

SENATORS ARE NOT MOURNING LOSS OF "LEFTY" SCHROEDER

Although "Lefty" Schroeder, the big Portland lefty, is no longer with the Senators, Biddle Bishop is satisfied that the remaining members of the staff, Cole, Cox, and "Lefty" Craig can give ample delivery to the certain support of the Salem team.

Schroeder is said to have signed up a contract with McCredie, whereby he is to pitch three games per week at a substantial pay advance over his 1935 agreement.

While the news comes as a surprise after "Lefty's" talk of settling the family here, yet many local sports fans have opined that "Lefty" was too valuable a man for the McCredie factor was that Salem could not afford to pay the Beaver schedule, while starting on a semi-pro basis. All members of the Senators are residents here and depend upon their employment to assist in keeping them in the Cherry city.

Yielding to the lure of bigger money and hoping for the mud igloos of the Beavers, once again, "Lefty" has silently folded his tent and left Salem. According to Portland sport writers, the Albina portlander conducted a successful strike of his own, finally securing his terms from the McCredies.

Schroeder made a good record with the Portland club last year, despite the fact his hurling limbs balked after the Mackmen kept him in the box on an average of three games a week. Came contract time, this spring and "Lefty" is said to have spurned the "no pay increase" diploma offered by McCredie for the 1936 season.

When the McCredies said "take it or leave it," Schroeder took the train for Salem and whiled away his time, playing "join the Senators." Biddle Bishop scoured around and secured manual labor for the erstwhile Beaver, but "Lefty" was listening to the north all the while and Thursday, the summons came.

SAXON COAL MINERS VOTE TO LABOR LONGER HOURS

Berlin, Feb. 24.—The Saxon minister of labor has appealed to workers to emulate the example of coal miners who have recently increased their hours of labor. He points out that this voluntary action on the part of the miners will increase the monthly output of the Saxon coal fields by 250,000 tons.

"Grippe" Leaves Kidneys Weak

The epidemic of colds and grippe that has been sweeping the country has seemingly left even a greater number of people than ever in a weakened condition from which there is but a slow recovery. Much of this after weakness affects to kidneys and bladder, making it difficult for them to perform their natural functions. Sufferers have to get in and out of bed half a dozen times a night, their backs are weak and painful, sick headaches and dizziness are common symptoms. No serious trouble may exist but the time to check such symptoms is at once before matters grow worse. No complicated treatment may be needed if a few doses of a good safe kidney regulator like Solvax is taken right away. Solvax straightens out an ordinary case of weakened kidneys in about twenty-four hours in many instances, sifts out and neutralizes poisonous uric acid and drives the clogged up poisonous kidney waste from the body so that you can begin to feel better right away. Solvax is harmless, contains no alcohol or habit drugs and Daniel J. Fry and other leading druggists agree to refund its full purchase price if in any case it fails to give entire satisfaction.

IDAHO WINS FROM BEARCATS IN HARD FOUGHT GAME HERE

The University of Idaho basketball team last night defeated the Willamette "Bearcats" 31 to 29 in a game which it took three extra five-minute periods to decide and shoved the local quintet another notch down the percentage column in the Northwest Intercollegiate conference.

From the standpoint of basketball displayed the game was a fizzle, both teams playing raggedly, and except for the fight displayed would have been a disappointment to the spectators who swarmed the armory. Team work was entirely absent, except for an occasional flash here and there and most of the playing was featured by hard lugging for possession of the ball. Lazy refereeing added to the slackness of the early part of the game.

Another Wapato would have turned the tide in favor of the "Bearcats," for the playing of the local captain at forward was the one treat of the evening. Besides annexing 14 of the 23 points his team gathered together, Wapato was the active factor in breaking up the offenses started by Idaho and was the pivot point for all of Willamette's floor work. Jackson, at center, struggled gamely through the contest with an injured foot that kept him out of the play a large part of the time. Substitutions, beginning when Matthews pulled McKitterick out in the first period, were the rule with the "Bearcats" but they were unable to work out a combination that could wrestle the lead from the visitors.

The lineup follows:
Wapato (14) F. (5) Fox
McKitterick (3) F. (4) Carder
Jackson (2) C. (18) Perrine
Raney (2) G. (15) Crozier
Dinkel (8) G. (10) Findley
Gillette (8) S. (10) Evans
Etche (2) S. (10) Campbell
Doney (2) S. (10) Campbell

Fraser Of Salem Wins Second In Motorcycle Race

Allen Fraser, a Salem motorcycle enthusiast, was runner-up in the hill climbing contest at Eugene, Sunday. William Davis, of Eugene, made the one-third mile climb up Skinner's Butte, in 75 seconds, driving a specially geared Harley Davidson machine.

Fraser's time of 77 1/2 seconds was regarded as an excellent exhibition of riding ability, considering the fact that his Harley Davidson was one of the regular stock models, fully equipped and with the standard solo gear.

In the second portion of the program, a climb of the steep hill on high gear was also won by Davis, driving a Harley, in competition with other machines.

The Salem motorcycleists who made the Sunday jaunt to Eugene in attending the motorcycle events were Fred Albire, Hiram Smith, Allen Fraser, Harry Scott, Henry Helmle, Lester Sande, Lyman Sandia, George Fry and Robert O. Kelly.

Motorcyclists from all over the Willamette valley attended the day's events. In addition to the contests, the visitors were entertained at a dinner and special musical program.

STARVING HUNS RIOT

Berlin, Feb. 25.—Food riots are reported at Ludwigshafen and mobs are said to be plundering shops. Numerous arrests have been made according to advices received here.

REGULAR TROOPS FROM CAMP LEWIS TO MAINTAIN ORDER

(Continued from page one)

done by taking the proper steps to anticipate and forestall any possibility of serious friction.

"The request for federal troops for Montana is very obviously a piece of propaganda," declared George P. Vanderveer, counsel for the ten defendants, today. Vanderveer said there was no need for troops here—that there was no sign of trouble and no possibility of trouble.

Barnett Recalled

The defense recalled Eugene Barnett, one of the ten defendants, to the stand shortly after Ball took his seat in the jury box. Barnett testified that the package he mailed from Centralia on the day of the shooting was a Geranium plant, and that he sent it to his mother-in-law in Cottonwood, Idaho. The mackinaw coat which Barnett claims he left at the Roderick hotel was entered as a defense exhibit as were also some papers Barnett said he had carried on the day of the shooting and about which he went to the office of Elmer Smith, Centralia attorney and one of the defendants. The papers referred to a homestead claim, he testified.

Barnett testified that he walked down Tower avenue shortly after the shooting, naming S. A. Hand and Alex Sigurison as men he met on this walk. He declared he would not have had time to walk to a billboard a half mile from the hall and deposit a rifle. The rifle Barnett is alleged to have found in firing from the Avalon was found under this signboard, according to state evidence.

S. A. Hand, who testified to corroborate Barnett's story of his walk down Tower after the shooting, left the witness stand in tears. He is a gun dealer in Centralia. He said he walked down the street with Barnett shortly after the shooting, and that he noticed nothing unusual in Barnett's demeanor. He identified a 30 caliber rifle as one similar to Barnett's and declared he never knew the defendant to have a 38-55 rifle. The state alleges it was a bullet from a 38-55 rifle which killed Grimm Hand's tears apparently came as the result of cross-examination from Attorney C. D. Cunningham of state counsel, who apprised the witness for not mentioning his knowledge of Barnett's alleged walk down the street after the shooting. Hand said he did not mention it to Cunningham because he was not asked about it. Hand said he was a member of the Dunkard faith and had religious objections to testifying in court.

Soviet Springs To Being In Italy

London, Feb. 25.—Workers at Pieve Di Soligo, Italy, have seized the municipal buildings and proclaimed a soviet government, according to a Rome dispatch to the Central News. In fighting between workers and carabinieri many persons were wounded. Disorders have also occurred at Vittorio, Montebelluna and elsewhere, the dispatch says.

Naples, Feb. 25.—A general strike in sympathy with striking metal workers has been declared by the labor chamber here.

Seattle, Wash., Feb. 24.—Arthur B. Grindell, Seattle, director of the division of provisions and supplies of the American Red Cross commission in Siberia, died at Vladivostok yesterday of pneumonia, according to a message received here today.

Poland In Favor Of Peace With Reds

Warsaw, Tuesday, Feb. 24.—Poland is inclined to enter peace negotiations with the Russian soviet government immediately. An official statement to this effect was made tonight by the foreign affairs committee of the diet. The Polish conditions would include restitution of territory taken from Poland in the first partition of 1772 and subsequently. The right of self-determination for inhabitants in the ethnological areas between Russia and Poland is to be insisted upon, it is said, and peace must be ratified by representatives of the Russian nation.

ASQUITH IS ELECTED

London, Feb. 25.—Former Premier Herbert Asquith was elected to parliament from the Paisley constituency in the recent bye-election. Announcement of the result was made today.

ROTARY CLUBS OF NATION OBSERVE BIRTH

(Continued from page seven.)

is kept by the secretary and nothing short of sickness or death can excuse a member. Absence from the city is no excuse, for there is a special rule whereby a member may attend the meeting of the club in the city where he happens to be, and the secretary of his home club is officially advised of this fact, and he receives credit for attendance just as if he had been present at the meeting of his own club.

Rotary clubs thus hold an enviable record for high percentage of attendance at meetings. Clubs with as many as two and three hundred members have as high as 90 per cent of their members present meeting after meeting. There are Rotary districts with jurisdiction over as many as forty and fifty clubs which maintain a "district percentage of attendance" at meetings of all clubs in the district of from 70 to 80 per cent. New records for high attendance percentages are continually being made and as quickly being broken by some club somewhere. The latest achievement has been by a club on the Pacific Coast with sixty members which has made the remarkable and heretofore unheard of record of a 100 per cent attendance, or every member present, not only at one meeting—which would be an unusual record in itself—but a 100 per cent attendance at seven consecutive meetings.

A Definition of the Rotary Club. Various definitions of Rotary and descriptions of the Rotary Club have been published from time to time. A contest has recently been held throughout the Rotary clubs for the

best definition of "What is Rotary?" and every member asked to give his definition. The Rotary Club is defined as follows: "The Rotary Club is more than an organization. It is an associated vision and effort; it is co-operative, not competitive, service. I transmute kindly desires into helpful deeds, and turns dreams into accomplished facts. It is a training school in unselfishness, where personal gain is subordinate to public good. Rotary values men for what they are, more than for what they have; and for what they can be, more than for what they are. Rotary welcomes a vision of need, and views service as a privilege to be sought, not as a burden to be avoided."

"Rotary never side-steps a responsibility or 'passes the buck' to the other fellow. To the Rotarian, life is an investment that must yield dividends that are better than dollars, and that are not measured in terms of commerce. To the Rotarian, community

prosperity is more than personal profit. He never 'knocks' a good thing, nor praises a bad thing. His city is the best in the country, and his country the best in the world. He is an all-wool, yard-wide American or Canadian, or whatever his nationality. He works hard, plays square, and gives with a smile. He has an eye for a neighbor's need, a hand trained to help, a foot used to paths of helpfulness and mercy and a heart for true men, good women, and little children.

"Rotary may not be a religion, but it has woven into the fabric of its helpful activity, that, without which even religion is but 'a sounding brass and a tinkling symbol'—'Faith, Hope and Love'."

RHEUMATISM'S PAINS CAN'T BE RUBBED AWAY

Deep Seated Disease Is Caused by Germs in the Blood.

Rheumatism is a sturdy foe, and it never uses gentle methods with its victims. So if you are afflicted with the disease, you may as well realize from the first that you have real fight on your hands and that you cannot win unless you can use the very best methods known.

If the disease was confined to the surface, there might be some logic in expecting relief from its clutches by local applications applied to the surface. But you will soon learn that a disease that can cause so much pain and suffering is deep-seated, and has its source far below the surface of the skin. The pains may be slight at first, and that is where the victim of rheumatism is often deceived.

He does not feel that the first little twinges of pain amount to much, and hence they are not promptly heeded. But they gradually increase in severity until it has your entire system in its relentless grip. The pains that seemed so slight at first become intensely severe and seem to take delight in your suffering.

Of course there has been cases where some slight relief was experienced from the use of liniments and other local applications, but there has never yet been a case that was ac-

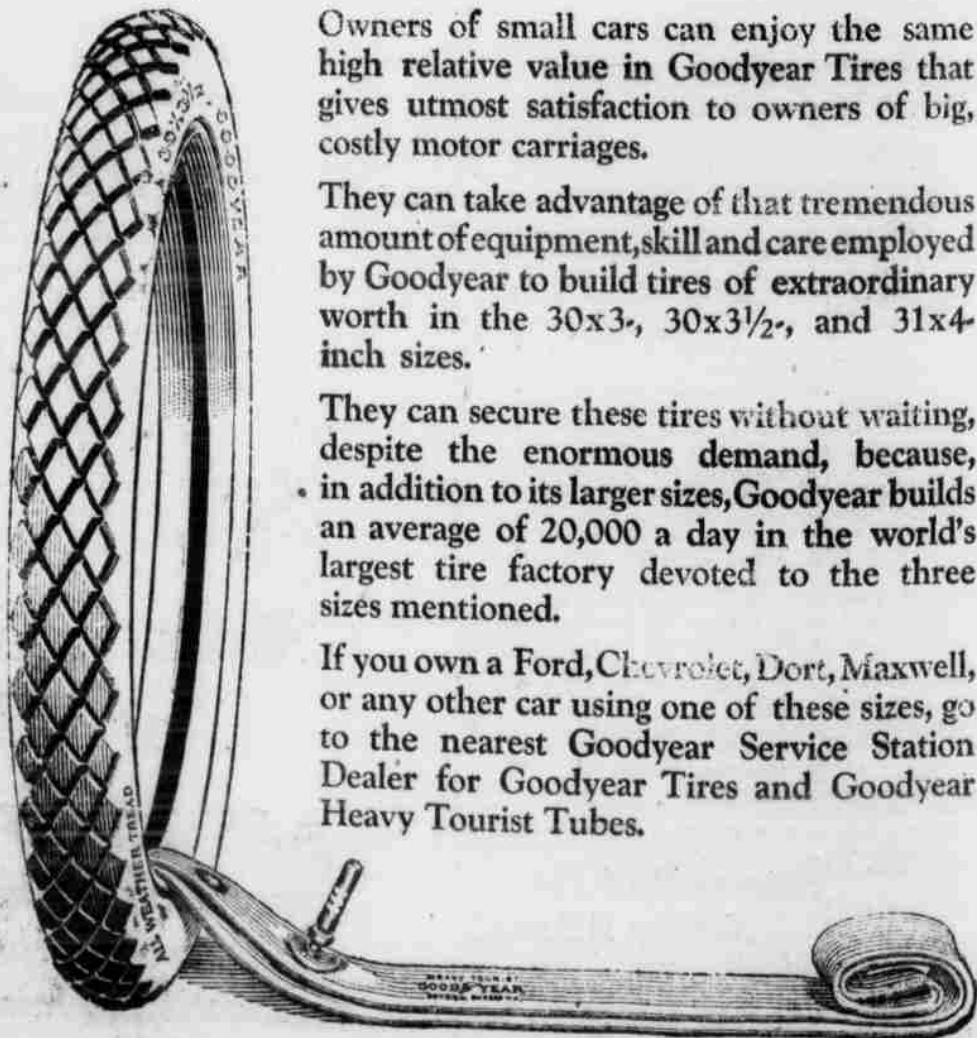

tually cured by such treatment and temporary relief is very far from comforting to a constant sufferer.

The only sensible treatment from which you can expect results is a remedy that goes deep down into the blood supply, and kills the germs that cause the disease. These germs multiply by the millions and scatter by means of the blood circulation throughout the entire system. Whether they attack the muscles, the joints, limbs or other parts of the body, they are still in the blood and will continue to spread the torturing pains until eliminated thoroughly from the blood.

S. S. S. is a wonderful blood remedy, and is the logical treatment for rheumatism, because it promptly permeates the entire blood supply, and searches out and kills the disease germs. You can take S. S. S. with assurance that you are not experimenting, for this fine remedy has been in constant use for more than fifty years during which time it has been giving splendid results. So owe it to yourself to take S. S. S. without delay, and discard the use of local remedies that can do you no good.

If your case requires special advice, it can be obtained without cost together with valuable literature if you will write today to Chief Medical Adviser, 158 Swift Laboratory, Atlanta, Ga.

The World's Largest Tire Factory Building 30x3, 30x3 1/2 and 31x4-inch Tires

Owners of small cars can enjoy the same high relative value in Goodyear Tires that gives utmost satisfaction to owners of big, costly motor carriages.

They can take advantage of that tremendous amount of equipment, skill and care employed by Goodyear to build tires of extraordinary worth in the 30x3, 30x3 1/2, and 31x4 inch sizes.

They can secure these tires without waiting, despite the enormous demand, because, in addition to its larger sizes, Goodyear builds an average of 20,000 a day in the world's largest tire factory devoted to the three sizes mentioned.

If you own a Ford, Chevrolet, Dort, Maxwell, or any other car using one of these sizes, go to the nearest Goodyear Service Station Dealer for Goodyear Tires and Goodyear Heavy Tourist Tubes.

30x3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread \$20.00

30x3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread \$17.65

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3 1/2 size in water—\$3.90 proof bag
