

Salem Abstract Company Bought By Two Bankers

The Salem Abstract company, with a capitalization of \$50,000, and with offices on the second floor of the Bank of Commerce building, passed Friday into the hands of T. M. Hicks and R. B. Duncan. Mr. Hicks and Mr. Duncan have been connected with the United States National bank of this city for the past eight years, the former as assistant cashier and the latter as savings teller.

The firm was sold by A. A. Lee, F. M. Endicott and W. E. Hansen. Mr. Lee and Mr. Hansen will remain with the corporation, as employees.

A. A. Lee, former head of the company, began his business career at the "bottom of the ladder," working his way through the various positions until at the end of 20 years he held the responsible position of head of the establishment. During the time in which he managed the company's affairs he was active in church and social circles and numbers among his personal friends and business associates some of the city's most influential people.

High Winds Hurt Kansas Wheat Crop

Kansas City, Mo., Mar. 15.—High winds continued to prevail early today over the greater part of Kansas, where, according to reports received here, they have caused considerable damage to the growing wheat crop. In addition to crop damage, wire communication is impaired at many places.

The winds have swept up volumes of dust from the freshly planted fields. Kansas apparently was receiving the brunt of the high winds, although the dust storm area embraces the greater part of the southwest.

Nebraska College Professors Given Salary Increases

Lincoln, Neb., Mar. 15.—The average annual salary of \$1927.50 of each of the University of Nebraska's teaching staff of 211 professors is to be increased to \$2483.50, or approximately 26 percent as a result of passage by the board of regents of a salary budget to raise the pay of all university employees. Most of the increases are effective April 1.

Lincoln, Neb., Mar. 15.—Henry F. Schulte has been re-elected head football and track coach of the University of Nebraska with an increase in his salary from \$3500 to \$3600 a year, while Paul J. Schlusser has been re-employed as head basketball and baseball coach with a pay advance from \$2000 to \$2500, the university board of regents announced today.

The directors of the Union County Telephone company have accepted bids for their lines in Union and Walworth counties.

Hospital Drive Gains Speed; 1 Donation is Big

With a keener interest being taken by the numerous campaign solicitors the Salem General Hospital campaign for \$100,000 gained speed today. Although committee captains had not made reports as urged by noon it was stated by Publicity Chairman Walter Denton that the campaign had taken on a more optimistic aspect, and that partial unofficial reports indicated good progress.

Among the donations contained in reports at headquarters today that of R. P. Boise for \$1000. This is one of the largest personal subscriptions yet made, and lent great encouragement to campaign leaders because of the generous spirit manifested.

Thomas B. Kay was among the solicitors working today, as was L. Greenbean. They had made no definite report up to a late hour of the activities of their aides.

It was reported at headquarters that labor in the city continues to rally, and that a report en masse by the workmen of the city at the headquarters is expected within a few days.

Dirigible Of 33 Tons Is Planned

Philadelphia, Mar. 15.—The world's largest dirigible will be built at the Philadelphia navy yard. In it a company of navy men will attempt flight across the Pacific.

Fifty-two draftsmen gave their services to the work of designing the great airship. Work will soon be begun on the plans.

It will be developed along lines similar to the R-34 which made the successful trans-Atlantic flight. This dirigible will weigh about 33 tons, and will have a carrying capacity of 30 tons.

24,000 Motor Cars Given To States To Aid Road Work

Washington, Mar. 15.—Approximately 24,000 motor vehicles intended for war purposes have been turned over to the department of agriculture by the War department for distribution among the state highway commissioners for use in road building, allotments being based on the amount of Federal aid for roads which the states receive.

Already 12,000 have been delivered to states and the remainder will be distributed as fast as railway cars can be secured for their transportation, which will be probably two or three months.

This equipment promises to be of great aid in carrying out the large road building program for 1935.

An allied alumni composed of students of the University of Oregon, Oregon Agricultural college and the Oregon State Normal school have formed a joint organization at Hood River.

A DANDY SHOW TODAY

MADGE KENNEDY
"Strictly Confidential"
