willing, I will suggest that the fight be held on Labor day instead of the Fourth of July. This will give Carpentier a chance to get used to the change, make his training as long as he likes, and perhaps pick up a little money in the interim work or exhibitions if he wants to.**

"Besides, I think Labor day is a better fight date than July 4, because lots of sportsmen want to spend the Fourth with their families, while they don't mind being away on Labor day." Kearns said he was going to San Diego today to meet Cofferth.

### BIG ESTATE MAY BE BOUGHT AND GIVEN TO HAIG FOR HOME

London, Jan. 7.—The prophecy of Thomas the Rhymer, who wrote "Tide whay may betide, Haig shall be Haig of Bemersyde," bids fair to be fulfilled. A movement is on foot here to purchase the Scottish estates of Bemersyde together with the historic mansion and present them to Earl Haig (who adopted the designation of Earl Haig of Bemersyde on his elevation to the peerage) as a record of the British people's admiration for his triumphant leadership on the British armies during the war. The property is now owned by Lieutenant Colonel A. B. Haig.

It was to Bemersyde where Turner, the painter, was taken by Sir Walter Scott, the poet, for the purpose of making drawings to illustrate the scenery of Scott's poems.

The estates, which include the famous mansion, have an area of 1300 acres and the market value is put at \$250,000 for which sum it has been decided to accept. They have been owned and occupied by the Haigs continuously for more than seven centuries.

Bemersyde is situated in the parish of Merton, Scotland, in the very center of a district which for more than 200 years was the battleground of two hostile nationalities as well as the scene of almost never-ending internal conflict, rapine and dissension.

Of the hundreds of forts and castles which once existed on the Scottish side of the border, Bemersyde is the only one that is still inhabited as a manorial residence and inhabited, too, by the family that were its original founders. Bemersyde House, used for a long time as a school, is still a beautiful feature of the river Tweed. On the opposite bank of the river is the promontory of Old Melrose, the spot on which the Saxon deities of Aldin, more than 1200 years ago, unified the symbols of Christianity.

Contributions toward the purchase of the estate are to be accepted by every bank in England.

Since Douglas Fairbanks, associated with Mary Pickford, Charlie Chaplin and D. W. Griffith, decided to produce independently a year ago, each forthcoming announcement from this "Big Four" is greeted with much enthusiasm. ### BASEBALL

Cincinnati, O., Jan. 8.—Election of a new chairman may be one of the results of the annual meeting of the national baseball commission here today. President John H. Sawyer of the National League and R. B. Johnson of the American League are in Cincinnati for the yearly conference with August Herrmann, the third member of the commission.

San Francisco, Jan. 8.—Miller Huggins, manager of the New York American league baseball club, is expected here today for the purpose of signing Duffy Lewis, former outfielder for the Boston Americans. According to friends of Lewis the salary figure is agreeable to him.

Lewis announced his retirement from baseball several weeks ago, saying he was going to open an automobile tire establishment in Fresno.

San Francisco, Jan. 8.—Charles "Swede" Ribberg, shortstop of the Chicago American league baseball club, announced today that he had retired from baseball and would open a restaurant here. Ribberg expressed himself dissatisfied with major league salaries.

San Francisco, Jan. 8.—The "split ball" has been barred from the Pacific Coast baseball league, Charles Graham manager of the San Francisco club, announced today. The league executives have demanded that a list of all pitchers using this style of delivery be submitted to them in order that they may be notified that they must eliminate this pitching feature, Graham said.

Albany, N. Y., Jan. 7.—The five socialist members of the assembly, in a resolution adopted 149 to 6 late today, were denied seats pending an investigation of their eligibility and qualifications.
