TRAINING BILL IS APPROVED BY HOUSE COMMITTEE TODAY

Washington, Feb. 1.—The principle of universal military training as a part of the nation's future military policy was approved today by the house military committee by a vote of 11 to 9.

This means that the committee's army reorganization bill will contain a general training provision. Details have not yet been worked out, but it was decided that the training proposal would become effective July 1, 1922.

The vote in the committee was along bi-partisan lines, three democrats joining with eight republicans in putting the training plan through. Four republicans and five democrats opposed it.

Final action by the committee followed a three hour executive session in which debate at times became very sharp. So varied were opinions that no details were worked out.

The predominant view of the supporters however, was said to favor the training of all youths of nineteen years for a period of three or four months. Some supporters suggested six months and varied opinions were given as to exemptions, vocational training and other questions.

Finally the committee decided that two details would be left to a sub-committee.

By its action, the committee revived the universal training question, apparently dead since the recent democratic caucus went on record as opposed to any training plan. The committee action made certain that the training fight would be carried into the house, as well as into the senate.

Brown Declines To Comment On Keeley's Threat

Attorney General Brown Friday morning refused to comment on the ultimatum said to have been served on his office by Lee Roy E. Keeley, Portland attorney, demanding the institution of suit against Wm. A. Marshall, chairman of the state industrial accident commission to compel the restoration to the workmen's compensation fund of four thousand dollars paid by the commission to Mrs. Edna Blanche Dibern of Portland as compensation for the accidental death of her husband.

"I try all my cases in court and not in the press", was all that the attorney general would be induced to say on the matter.

Governor Olcott denied any knowledge of the ultimatum or of Keeley's intention to again bring up the Dibern affair and was not in a position to make any comment, he declared.
