

BLOSSOM SEASON TO BE DISCUSSED BY CLUB MEETING

What action the Salem Commercial Club will take in the matter of featuring and commercializing Marion county's wonderful blossom season will be determined at the regular open forum meeting of the organization at eight o'clock tonight. The blossom issue has been made a special order of business because of the proximity of the season, and the necessity of taking action if there is to be any taken.

There is no reason why Salem cannot make capital of its blossoms, as California has done," Manager McCroskey said, "When we have as pretty blossoms that grow anywhere, and we have every facility in the world to convey thousands of tourists here, and entertain them while on their visit."

It has been suggested that the railroad be urged to provide excursion trains from Portland to Salem each Sunday during the blossom period; and to bring motion picture cameramen here to film the scenes for circulation throughout the world.

Aside from these other matters of importance will be taken up by the members. Pursuant to the custom of the club no intimation further than "it is great" would be made Wednesday relative to the program of entertainment for the evening. Following the entertainment the club members will be feted to a buffet luncheon in the game hall of the club.

Adjudication Of Water Rights Over

The adjudication of water rights on the Malheur river and its tributaries has been completed by the state water board and its findings of fact and order of determination has been transmitted to the county clerks of Malheur, Harney and Grant counties. The drainage area covered in this adjudication includes approximately 4150 square miles in the northern part of Malheur county, northeastern Harney county and southeastern Grant county. The adjudication covers the irrigation of approximately 46,946 acres of land, a number of power rights and the municipal supply for the city of Vale. A total of 262 rights are involved in the adjudication. A water master will be named to oversee the distribution of water from the Malheur and its tributaries according to the priority rights established by the adjudication proceedings.

"Grippe" Leaves Kidneys Weak

The epidemic of colds and grippe that has been sweeping the country has seemingly left even a greater number of people than ever in a weakened condition from which there is but a slow recovery. Much of this after weakness affects to kidneys and bladder, making it difficult for them to perform their natural functions. Sufferers have to get in and out of bed half a dozen times a night, their backs are weak and painful, sick headaches and dizziness are common symptoms. No serious trouble may exist but the time to check such symptoms is at once before matters grow worse. No complicated treatment may be needed if a few doses of a good safe kidney regulator like Solvax is taken right away. Solvax straightens out an ordinary case of weakened kidneys in about twenty-four hours in many instances, sifting out and neutralizes poisonous uric acid and drives the clogged up poisonous kidney waste from the body so that you can begin to feel better right away. Solvax is harmless, contains no alcohol or habit drugs and Daniel J. Fry and other leading druggists agree to refund its full purchase price if in any case it fails to give entire satisfaction.

DANDRUFF SOON RUINS THE HAIR

Girls—if you want plenty of thick beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces will be all you will need, no matter how much dandruff you have. This simple remedy never fails.

Making Merry

At Mealtime, Means Good Appetite, Good Digestion, Good Cheer and Stuart's Dyspepsia Tablets

DO YOU USE THEM? IF NOT, WHY?

To sit back after a good meal and know there is not going to be sour risings, gas, drowsiness and discomfort is the logical result of using Stuart's Dyspepsia Tablets immediately after eating. Most people believe they can trace each attack of indigestion to the something they ate and can still "taste" it. And it surprises them, invariably, to note how quickly relief comes after using one or two of these tablets. Whether it is highly seasoned food, rich pastry, the heavy hearty foods or some one particular offender the relief comes just the same. Those who are susceptible to attacks of indigestion or dyspepsia should try Stuart's Dyspepsia Tablets as they supply the stomach with an alkaline effect just as it does naturally when it is working in a perfectly healthy condition.

A glance around the table will likely indicate one or more who plain

NOTHING that we could say would so thoroughly convince you of the value of Chamberlain's Tablets as a personal trial. We can tell you of thousands who have been permanently cured of chronic constipation, indigestion, biliousness, sick headache and disorders of the stomach and liver, but this will have little weight with you as compared to a personal trial. That always convinces.

CLEVELAND SIX

No Other Light Car Offers So Much

Unusual power and control, quick pick-up and extraordinary acceleration to real speed, are features inherent in the Cleveland Six and features with which Cleveland owners are delighted. Many a Cleveland Six owner has said, "It would be hard to tell you what a good car the Cleveland honestly is. It's wonderful."

The Cleveland is wonderful because it is a splendidly developed and finished product, not a car rushed into the market. Three years ago the plans for production of this car were far advanced. But, with war approaching, production and marketing were delayed though experimental and engineering work were continued and test cars kept on the road. When war ended, came the Cleveland.

Built in a fine big factory, with all conditions and

equipment assuring the very best of manufacture, and built by men whose successful experience had been wholly in the production of fine cars, the Cleveland Six began rolling out to the world last August. Since then thousands have gone to delighted owners, and thousands more are going every month.

There isn't any other light car that will give you so much of all that you wish, and at such a fair price.
