SENATORS GRILL SELF-STYLED RED AMBASSADOR

Washington, Feb. 18.—Vigorous cross examination of Ludwig C. A. K. Martens, Russian soviet "ambassador" to the United States, began before the senate investigating committee today with Wade Ellis, counsel for the committee apparently bent on developing the extent to which the witness might have been connected with revolutionary propaganda in this country since he received his appointment from the soviet government.

Throughout the examination Martens sought to draw a distinction between the acts of his government and his own "official" activities and those of the Russian communist party. The witness said he had not incited revolution in the United States and Mr. Ellis produced a letter signed by Lenin, soviet premier, dated January, 1919, urging American working men to establish a soviet government and "overthrow" "bourgeois parliaments."

Martens said the letter did not come through him, but added that "under certain circumstances such a letter might be justified." The letter was "war propaganda," he said, adding that "Russia was at war with all powers during the last two years."

"The United States did not declare war on Russia, did it?" asked Senator Brandegee, republican, Connecticut.
 "It made war without declaring it," the witness said.
 Mr. Ellis called attention to the third international in Moscow March, 1919, "long after your establishment here."

He read the manifesto drawn up at Moscow and signed by Lenin and Trotsky. Martens said he was "not concerned" with what Lenin wrote "as a member of the communist party," but added that personally he agreed with it.
 "I don't want any camouflage about this," he said. "I am a communist and support the principles of that party."

Martens insisted that the third international of the soviet government, referred to as "document number 8" and which affirmed the intent of the "Russia agreement to come to the aid of the left wing of workers in every country, regardless of whether they are at war with Russia or not and appropriate two million rubles for the purpose."

"I think much more than that was appropriated," Martens said. "At the time Russia was at war it was justified. The American government spent much more than that to incite revolution in my country."

JOHNSON INSISTS NORTH DAKOTA PASS UPON CANDIDACY

CANCER

To whom this may concern I will say that I was afflicted with a cancerous growth in my temple to the annoyance of my self and family. I advised with Dr. S. C. Stone, Salem, Oregon, who applied a medicine for five days and then a simple ointment and after a few days the CANCER came out entirely to my great satisfaction. I can truly recommend Dr. Stone's.
