

HIGHWAY BOARD TO RECEIVE ROAD AND BRIDGE PROPOSALS

Bids on 71 new bridges, overhead crossings and viaducts and on highway improvements including 38.3 miles of grading and 17.4 miles of macadamizing will be received by the state highway commission at its next monthly meeting in Portland, March 23, according to a statement given out by the highway department here today.

Contract for the grading and macadamizing of 17.4 miles of the The Dalles-California highway in Jefferson county from Madras to the Deschutes county line will be let at this meeting of the commission. This will be the first state road work attempted in Jefferson county and the county will co-operate to the extent of \$50,000 on this improvement.

Wasco Gets 12.5 Miles. In Wasco county 12.5 miles of the Columbia river highway from Seufert to the Deschutes river will also be up for contract. This is a federal aid project with the state and federal governments sharing the cost of the improvements.

Another federal aid project up for consideration at the March meeting of the commission will be that of the Wallawa county section of the La Grande-Enterprise highway on which bids are to be received for the grading of 8.4 miles.

Overhead crossings on the Columbia river highway over the O. W. R. & N. at Big Eddy and Dillon, and a viaduct at Seufert will also be contracted for at this meeting.

Santiam Bridges Is One. Among the bridges on which bids are to be received at this time are the following:

- Crook county—One bridge over Bear creek, one over Dry creek and four over Crooked river.
- Malheur county—One bridge over Pole creek and one over Canyon creek.
- Marion and Linn counties—Steel span over the Santiam river.
- Grant and Wheeler counties—Nine bridges on the Sarvice creek-Valades section of the John Day river highway.

Water Permits

Permission to appropriate 5,000 second feet of water from the Deschutes river for the development of 60,000 horsepower is sought in an application filed with State Engineer Copper today by J. C. Stevens of Portland. This development contemplates the construction of a concrete dam 115 feet high and 860 feet long and a canal 600 feet long. No estimate of the cost of the proposed project is given in the application.

Application was also filed today by A. J. McInturf and son of Enterprise, Or., for the appropriation of 100 second feet of water from the Wallawa river above Wallawa lake for the development of 682 horsepower at an estimated expenditure of \$57,000.

Other applications for water rights filed with the state engineer today were as follows:

- By Ludwig ... Kaukonen of Carbondale, Wash., covering the appropriation of water from Lightning creek in Grant county for mining purposes.
- By Anderson Mee and Lida Mee of Applegate, Or., covering the appropriation of waste water from Daniel Gulch and Ruch Gulch for the irrigation of 55 acres in Jackson county.
- By Ansel and Emma Gilsen of Jacksonville, Or., covering the appropriation of water from the Little Applegate river for the irrigation of 61 acres in Jackson county.

Relative Price of Gold Discussed at Convention

Spokane, Wash., Feb. 19.—The price of gold in its relation to the world's financial situation and the mining industry was to be discussed at this afternoon's session of the annual convention here. Several resolutions on the subject were expected to be introduced on the convention floor by the resolutions committee or by delegates.

A SMOKE FEST IN THE CAMEL HERD

It is said that the camel, if given the least encouragement, will quickly acquire a smoking habit, and that the camel driver who has a few cut-off cigar butts in his clothes for distribution among the thrifless ones can do wonders with the animals. They carry a bit of wood rudely shaped into a cigar holder and adapted to the camel's mouth, and an animal which is well-nigh exhausted can be relied upon to get up and travel many a mile after a smoke.

POST TOASTIES

FORD IS TARGET OF BITTER ATTACK BY SENATOR SHERMAN

In some ways, Senator Sherman said, he regretted that Mr. Ford did not become a senator "for a greater refrigerator for his effervescent brain does not exist," than the senate chamber, adding that nothing would "cure him better than talking to empty benches."

Stanley Takes Exception. Senator Stanley, democrat, Kentucky, replying to Senator Sherman, declared the Illinois senator had violated every propriety by some of his references. This brought a protest from Senator Townsend, republican, Michigan, who said the facts in the Newberry case would be disclosed during the trial and that senators should refrain from any discussion of it.

Senator Walcott, democrat, Delaware, said Senator Sherman had made the first reference to the case and throughout his talk had been addressing a jury in Michigan. Such an address, if rendered in Michigan, he said, "would render the senator from Illinois in contempt of court and liable to penitentiary imprisonment."

Washington, Feb. 19.—Henry Ford and all his works were attacked in the senate again today by Senator Sherman, republican, Illinois. Setting himself up as "one of those persons who knew everything instantaneously from birth," Senator Sherman said Mr. Ford had reared a "financial molech," had secured congressional aid in acquiring and improving land for private purposes, and had enlisted the services of the federal government in promoting his political interests in Michigan while his son, Edsel, was making good his escape from the military draft.

"And I may say," added the senator, "that I regard the Ford automobile as an international pest. It destroys more useful material than any other sink hole in the world. It is a waste of time and substance.

Uses Government Agencies. "The government at best," he continued, "has become a philanthropic institution for the benefit of Mr. Ford. It continually is engaged in promoting his interests financially and politically."

The senator declared Ford had found the federal government machinery inadequate, however, in prosecuting the Michigan senatorial case and that "literally hundreds of Ford's private agents" were swarming about the Grand Rapids trial "scrutinizing every nook and corner within a hundred miles of the court room."

BENSON TO RETAIN JOB

According to a statement given out by the executive office Wednesday afternoon Simon Benson of Portland will be reappointed as a member of the state highway commission when his present term expires March 30, next. Benson, who was named as a member of the original commission upon creation by the legislature of 1917, is the only remaining member of the original organization.

The record yield of bone taken from one whale was 8110 pounds. This occurred in 1883.

Hot Spot Manifolds Insure Easy Starting

A feature that causes the motorist no little worry, especially in cold weather, is the trouble experienced in starting the motor and securing perfect carburation while the motor is cold. In the Cole Aero Eight models this has been eliminated permanently by the employment of special "hot spot" manifolds. These manifolds, as designed by the Cole engineers, heat the raw fuel as it comes from the carburetor and before it passes into the combustion chambers of the cylinders.

The construction of the manifolds is most simple and the principle is readily understood. The central intake manifold is of the best grade aluminum, lined with bakelite, and is enclosed in an aluminum heat jacket. Exhaust gases emanating from the cylinders pass through the exhaust manifolds and a part of it circulates through the heat jacket of the intake manifold. In this way the gasoline is heated to the proper temperature in the intake manifold and an accurate vaporization of the fuel is secured, and made more readily combustible, before it passes to the combustion chambers of the cylinders for ignition.

A Cole Aero Eight touring car will be displayed at the auto show by the Salem Velle Co., local dealers.

Interesting Data Observed in British Readers Review

London, Feb. 19.—Sociology has ousted religion in the British reading public's taste, but fiction still tops the list, says the Publishers' Circular, reviewing the book situation for 1919. Before the war, books on religion stood second, science and sociology fourth. Last year, however, 824 sociological works were issued against 662 in 1918 and scientific works have dropped to seventh place. Poetical and dramatic books dropped from 642 in 1918 to 495 last year, and there were 200 fewer history books. The whole output for 1919 was 906 volumes more than in 1918.

The Finger Nail's History

The rapidity of the growth of the nails is indicative of the health. The growth of the nails on the right hand is in most people more rapid than that of those on the left hand. Another curious point is that the rate of growth of the nail depends directly on the length of the finger; thus the nails on the two middle fingers of men grow more rapidly than those on the first and third fingers respectively, and these in turn are more speedy in the growth than those on the little fingers.

The old full-grown tea leaves you get in common tea are loaded down with tannin—that's what gives common tea its puckery taste. For Schilling Tea, we use only the young leaves, rich in fine tea-flavor.

If you like tea strong in tannin, buy the common kind. If you want fine tea, without the puckery taste, ask your grocer for Schilling Tea.

There are four flavors of Schilling Tea—Japan, Ceylon-India, Oolong, English Breakfast. All one quality. In parchment-lined moisture-proof packages. At grocers everywhere.

LEWIS WOULD HAVE SEAT IN STATE SENATE

D. C. Lewis of Portland, a member of the house of representatives from Multnomah county, wants a promotion into the senate at the next session of the legislature. Accordingly he has filed his nominating petition for a place on the Republican ballot at the primary election with the secretary of state's office here. Lewis declares himself as in favor of "legislation that will bring the state and nation back to normal and aid in lowering the cost of living."

Whether he means it or not he further declares that "legislation in favor of the few and against the many should be tolerated." He would repeal all bad laws and those of doubtful expediency. As his slogan he says that the words, "I will do right" are printed after his name on the primary ballot.

Attack by Raiders on Irish Police Barracks Repulsed

Traloe County Kerry, Ireland, Thursday, Feb. 19.—After a three hour siege, in which hand grenades, rifles and revolvers were freely used, an attack on police barracks by armed raiders was repulsed here early today. One police officer was wounded and it is believed three raiders were struck by bullets.

The raiders blocked all roads converging on Traloe with fallen trees and barricades and dug deep trenches to check the approach of military motor lorries. Telegraph and telephone wires were cut over a radius of fifteen miles about this place. One end of the barracks was demolished by the explosion of a bomb.

Staggered Lunch Hours for Vienna

The capacity of the illuminating plants of Vienna are overtaxed at the present time and there is a draft upon them at noontime when the natives are at lunch. In order to overcome this the residents occupying houses with even numbers must have their noontime meal at half-past 11 and those in the houses with uneven numbers at half past 12.

RESINOL

The box is blue Opal jar inside

Be sure to get real Resinol

If you want to get rid of eczema, pimples, or other distressing skin eruptions, you will accept no "substitute" for Resinol. Preparations similar in name or appearance are not "just the same as Resinol."

Although a few unscrupulous dealers may offer them as or for Resinol, they are often crudely made, of little healing power, and some may even be dangerous to use. Buy in the original blue package.

Resinol is never sold in bulk

Switzerland May Become League Member at Once

Berne, Thursday, Feb. 19.—Adherence by Switzerland to the league of nations was recommended by the Swiss government in a message to parliament today.

What has been known as the "American clause" by which Switzerland's entry to the league would depend upon similar action by the United States has been abandoned and the parliament approves the recommendation. Switzerland will become a member at once.
