

BEARCATS TANGLE WITH CONFERENCE LEADERS TONIGHT

Tonight in the armory local lovers of basketball will have an opportunity to watch the probable Pacific coast champions in action against the local college team, when at 7:30 the team representing Stanford university will line up against Coach Mathews' Bearcats. Stanford leads in the percentage column in the coast conference, having lost but one game this year.

The local team will be weakened for this game by the absence from the line up of Jackson, Mathews' star center, who sprained his ankle in the last minute of the Multnomah game Saturday night. In tonight's game Wapato will be shifted to center, McKittrick and Gillette will play the forwards, and Raley and Dimick the guards.

Harry Fishcher of Portland will referee.

The Willamette freshmen will play a game in the armory with the Salem high team at 8:30.

BASEBALL WORK IN FULL SWING; AGGIE PROSPECTS BRIGHT

Oregon Agricultural College, Feb. 24.—The baseball training is in full swing. There are 21 men turning out every night and several others are reporting irregularly because of conflicting periods. The work so far has consisted mostly of warming up and in light batting practice. The men are now rapidly developing baseball arms and wearing off the last traces of winter kinks, so practice games will commence this week with the first squad meeting the second squad.

Professor Glenn of the school of engineering will assist Coach Richardson, by devoting a part of his time to coaching the pitchers this season. Glenn pitched for the University of Wisconsin last season and was a big factor in his team bringing home the conference championship. His help will be a big advantage for the Beavers while it will also give Coach Richardson that much

more time to devote to the other players.

There is yet no chance to give any dope on the players. Eleven letter men are now in college. Gill, catcher of last year, is almost sure to do a large part of the receiving again this season. Captain "Speck" Keene and "Lefty" Miller are varsity pitchers of last season and look good for regular jobs. Palfrey and Gurley have both won their letters at first base and are expected to put up a pretty fight for the job this year. Lodell, captain of two seasons ago, is expected to be out for an infield place. He is a handy player at any place. Rickson, Seibert and Hubbard have all won letters as infielders and will make a hard fight to do so again this season. Rearden and Hartman are outfielders and make up the remainder of the letter men in school.

Besides these there is an abundance of new material that shows ability equal to that of the old timers.

STECHER TO MEET HUSSANE
Pittsburgh, Pa., Feb. 24.—Joe Stecher, world's champion catch-an-act-can heavyweight wrestler, will defend his title here tonight against Yussif Hussane, the Turk.

Marshfield, Or., Feb. 24.—Officers of the Y. M. C. A. here filed with the mayor and chief of police yesterday a protest against a theatrical troupe which has been featuring so called "hating girls" at a local theater, declaring the feature to be objectionable. Robert Marsden, manager of the theater where the show was appearing, declared there was nothing about the show to which exception could be taken. The troupe was allowed to appear last night.

RHEUMATISM CAN BE CURED

Communicate with any of the following satisfied users of Anti-Uric for their opinion. This remedy is guaranteed to give satisfaction or the money spent for it will be returned.

LOCAL GAME POSTPONED

Because of the Willamette-Stanford game at the armory, Tuesday night, February 24, the regular game of the Commercial league series will not be played until Thursday night, February 25. This game is looked forward to with a great deal of interest by local fans as at this time the Hauser Bros. team will make an effort to defeat the Anderson-Brown quintet. These games are played at the Y. M. C. A. and are open to the public. The Anderson-Brown team has maintained a strong lead throughout the season over the other three teams in the series.

Keep Air Passages Open

Melt a Little Vick's VapoRub in a Spoon Night and Morning and Inhale Vapors—Also Apply Up the Nostrils Several Times a Day. Especially Just Before Being Exposed to Crowds

Flu This Year is Milder
While we know very little more about the flu now than we did last year—the germ itself has never been positively identified—still most authorities agree that the flu germs are breathed in. If the system is in good shape and the membrane or lining of the air passages is in healthy condition—these germs are thrown off.

A good plan is to melt a little Vick's VapoRub in a spoon night and morning, and inhale the vapors, also apply a little up the nostrils several times a day, especially just before being exposed to crowds.

Treat All Colds Promptly
etc.—so that when the saline is applied irritate the lining of the air passages and make them real breeding grounds for germs. Prompt use of Vick's VapoRub aids in preventing colds. For head colds, sore throat or hoarseness, rub Vick's well over the throat and chest and cover with a warm flannel cloth. For deep chest colds, severe sore throat or bronchitis, hot wet towels should first be applied to the throat, chest and back between the shoulder blades to open the pores. Then Vick's should be rubbed in over the parts until the skin is red—spread on thickly and covered with two thicknesses of hot flannel cloths. Leave the clothing loose around the neck, so the vapors, released by the body heat, may be freely inhaled.

These vapors, inhaled with each breath, carry the medication directly to the lungs and air passages. At the same time Vick's is absorbed thru and stimulates the skin, thus aiding to relieve the congestion within.

Use of External Treatment for Colds Increasing
Vick's VapoRub is the discovery of a North Carolina druggist who found how to combine in salve form, the standard time tested remedies, Camphor—Menthol—Eucalyptus—Thyme etc.—so that when the salve is applied to the body heat, these ingredients are liberated in the form of vapors.

Vick's is particularly recommended for children's croup or colds, since it is externally applied and therefore can be used freely and often without the slightest harmful effects.

The best evidence of the value of Vick's is the steadily increasing number of people who have been converted to the use of this "outside" treatment.

Beginning with the customers of a small retail drug store, the use of Vick's has grown—year by year—state by state—until now more than 17 million jars are used annually. And this in spite of the fact that Vick's is a new form of treatment to many folks in the north and west. Vick's can be had at all druggists in three sizes—50c, 60c and \$1.20. (Adv)

Sorethroat?

Don't neglect it. Rub Turpo, the only Turpentine ointment, on throat and chest. Cover with flannel cloth. Repeat night and morning.

TURPO
THE TURPENTINE OINTMENT

A STUBBORN COUGH LOOSENS RIGHT UP
This home made remedy is a wonder for quick results. Easily and cheaply made

Here is a home made syrup which millions of people have found to be the most dependable means of breaking up stubborn coughs. It is cheap and simple, but very prompt in action. Under its healing, soothing influence, chest soreness goes, phlegm loosens, breathing becomes easier, tickling in throat stops and you get a good night's restful sleep. The usual throat and chest colds are conquered by it in 24 hours or less. Nothing better for bronchitis, hoarseness, croup, throat tickle, bronchial asthma or winter coughs.

To make this splendid cough syrup pour 2 1/2 ounces of Pinex into a pint bottle and fill the bottle with plain granulated sugar syrup and shake thoroughly. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you get a full pint—a family supply—of much better cough syrup than you could buy ready made for three times the money. Keeps perfectly and children love its pleasant taste.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its prompt healing effect upon the membranes.

To avoid disappointment ask your druggist for "2 1/2 ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne Ind. (Adv)

Lift Off Corns!

Apply few drops, then lift sore, touchy corns off with fingers.

Doesn't hurt a bit! Drop a little Freezone on an aching corn. Instantly that corn stops hurting, then you lift it right out. Yes, magic!

Freezone

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn or corn between the toes, and the calluses, without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

The Chance that the Army Offers

YOU

"As a corporal I was drawing down \$38.10 a month every time the bugles blew 'Pay Day'."

"And when I read in the papers about the big civilian pay envelopes, civil life opportunities looked pretty good to me!

"I took up my old job when I got back and when then they raised my pay to \$35.00 a week—almost as much as I got every month in the Army—well, I thought I was sitting on the world.

"But times have certainly changed! Thirty-five a week today goes like a breeze. Food has advanced, shoes cost more, and every time I buy a suit I think I'm paying for the war as well as fighting it.

"I'm classed, I guess, as just an unskilled worker, I left school too early and I'm sorry for it now.

"And where'll I be ten years from now? Answer me that! Working for day wages, making a living and nothing more? I guess not—for I'm going back to join the Army!

"I'm going to take a job that will give me more free cash than I get today—a job that'll mean all my expenses paid—a training that will make me the kind of man who succeeds and a life that'll keep me feeling fit and fine."

Health, Travel and Training

Congress has appropriated \$2,000,000.00 to be used in the Army Schools. In many schools and posts you will have the opportunity of being trained in the skilled trades and at practically all Army stations, schools are in operation in which you can improve your education.

You'll have enough out-door work to keep you in perfect trim. You'll learn the sort of discipline that makes a man able to handle other men. You'll have a fine crowd of buddies. You'll live a fine healthy life—no soft snap about it, but it will be a life that will make you a regular man.

You'll learn how to hold up your end in any company. You'll have an increased ability—a sure self-confidence on your return.

You'll be a part of America—one of its fighting men—its bulwarks of defense. If there's any trouble that the Army has to settle you'll have a red-blooded man's chance to do your share of the settling.

And three years from now, when the men who are working besides you now are still working for day wages, you will step out with a training that will command real money.

Think it over. The next three years at home; and no further along at the end.

Or the next three years in the Army, and a training that you can cash in on for the rest of your life. It's worth investigating, isn't it? Worth stopping in at the recruiting office to talk to the man in charge.

The Nearest U.S. Army Recruiting Stations Are:

Worcester Bldg., 3rd and Oak Sts., Portland
462 State Street, Room 5, Salem.

UNITED STATES ARMY

THE 14 ARMS OF THE SERVICE

The Recruiting Sergeant can give you the information that will help you decide which branch fits you best. In all of them you will get the fine training as a soldier that the United States offers all its men—in many branches you can get highly specialized training.

INFANTRY—The men who have made the name of "doughboy" feared and respected throughout the world welcome you to the comradeship. Fine fellows—good fun and good training in any school at the post you go to.

CAVALRY—When the horses are champing at the bit and the "yellow legs" mount up and the troop rides forth, there is a thrill that no old cavalryman can ever forget. A horse of your own—a good outdoor life and training for future success.

FIELD ARTILLERY—"Action Front" comes the command—then watch the boys with the red hat cord snap into it. A happy outfit—with the dash of mounted service added to interesting work that calls for head and hand. Motors if you wish.

CORPS OF ENGINEERS—Army engineering is known the world over for its excellence and an enlistment in the engineers can be the start of a young man's training in the various branches of engineering and in the mechanical and building trades.

COAST ARTILLERY—Living on the sea coasts, guarding big cities with big guns, getting time for study and a wide and good technical training, the C. A. C. man is preparing for a useful life and good pay and in having a good time while he's learning. The C. A. C. also mans the mobile big gun regiments throughout the country.

AIR SERVICE (including BALLOON CORPS)—The man who gets the early edge in experience with aeroplanes and balloons has a chance to cash in big on his army training. For flying is only in its infancy and it's going to be a profitable business for men with the right experience.

ORDNANCE DEPT.—The ordnance is appealing to the studious young American. To wide opportunities for study, it adds a business as well as a technical training.

SIGNAL CORPS—Whether it's laying a wire from a reel-cart at a gallop or installing a wireless station that will flash its message half around the world, the Signal Corps is there, and a man who learns radio telegraph and telephone work in the Signal Corps is always valuable.

MEDICAL DEPT.—Good experience, good pay, and training in all branches of hospital work. Excellent opportunity for future success. The Veterinary Corps teaches the care of horses as well as meat and milk inspection.

TANK CORPS—The man who knows gas motors and tractors or who wants to know them is invited to join the Tanks. Radio, machine gun and ordnance work are all parts of the Tank Corps work.

QUARTERMASTER CORPS—The Corps that feeds and clothes the Army offers a valuable training for future business. Interesting work for the man who likes horses in the Remount Service.

CONSTRUCTION DIVISION—Practical work in the many trades is part of the every day life of the Construction Division. Many opportunities to learn the trades of highly paid specialists.

CHEMICAL WARFARE SERVICE—For a man with a little knowledge of chemistry or for any ambitious young man who would like to get that knowledge, there is interesting work and rapid advancement in the C. W. S.

MOTOR TRANSPORT CORPS—A thorough practical training in motors and their accessories, and in driving as well, is given in the well-equipped schools of the Motor Transport Corps.

Where the U. S. Army Serves

American troops are serving in Panama, Hawaii, the Philippines, Alaska, China, Germany, Siberia and here in the U. S. A. The Recruiting Sergeant will gladly give you all the details.

Like every one else in the army, from General to Buck Private, you've under orders, and if your outfit moves and you're needed elsewhere, your duty is to go.
