More and Larger Loaves of BETTER Bread

Fisher's BLEND FLOUR makes more and larger loaves of better bread in proportion to its cost than other flours, hence housewives have the satisfaction of knowing that they are getting more and better values for their money.

Fisher's BLEND costs more per sack but LESS PER LOAF. It costs more as flour, but gives more both in quality and quantity of loaves, therefore it is actual household economy to use it in preference to other flours.
