

GOOD PLAYERS HEEDING CALL OF SALEM CLUB

Organization of a fast semi-pro baseball league is rapidly progressing in Salem under the guidance of Bishop of the Willamette Transfer company.

Bishop has already encroached upon the resources of the Portland Beavers and is endeavoring to interest "Lefty" Schroeder in making his permanent home in Salem.

These players will be well matched with local men, who are known to Salem fans. Charley Craig is expected to try with the best of them and everybody knows Mike Miller's play in the infield.

WASHINGTON-AGGIE GAME IS THREATENED

Oregon Agricultural College, Jan. 22.—It was decided here today that there would be no football game between O. A. C. and the University of Washington next year unless Washington agrees to abide by the conference ruling which provides for a 50-50 division of the gate receipts.

The six colleges of the Pacific coast intercollegiate athletic conference this year passed a ruling which provided for a uniform division of gate receipts on a 50-50 basis of the net returns, each team paying its traveling expenses.

"LEFTY" SCHROEDER MAY COME TO SALEM

That the McCredies are passing up a good bet in trying to freeze "Lefty" Schroeder into a 1919 contract basis, is the consensus of opinion among Portland sport writers.

While giving their other tossers, substantial boost in salary, the two Mueks have adopted the "take it or leave it" attitude in tendering the 1920 contract form to "Lefty."

After constant work for the Beavers, Schroeder's arm was injured. Judge McCredie using this as an excuse for his arbitrary contract talk, this year, holding that to sign up the Portland Schroeder at a raise, would be to take a chance with his arm.

It is reported that Walter McCredie, upon learning that Schroeder was talking business with the proposed Salem club, offered him the bonus demanded by "Lefty" upon condition that he would take part in 40 games and retain a 50-50 average.

"With a ball club such as Portland had last year, such a stunt would be out of the question, as a pitcher was lucky when he won a game."

Swift & Company's 1919 Earnings How They Affected You During the twelve months ended November 1, 1919, (its fiscal year), Swift & Company transacted its large volume of business on the smallest margin of profit in its history. Sales over \$1,200,000,000 Net earnings \$13,870,181.34 Our shipments were in excess of 5,500,000,000 lbs. This means that our earnings were less than 1 1/2 cents on each dollar of sales, or a quarter of a cent on each pound shipped. Consumer— The average consumer eats about 1/2 lb. of meat per day—180 lbs. per year. If he purchased only Swift & Company products he would have contributed only 45 cents (180 lbs. @ 1/4 cent a pound)—a year profit to Swift & Company for its investment and service, less than one cent per week. Our earnings were so small as to have practically no effect on the family meat bill. Live Stock Raiser— Swift & Company handled in 1919 over 16,000,000 head of live stock. You can figure for yourself that our earnings of 1 1/2 cents on each dollar of sales are too small to affect the price you received for your stock. We paid all it was humanly possible to pay considering what the meat and by-products could be sold for. Swift & Company, U. S. A.
