Large numbers of Italian women are emigrating to the United States. Some of them have married American soldiers in Italy; others are wives of Italian men who have lived in this country for some time and who fought with the American armies during the world war. These women and their children are now coming over to join their husbands.

These Italian wives of American soldiers are being transported by the United States government, and sail from Naples and Genoa. Accordingly the American Y. W. C. A. has taken over a large hotel in one of the central squares in Genoa, which serves as a hostess house, as a home for industrial recreation in the city, and as a general recreation center for women. Information about America is given to the brides and they are given all possible help and assistance while waiting for the transport which is to take them to their new home. The same sort of work has opened in Naples. It is modeled after the work for French and English brides.

In addition to the port work the Y. W. C. A. has opened a summer camp in the Tuscan hills just outside of Florence, where American girls may go for summer vacations. Recreation centers have been opened in Rome, Naples, Florence, Bologna, Venice, Genoa and Trieste. Headquarters of the Y. W. C. A. in Italy are in Genoa. Miss Lillian Hull, formerly in charge of the community house at Camp Sherman, Ohio, is director.

Search For North Magellan Unsuccessful For Explorer

Los Angeles, Cal., Jan. 31.—Joseph F. Bernard, explorer and former resident of Los Angeles, is returning from the North American Channel, according to word just received here, after an unsuccessful effort for three

years to force his way from the Pacific to the Atlantic ocean, north of the American continent.

Bernard has twice defied the ice fields in a ten-ton schooner, the Teddy Bear, accompanied by only one man. On his first trip in 1908 he went to the Siberian coast and was absent for nearly five years. His assistant died on this voyage and the explorer sailed his boat to the ice fields alone.

In 1916 he again sailed north in the Teddy Bear this time in the hope of drifting from the Pacific to the Atlantic. Recently David H. Hurley, a friend of Bernard here received word that the Teddy Bear had been cited

by natives near Bushland and that Bernard was once again headed south apparently unable to negotiate the passage between the two oceans.

The poorer the lawyer the fewer his trials.
