ABSENCE OF YANKS AT TREATY SIGNING DEEPLY REGRETTED

London, Jan. 10.—Regret over America's absence from participating in the ratification of the treaty of Versailles is again expressed in editorials printed in this morning's newspapers. "America's absence," says the Telegraph, "clouds alike the prospect of the present and the future. It weakens profoundly the moral authority of the league of nations and the sense of security regarding the immediate future. The allies have waited until they could wait no longer and must now go forward alone, deeply sensible of the loss they have sustained, but still hoping that sooner or later they will be rejoined by the great republic."

Referring, like other journals, to political conflicts in America regarding the league and the Versailles treaty, the Chronicle says: "The position is not very reassuring to Europeans who are living in a world shattered by war. While Americans continue to debate we may derive some crumbs of comfort from the fact that statesmen like William Jennings Bryan and Gilbert M. Hitchcock, democratic leader in the United States senate, have no illusions about the danger of delay for Europe and the effect it has had upon American prestige."

More Grocers In Portland May Be Arrested—Profiteers

Portland, Or., Jan. 9.—Further arrests are probable before the week is ended among grocers of the city as the result of information given United States Attorney Humphreys by householders that sugar is being sold by grocers at prices exceeding 13 cents the fair price fixed for this commodity by W. K. Newell, federal food administrator, Mr. Humphreys said today.

When you wish "somebody would invent something new to eat" you need BEECHAM'S PILLS. Even when digestion is good, poisons are formed during its processes that unless eliminated irritate mind as well as body.
