

### SALEM DEACONESS HOSPITAL LEADERS APPEAL FOR HELP

Aid of the citizens of Salem in erecting the new structure for the Salem Deaconess hospital is requested in a communication issued Saturday by officials in charge of the institution. According to the letter moneys received will be spent in building for the expansion of the hospital. The letter reads:

"To the pastor and members of the dear Christian Friends:

"After nearly three years of service in the Capital city, during which time we have cared for more than two thousand patients of all faiths and financial conditions, we will not be mistaken in a statement of our plans and needs in the enlargement and extension of our hospital work in this city. The appreciation of our services, and the spirit in which they have been performed, is best indicated by the crowded condition of the hospital and the patronage of many of the leading citizens and the loyal support of many of the leading physicians. We have worked to a great disadvantage because of a lack of a suitable building and equipment. A new building and proper equipment is imperative if we are to respond to the constantly increasing demands upon the hospital. Plans have been approved and work begun on a \$100,000 building, which will be fireproof throughout, and strictly modern in plans and construction, and when completed will afford operating facilities equal to the best in the Pacific northwest.

"As soon as possible a department of social service will be opened, so that pastors and churches, and needy communities, can have trained Christian workers with or without compensation. We are not unmindful of the nurse training department as to medical nurses in the homes, and shall as soon as possible, so enlarge our constantly increasing demands for this need. Without any solicitation on our part, relief of the needy, and rescue of the unfortunate, has become a recognized feature of our work in Salem.

"It is the intention of the management to establish in the near future a home for worn out nurses and deaconesses for the Pacific coast. The nature of our work gives us a field entirely distinct from that of the ordinary hospital. Instead of being in competition we seek the closest co-operation with existing institutions.

"So far the support from Salem has been thoroughly appreciated, and in fact without it we could not have succeeded, but the time has come that if we are to realize a \$100,000 building with an additional \$15,000 for equipment, we must have \$25,000 at least from our friends and the citizens of Salem and community generally.

"We aim not only to give our patrons the best scientific treatment and care, but to make our services warmly Christian, so that those who come to us shall find not only healing for the body but the healing and comfort for the great physician Himself gives. This distinctly Christian purpose being central in all our work we naturally turn to Christian people for encouragement and support. If agreeable to you we would be pleased to send a representative of the hospital to your pulpit with a statement of our plans and purposes. This courtesy would be greatly appreciated.

Yours in the Master's Service,  
The Salem Deaconess Hospital.

If all millage tax measures to be voted on in May are adopted the state tax levy next year will be exceeded this year's by more than 100 per cent.

### FREE TREATMENTS ARE PROVIDED FOR DISABLED SOLDIERS

Washington, D. C., Feb. 14.—Because discharged, sick, or disabled soldiers do not know the extent of federal aid they are entitled to, a great many of them are buying their own artificial limbs, paying for medical attention, or neglecting themselves, in spite of the fact that they can get the very best of treatment from the government.

Reports reaching the United States public health service from stations where hospitals are in operation for the benefit of discharged soldiers, sailors, marine and war nurses, show that a great number of men who served in the war and were injured have never fully understood the provisions of the legislation supplementing the war risk insurance act. Under the terms of this legislation the public health service has established hospitals at convenient places throughout the United States for the free treatment of any member of the military establishment whose disability may be traced to service with the military, or naval forces. These are civilian hospitals, not under army discipline.

The bill provides that the men are entitled to a free medical examination to determine the extent of their disability. If found to be disabled the war risk bureau will pay them compensation according to the extent of the disability, and if the case requires, it will direct that they be admitted to the most convenient public health service hospital or sanatorium.

The hospital furnishes artificial limbs, glass eyes, braces for deformed limbs, etc., free. It also examines the eyes to see whether glasses are needed and looks after the teeth. In case of tuberculosis, or other diseases requiring like treatment, special sanatorium treatment is provided. Discharged sick or disabled soldiers, sailors, marines and nurses are urged to write to the United States public health service, Washington, D. C., for further details.

Six hundred acres of Indian land are to be sold at the Umatilla agency February 16. The appraised value of the land, which is in nine parcels, is \$80,140, or a little more than \$124 per acre.

### MRS. THOMAS' WORD TO WOMEN

Tells of the Great Good Lydia E. Pinkham's Vegetable Compound Did For Her.

Morrice, Mich.—"About a year after my second baby was born I suffered with dizziness every morning so that I could hardly get around. I had heard from other women about your medicine and had read letters about it so my husband got me Lydia E. Pinkham's Vegetable Compound which I took according to directions and in a short time I was entirely relieved. I also took the Vegetable Compound before my last baby came and am thankful to say that it relieved my sufferings very much and I shall never be without it at such times. I have told others of its great worth and shall keep on telling it."—Mrs. Ed. THOMAS, Box 184, Morrice, Mich.

Women should not continue to suffer day in and day out and drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound.

### SUCCESS OF GREAT LAND RECLAMATION PROGRAM FORECAST

Admitting that enemies of reclamation in the middle western and eastern states might succeed in delaying the \$250,000,000 reclamation program submitted to congress by the Western States Reclamation association, D. W. Davis, governor of Idaho and president of the association, in a letter to State Engineer Percy A. Cupper expresses confidence in the ultimate success of the program. Friends of irrigation in Oregon are urged by Davis, however, to keep up interest in the program to the end that "we may have the hearty co-operation of all the great states involved in this irrigation union."

Success Is Seen. "Our demands for financial assistance staggered the leaders," states Davis in explaining the reception which the committee from the reclamation association met at the hands of congress when presenting their claims for recognition and assistance. "Yet I can report to you that our economic arguments have made a deep impression on them and I believe can state with absolute sincerity that we do not get the things now which we are asking that within another year or two, it is certain to come because our committee of governors and executive committeemen, has, I think, made a deep impression on members of congress.

"Our fight will come from the middle western states where they fear competition both in production and in land," Davis declares. "Their argument is baseless. We must produce more wheat no matter where it comes from for in three years' time the United States will be importing this grain a condition which will be an indictment against our intelligence if we fail to develop the wheat and hay lands of the west."

Davis mentions the fact that the reclamation bill, including the appro-

provision has been introduced in the house by Representative Kincaid of Nebraska and in the senate by Senator McNary of Oregon, and is started on its way. "Let us keep interest up to the limit in this bill and the association," he pleads. "We have great problems and we can meet all of them successfully in time. Let us not spare legitimate expense nor energy."

Former Governor Spry of Utah has been selected to stay in Washington to keep the association informed as to the progress of the reclamation legislation. Members of the American Legion are urged by Davis to lend their support to the program also inasmuch as "this is the opening wedge in the soldier settlement plan."

### Y.W.C.A. Thanked by Mother of Girl Befriended Here

The following letter of thanks to the Y. W. C. A. was received Saturday from a mother whose daughter was in a Salem hospital for a serious operation:

"Dear friends: I got home safe, and last week my daughter got home from Salem. She is getting well fast. I thought of you girls so much, of your nice work you are doing, and how helpful it was to me. It is so nice to know some one in a strange place that one can trust, and you were both so nice to us, we just felt at home. Women can be a great help to each other. That is a great work, and God be with you till we meet again.

"Yours truly,  
—"MRS. E. E."

### Fraudulent Portrait Agents Reported in City

A group of "portrait agents" are said to be working in Salem. People who have patronized these "agents" claim that they are making representations concerning the materials and workmanship of their wares. Two men are said to be working here. One man shows a fine sample, "guaranteed," and takes the order at about \$10 per portrait. The order will then be delivered by a second individual, who collects the money on the ground's that "this is what we represented." The delivered goods are said to be nothing but inferior crayon drawings.

The matter has been called to the attention of the local authorities.

The rapid growth of the nails is an indication of good health.
