

300 Subscribe To Hospital So Far Says Report

The completed list of donors to the Salem General Hospital fund of \$100,000, compiled up to noon Thursday, show that 300 public spirited citizens of Salem and the surrounding country have subscribed. This is the first list to be made public, and may well be regarded a veritable scroll of honor, for on it appears the names of those patriotic citizens who possess the vision to see what such a hospital as the Salem General Hospital will mean to the city.

The deficit, so far as compiled by the committee stands under \$25,000, it was announced at campaign headquarters. Solicitation continued today slowly. Few donors were reported; but despite this fact the campaigners were pressing the campaign with dogged determination founded on a long cherished wish to build a creditable hospital here. If your name is not on the list, send your subscription in at once:

Republicans Turn Guns Upon Record Of Administration

Santa Fe, N. M., Mar. 26.—The republican party of New Mexico then a keynote address delivered today by George W. Prichard at Santa Fe, temporary chairman to the state republican convention meeting here to name delegates at large to the national convention trained its heavy artillery on the record of the democratic party. Mr. Prichard criticized the democratic record at home and abroad and urged the delegates to work to elect a republican president of the United States so "that order will be brought out of chaos."

He promised that a republican president and a republican congress "will restore confidence; taxes will be reduced; the high cost of living will be cut down; normal conditions will be resumed and the country will become prosperous."

Paying tribute to General Leonard Wood, Mr. Prichard said the general "is worthy of wearing the mantle of Lincoln and of that long line of republican presidents who have contributed so much to, and reflected so much credit, honor and glory on our country."

The chairman described the treaty of peace with Germany as "the only treaty or covenant" so far as this government is concerned that was ever planned and brought forth in a spirit of resentment, and if not malice. He declared "from the date of President Wilson's second fruitless trip to Paris his relation to that un-American document has been peevish, spiteful and vindictive."

Article 19 was called "a war measure pure and simple, a pledge to furnish military forces to preserve the territorial integrity and political independence of any member of the league."

Women voters were urged to support the republican party.

"They should not be afraid of politics," said Mr. Prichard. "Governments could not exist without politics."

Spokane Plans Importation Of House Servants

Spokane, Wash., Mar. 28.—To relieve the shortage of domestic servants in this city which is declared as acute local business men are planning the organization of an association to bring 250 young women from Europe, according to announcement by C. P. Ouldin, president of a large industrial concern here.

"It is our plan to send a responsible woman as our representative to select these girls, act as our agent in booking their passage and chaperone them on their trip," he said. "We will pay their passage and all expenses."

"The girls will sign no contracts to work until they arrive in Spokane and look the situation over for themselves."

To give the plan official standing in the eyes of families of the girls employed, the approval of the mayor and city council will be asked, Mr. Ouldin stated.

There were 64,425 members of the B. P. O. Elks in the military service during the war and of this number 1037 were killed in battle.

Ban On Picture Brides Not To Be Effective At Once

San Francisco, Mar. 26.—Japanese picture brides will continue coming into this country until August despite the prescription placed on them by the Japanese government because of the fact that many of the brides secured passports previous to February 25, when the ban became operative, and now are awaiting passage to this country, the Japanese Association of America announced here today.

"According to the regulations of the Japanese government a passport is valid for six months after its issuance," the association said. "It is therefore obvious that for the few months following February 25 picture brides will continue to come, though undoubtedly in decreasing numbers. The Japanese government cannot legitimately revoke the passports that were issued before February 25."
