**We Have It On Display**

**THE Beeman One Horse Tractor, which you have seen advertised in the Country Gentleman, Farm and Fireside and other magazines. It solves power and labor troubles on large and small farms, does any farm work ordinarily done by one horse, mule or by hand. It will plow, harrow, seed, plant, cultivate, mow hay, mow lawns, haul loads.**

It is also a self-propelling 4-H.P. gas engine for belt work. Operates the churn, feed grinder, cream separator, pump jack, washing machine, etc.

**It's Dependable and Economical**

It's always ready—any time of day or night—for any job anywhere you want it done. It steps right off and starts to work. It doesn't waste time resting or cooling off. It works all day on 2 gallons of gasoline and one quart of oil. You don't have to feed it or take care of it when it's not working.

It enables the farmer with a large tractor to completely motorize his farm—it does the work that he now does with horses or by hand.

To the truck gardener, fruit grower, flower raiser, suburbanite and others who cannot use a large tractor it brings the more efficient, reliable and economical motor power method—it means independence from hired outfits, drudgery and labor troubles.
