

INDUSTRIAL MEN OF CITY URGE WORKERS TO OBSERVE THRIFT

In the 12 manufacturing plants and establishments in Salem Thursday—"Industrial Day"—the fifth day of National Thrift week—the gospel of saving was being preached. Each employer with the interest of his workman at heart, was posting notices urging thrift, or making verbal pleas to observe the occasion.

The tenor of the campaign Thursday was that while thrift now might seem unavailing the benefits to be reaped later would be four-fold. Employers were urging the saving of parts of wages and salaries, that they claim are higher now than ever before and afford big opportunity for saving and thrift.

Interest in thrift during the entire has been marked and many persons are heeding the call of economy. In that, they see, the only chance to bring the dollar "back to earth."

Friday will be devoted to another thrust, and the plea, being sounded nationally, for thrift will be furthered here.

MORE SMALL RAIDS ON VALLEY STORES

Sheriff Needham has received word that the systematic looting of stores in smaller cities is continuing. This is indicated by the breaking into of a store in Oregon City on the night of January 20. Women's garments to the value of \$400 were taken, a large automobile or truck having evidently been utilized in carrying away the stolen goods.

On the night of January 17, stores at Molalla and Canby were burglarized. The Robbins and the Hendricks stores at Canby were entered, the thieves securing knives and razors to the value of \$150.

Simultaneously, the J. R. Vineyard store at Canby was broken into and 16 pairs of shoes and other articles were taken. All of these thefts are supposed to have been committed by thugs working out of Portland.

Few Salem Smallpox Cases Epidemic Threat In Check

Up to the present time, Salem has been dealt with lightly by epidemic smallpox, which has been prevalent in other cities. At the present time there are six cases in the county isolation ward. City and county health authorities state that most of these cases are from the district near Salem and not from the city itself.

In addition to the cases under county surveillance, other physicians have reported two or three cases under private quarantine. Not more than a dozen cases exist in Marion county and officials say that these cases are mild. Sale physicians urge however that all care be taken to observe and report any suspected small pox contacts.

During the past six months, Portland has experienced long drawn epidemic of this disease, nearly 1500 cases having been reported. Only six fatalities have been reported from the Portland outbreak, health officials in that city claiming that the disease is completely under control. A recent bulletin reports 50 smallpox cases at Bend, the cases having been isolated.

MCUMBER DEMANDS GOVERNMENT COSTS BE CUT TO BARE BONE

Washington, Jan. 22.—Immediate reductions in governmental expenditures and appropriations, to "avert financial ruin" was urged in the senate today by Senator McCumber, republican, North Dakota.

Denouncing the government's "wastefulness" of spending, Senator McCumber said the high cost of living was due to governmental extravagance.

Immediate dissolution of the shipping board was recommended by Senator McCumber, who said "the most shameful of all our criminal extravagances have been the expenses of building our ships."

Reductions in appropriations for fortifications, and the navy, elimination of appropriations for public buildings, rivers and harbors improvements and public works together with cuts in the estimates for the various government departments should be made, Senator McCumber said, adding that a saving of \$2,550,000,000 could be accomplished in this way.

Circuit Court Statement Reversed By Upper Bench

A supreme court mandate of reversal has been filed at the county clerk's office, in the case of Mary R. France against Robert E. France. This is a case in which parties involved in a divorce settlement appealed from a jury verdict in department No. 1, of circuit court.

The couple were divorced November 1, 1913, but later the question of responsibility for certain indebtedness arose, and the case came into circuit court, where a jury returned a verdict for \$445 in favor of Mrs. France, June 18, 1918. The case was appealed by W. C. Winslow, attorney for the defendant, Robert France. The decision of the supreme court reverses the circuit court findings and favors the defendant. The mandate was issued December 23, 1919.
