ATTORNEY GENERAL EXPLAINS PRIMARY

Cities and towns whose charters provide for the nomination of candidates for municipal office by petition or certification are not affected by the new primary nominating law governing elections in Oregon this year which only applies to such municipalities as nominate candidates by election or by political parties, according to an opinion by Attorney General Brown for state this morning.

Sam A. Koser deputy secretary of state this morning.

Brown's opinion is a lengthy and exhaustive interpretation of the new election laws which have been the subject of much comment since the adoption of the constitutional amendment in 1917 and the passage of the law by the 1919 legislative session providing for the election machinery under the new amendment.

The new law Brown holds, was not intended to strip municipalities of any power contained in their respective charters but is simply designed to simplify the election machinery in use in this state.
