

## CHANDLER SIX

Famous For Its Marvelous Motor

If You Don't Want to Wait Next Spring, Order Now

LAST year's production of the Chandler Six was of record volume and this year's production will double it; but if you don't want to wait for your new Chandler next spring, we would suggest that you order it now.

This year's automobile shows have attracted crowds greater than ever before, partly perhaps because hundreds of thousands of Americans were unable to secure new cars last year. And these great crowds of motor enthusiasts have found no better value in the whole exhibit of six cylinder cars than that which Chandler offers.

Chandler leads so distinctly in the medium-priced fine car field because it does offer such splendid value; because of its really marvelous motor developed through seven years of production in the Chandler plant and seven years' service on the road in the hands of a host of owners; because of its sturdy, dependable mechanical construction throughout the entire chassis; and because of its attractive and comfortable body.

Compare them all, all the sizes, then pick out yours. It will be a Chandler if you ask Chandler owners.

## Owners' Approval Is Like a Rousing Cheer

The Cleveland Six, from coast to coast, is establishing its place in motordom. The bitter cold days of the Northern winter have proved its ease of starting, just as the hot summer days, when hundreds of new Cleverlands were being driven across the country, proved the perfection of its radiation.

The Cleveland Six is in the hands of owners all over the United States today, and the chorus of satisfactory approval from these owners is like a rousing cheer. They say the car surprises them, pleases them, delights them. Its pliant power, its simple ease of handling, its boat-like comfort, surpass all

expectations. If you hope and plan to start the new season with a new five-passenger touring car which is a real six, or such a car of roadster type with wide, deep seat of restful cushioning and plenty of stow-away space, then come in and see the Cleveland Six.

A study of this car will interest you. A ride in it will convince you.
