

BEARCAT-PACIFIC GAME WILL WRITE FINIS UPON SEASON

The last inter-collegiate basketball game to be played in Salem this season will take place Wednesday evening at 8 p. m. in the armory, when the Willamette Bearcats line up against Pacific University. The only other game which Coach Mathews men will play here is with Multnomah Athletic club next week.

Although not a conference game, Wednesday's clash between the Bearcats and P. U. promises to be one of the fastest games of the season. P. U. has a fast team, having defeated all her non-conference opponents and she will make a desperate attempt to win from Willamette. Pacific has always considered the Methodist school her deadliest rival and it would be a great feather in her cap if she could win now that Willamette is in the conference.

The Bearcats are continuing to improve their teamwork in practice, the lineup remaining as it was at the beginning of the Idaho games. Jackson's sprained ankle is strengthening, so that he will be able to speed up in the game, although he is favoring it in practice. Otherwise the team is in first class shape. The freshman team is lining up against the varsity in practice this week.

Incorporations.

The Oregon Fir, Inc., and the Oregon Pine, Inc., shipbuilding corporations, both capitalized at \$25,000 filed articles of incorporation with the corporation department here today. The incorporators are James E. Kerr, Robert E. Kuykendall and C. C. Frisbie.

Other corporations filing articles today were:

Klamath River Lumber company, Klamath Falls, \$100,000; T. W. Graham, W. J. Kelly and O. D. Burke.

Medford Camp, No. 90, Woodmen of the World, Medford, \$2500; Willamette Garrett and others.

Forest Grove Clay Products company, Forest Grove, \$25,000; J. B. Finigan, A. T. Lewis and Jesse Withycombe.

Fraternal hospital, Astoria, \$125,000.

A. A. Anderson, Max Pohl and E. B. Hawke.

SEN. BANKHEAD PASSES.
Washington, Mar. 2.—Senator John H. Bankhead, of Alabama, died here Monday after an illness of several weeks' grip.

PRISONER UNIQUELY PUNISHED

Astoria, Or., Mar. 2.—When Pat Wallace, serving a five day sentence for drunkenness, refused to work, he was shackled and required to stand on the street where other prisoners were at work. A city ordinance requires such action when prisoners refuse to work.

The theory of eclipses was known to the Chinese 129 years before the Christian era.

THE QUICK WAY TO STOP A COUGH

This home made syrup does the work in a hurry. Easily prepared, and saves about \$2.

You might be surprised to know that the best thing you can use for a severe cough, is a remedy which is easily prepared at home in just a few moments. It's cheap, but for prompt results it beats anything else you ever tried. Usually stops the ordinary cough or chest cold in 24 hours. Tastes pleasant, too—children like it—and it is pure and good.

Pour 2½ ounces of Pinex in a pint bottle; then fill it up with plain granulated sugar syrup. Or use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. Thus you make a full pint—a family supply—but costing no more than a small bottle of ready made cough syrup.

And as a cough medicine, there is really nothing better to be had at any price. It goes right to the spot and gives quick, lasting relief. It promptly breaks the inflamed membrane, stops the annoying throat tickle, loosens the phlegm, and soon your cough stops entirely. Splendid for bronchitis, croup, hoarseness and bronchial asthma.

Pinex is a highly concentrated compound of Norway pine extract, famous for its healing effect on the membranes.

To avoid disappointment ask your druggist for "2½ ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind. (Ad)

SPORTING GOODS CO. ADDS CUP TO LIST OF TOURNAMENT PRIZES

When the eight high schools of the various sections of the state meet here this week to contest in the Willamette university state championship tournament they will be playing for the possession of two title cups, instead of one as was first announced. Coach Mathews, who is in charge of the tournament, has received word from the Thomas E. Wilson company, Chicago sporting goods house, that they will give a cup to the team winning the championship. The other cup to be competed for is the Willamette university trophy.

Practically all arrangements have been completed for the tournament and the eight teams that have been selected to vie for the Oregon high school basketball honors are those of Ashland, The Dalles, Lincoln (Portland), Astoria, Forest Grove, Salem, Albany and Marshfield.

While three teams in the Portland intercollegiate league are still tied for first place and the championship will not be decided until the high school games point to them as the probable winners and because they carried off the pennant last year. Eastern Oregon, the far eastern part, is not to be represented at the tournament because of the great expense of bringing a team from that section here, and because the championship of the state is still in doubt.

The drawings for the tournament will be held at a banquet of the coaches at the Marion hotel, Thursday noon, and the first games of the series will be played that afternoon, beginning at 2 o'clock. The teams eliminated in the games of Thursday will play in a consolation round Friday morning. The semi-finals of the tournament will be played Friday afternoon and the finals Friday evening. All of the games will be played on the armory floor.

Either George Dewey, Thomas Galloway or Leon Faber will be the official referee of the tournament, with Coach Mathews as a relief.

Mrs. A. P. Pike of Lakewood, Ohio, is the first woman named as a delegate to the national political convention. She has been named as one of the delegates from Ohio to the democratic national convention to be held in San Francisco this year.

How To Use Vick's Vaporub To Prevent Flu

Flu Germs are Breathed In. Inflamed Air Passages Make Ideal Breeding Grounds for These Germs

Keep Air Passages Open

Melt a Little Vick's VapoRub in a Spoon Night and Morning and Inhale Vapors—Also Apply Up the Nostrils Several Times a Day, Especially Just Before Being Exposed to Crowds

Flu This Year is Milder

While we know very little more about the flu now than we did last year—the germ itself has never been positively identified—still most authorities agree that the flu germs are breathed in. If the system is in good shape and the membrane or lining of the air passages is in healthy condition—these germs are thrown off. A good plan is to melt a little Vick's VapoRub in a spoon night and morning, and inhale the vapors, also apply a little up the nostrils several times a day, especially just before being exposed to crowds.

Treat All Colds Promptly etc.—so that when the salve is applied to the throat, chest and back between the shoulder blades to open the pores. Then Vick's should be rubbed in over the parts until the skin is red—spread on thickly and covered with two thicknesses of hot flannel cloths. Leave the clothing loose around the neck, so the vapors, released by the body heat, may be freely inhaled.

These vapors, inhaled with each breath, carry the medication directly to the lungs and air passages. At the same time Vick's is absorbed thru and stimulates the skin, thus aiding to relieve the congestion within.

Use of External Treatment for Colds Increasing Vick's VapoRub is the discovery of a North Carolina druggist who found how to combine in salve form, the standard time tested remedies, Camphor—Menthol—Eucalyptus—Thyme etc.—so that when the salve is applied to the body heat, these ingredients are liberated in the form of vapors.

Vick's is particularly recommended for children's croup or colds, since it is externally applied and therefore can be used freely and often without the slightest harmful effects.

The best evidence of the value of Vick's is the steadily increasing number of people who have been converted to the use of this "outside" treatment.

Beginning with the customers of a small retail drug store, the use of Vick's has grown—year by year—state by state—until now more than 17 million jars are used annually. And this in spite of the fact that Vick's is a new form of treatment to many folks in the north and west. Vick's can be had at all druggists in three sizes—30c, 60c and \$1.20. (Ad)

Capitol Briefs

Proxy votes can not be considered in determining the presence of a quorum necessary to transact business at meetings of state commissions, according to an opinion just prepared by Attorney General Brown in reply to a query from Mrs. Harriet H. Heller secretary of the Oregon child welfare commission. A majority has no right to authorize a legal meeting when it requires voting by proxy to constitute a quorum, the opinion reads, declaring that the quorum must be present in person.

Local registrars are entitled to the 25 cent registration fee for recording births and deaths in their respective communities, according to Attorney General Brown who has prepared an opinion to that effect for the information of David N. Roberg, state health officer. This, however, does not apply to cities and towns of more than 2000 population where registration of vital statistics is in the hands of a salaried official.

S. Benson of Portland will accept the governor's reappointment to a seat on the state highway commission when his present term expires March 31. Governor Olcott is in receipt of a letter to that effect from Benson in reply to the governor's announcement that he would reappoint him at the expiration of his present term.

The money appropriated by Multnomah county for the care of its wards in the Baby home at Portland has no effect whatever on the state appropriation for that institution, according to an opinion prepared by Attorney General Brown for R. B.

Goodin secretary of the state board of control. Multnomah county is not a "person" within the meaning of the law which provides that money provided by "persons" for the care of specific wards of a state institution shall be deducted from money appropriated by the state for the institution.

T. A. Weinke of Condon has filed his nominating petition with the secretary of state's office as a candidate for the republican nomination for district attorney of Gilliam county.

The Teal Irrigation district in Umatilla county has made application to the state irrigation securities commission for state guarantee on the interest payments on bonds in the sum of \$930,000.

William A. Marshall, chairman of the state industrial accident commission, will leave Friday for Sacramento, Cal., where he will make a first hand study of the work of the California commission on safety standards with a view to putting his information into use in connection with the new department created in this state by the last legislative session.

Workmen injured in Oregon industries and who are eligible to receive aid under the new law which provides for the vocational training of these men will meet with representatives of the commission in Portland, Friday and Saturday, for preliminary conferences at which definite action will be determined upon. Under the tentative plan of the commission such men as will be benefitted by special instruction will be placed in some school in the state while others will be placed in lines of employment to which their

capabilities specially fit them. Sixteen men have been called in for this first series of conferences.

WOULD ENTER RACE

Portland, Ore., Mar. — Dr. W. D. Wood, of Hillsboro, has announced his candidacy for the office of secretary of state on the republican ticket.

All mammals have hair, although in whale this consists of only a few bristles on the lips.

SLOW DEATH

Aches, pains, nervousness, difficulty in urinating, often mean serious disorders. The world's standard remedy for kidney, liver, bladder and uric acid troubles—

GOLD MEDAL HAARLEM OIL CAPSULES

bring quick relief and often ward off deadly diseases. Known as the national remedy of Holland for more than 200 years. All druggists, in three sizes. Look for the name Gold Medal on every box and accept no imitation

Regular Habits Produce a Beautiful Complexion

Daily elimination rids the system of poisons. Women should realize that!

MANY women complain daily of their complexion, of their headaches and general ill health, little realizing that the trouble is constipation. Women, too, are much more subject to such congestion than men, and much more careless of it. The result is seen in lusterless, weary eyes, in sallow, pimply complexion, in lassitude, bad breath, and in that word so often used, "indisposed."

At the first sign of these symptoms the wise woman will take a laxative, and will see that the young girl and others in her care do likewise. Dr. Caldwell's Syrup Pepsin is the favorite with thousands of women because it is mild and gentle in its action and in the end trains the stomach and bowel muscles to do their work naturally without the aid of medicine.

This combination of simple laxative herbs with pepsin, which can be bought at any drug store, is also a very sterling first-aid in colds, fevers and other sudden ills

that make it advisable to always have a bottle in the home. It is free from narcotics and safe for the tiniest baby.

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in the world, being over 6 million bottles sold each year, many who need its benefits have not yet used it. If you have not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 511 Washington St., Monticello, Illinois

A United States Army MAN

THERE is a Canal at Panama, linking two great oceans and carrying the commerce of the world.

For a hundred years and more men dreamed of that Canal. De Lesseps had the dream and failed, and the bones of men and wreck of machines remained to mark his failure.

It seemed a task almost impossible; yet that task was done.

It was done by
United States Army men.

In Cuba and Porto Rico yellow fever once claimed victims by thousands.

Yellow fever is no longer a menace in those islands. A great physician and his aids helped the people of those islands to conquer it forever.

And they, too, were
United States Army men.

In the Philippines a new civilization is arising; and its foundations are laid upon the courage and devotion of United States Army men.

You think of the Army as an instrument of war; and well you may; for the record of its men in France and Flanders will live as long as history is written.

But the Army has tasks of peace no less heroic—tasks that mean a safer, and a better world.

It is for those tasks that the Army asks three years of the lives of America's best young men.

To those men the Army promises sturdy health—an asset for their business success in all the years to come.

It offers them opportunity for training in a useful trade. It gives them good food, good clothes and good care. It trains them to responsibility,—it develops character and mind.

It promises them travel, and the knowledge of other lands, that will make them citizens of the world.

The United States Army seeks no inferior applicants. It wants men of whom it can be proud, during their enlistment, and in all the years to come.

Men who will look back twenty, thirty, forty years from now and say:

"Those years were the most valuable of all my years of training.

"They gave me health, and skill, and the capacity for managing men. They gave me a chance to share in giant tasks.

"I am proud of the record of those years, and of what they have meant in my success.

"Proud that I, too, for a little while, was a United States Army man."

UNITED STATES ARMY

THE 14 ARMS OF THE SERVICE

The Recruiting Sergeant can give you the information that will help you decide which branch fits you best. In all of them you will get the fine training as a soldier that the United States offers all its men—in many branches you can get highly specialized training.

INFANTRY—The men who have made the name of "doughboy" feared and respected throughout the world welcome you to the comradeship. Fine fellows—good fun and good training in any school at the post you go to.

CAVALRY—When the horses are champing at the bit and the "yellow legs" mount up and the troop rides forth, there is a thrill that no old cavalryman can ever forget. A horse of your own—a good outdoor life and training for future success.

FIELD ARTILLERY—"Action Front" comes the command—then watch the boys with the red hat crop snap into it. A happy outfit—with the dash of mounted service added to interesting work that calls for head and hand. Motors if you wish.

CORPS OF ENGINEERS—Army engineering is known the world over for its excellence and an enlistment in the engineers can be the start of a young man's training in the various branches of engineering and in the mechanical and building trades.

COAST ARTILLERY—Living on the sea coasts, guarding big cities with big guns, getting time for study and a wide and good technical training, the C. A. C. man is preparing for a useful life and good pay and is having a good time while he's learning. The C. A. C. also mans the mobile big gun regiments throughout the country.

AIR SERVICE (including BALLOON CORPS)—The man who gets the early edge in experience with aeroplanes and balloons has a chance to cash in big on his army training. For flying is only in its infancy and it's going to be a profitable business for men with the right experience.

ORDNANCE DEPT.—The ordnance is appealing to the studious young American. To wide opportunities for study, it adds a business as well as a technical training.

SIGNAL CORPS—Whether it's laying a wire from a reel-cart at a gallop or installing a wireless station that will flash its message half around the world, the Signal Corps is there, and a man who learns radio telegraph and telephone work in the Signal Corps is always valuable.

MEDICAL DEPT.—Good experience, good pay, and training in all branches of hospital work. Excellent opportunity for future success. The Veterinary Corps teaches the care of horses as well as meat and milk inspection.

TANK CORPS—The man who knows gas motors and tractors or who wants to know them is invited to join the Tanks. Radio, machine gun and ordnance work are all parts of the Tank Corps work.

QUARTERMASTER CORPS—The Corps that feeds and clothes the Army offers a valuable training for future business. Interesting work for the man who likes horses in the Remount Service.

CONSTRUCTION DIVISION—Practical work in the many trades is part of the every day life of the Construction Division. Many opportunities to learn the trades of highly paid specialists.

CHEMICAL WARFARE SERVICE—For a man with a little knowledge of chemistry or for any ambitious young man who would like to get that knowledge, there is interesting work and rapid advancement in the C. W. S.

MOTOR TRANSPORT CORPS—A thorough practical training in motors and their accessories, and in driving as well, is given in the well-equipped schools of the Motor Transport Corps.
