Miss Beryl Needham was hostess at a recently conducted party at the home of her parents, Mr. and Mrs. O. D. Southam, of Rosedale, recently. The house was artistically decorated with an amount of early flowers and greenery and the time was spent games and refreshments, followed by the serving of refreshments. Mrs. E. T. Allen, for twenty-five years a worker in Armenia and other countries of the Near East, addressed an enthusiastic gathering of the women of the city in the Commercial club room Friday afternoon. While her object in being in Salem is chiefly that of furthering the relief campaign now being carried on throughout the country, her talk did not deal entirely with this particular phase of the Armenian question.

Mrs. Allen, who in her long years of foreign missionary endeavor has made it a point to study, not only the religious side of the question but the industrial situation, was able to bring to her audience a reliable account of conditions of affairs in the Near East. She proved herself an able and interesting speaker, and presented her terrible results of the Turkish rapine in an altogether different way than they had ever before been presented.

Friday night Mrs. Allen was the guest of the Y. W. C. A. at a dinner given by the Business and Professional Women's club of the city.

An airy spray of white tulle, tied on the handle of the basket added to the pretty effect. Four pink candles, in sheer crystal candle sticks were used for illumination. The afternoon was gayly passed with games and music.

One of the most pleasing social events of the past week was the costume party given Saturday evening by Miss Alma Pohle and Miss Laura V. Hale at the home of the former. The guests were arrayed in gowns that were in vogue from ten to fifty years ago and the contrast to present styles created much amusement. The decorations of the affair were in yellow, narcissi and flowering acacia being used. The dainty color scheme was further carried out in the delicious refreshments.

With Americanism as its special theme, the fifteenth biennial convention of the General Federation of Women's clubs will be held in Des Moines, Iowa, June 16-22. The convention has been named the "Gold in Prairie Convention" because Iowa's field will be rich with golden corn at that time. They golden ears of corn have been made for the delegates to wear as the badge of the convention and five thousand of them will circulate the streets of Iowa's capital city at that time. Five thousand delegates are expected and arrangements are being made for their entertainment. Hundreds of women from all over the Hawk Eye state will join to bid the club women welcome and make the convention one of the greatest in the history of the general federation. For months the Iowa women have been working for it and hundreds of Iowa women now living in other states will be there for a homecoming. Vacationing for club women this summer.

The meeting will be held in the Coliseum which has been the center of many national gatherings. The acoustics of the auditorium are said to be matchless which will be a boon to women. The morning sessions of the convention will be devoted to business and departmental reports, the afternoons to special departmental conferences, while the evening sessions will be of an inspirational character with national and international speakers on the programs. Americanism will be the keynote throughout the sessions. With such a theme, wrought out in a carefully thought out program on Americanization, community service and national thrift, the General Federation at its convention expects to mobilize the mind of America to a wider con-

ception of its privilege and responsibility in building up a higher sense of citizenship and patriotism. The nation looks to its women to carry on this great work which can best be accomplished by women who have sacrificed their lives in a study of great national problems and their practical working out in every community. With two million women vitally interested in Americanism, the convention will carry its message to every corner of the United States.

The program will not be so crowded as in former years. Speakers will be given more time in which to present their subjects. There will be fewer social functions and more time devoted to conferences and the business of the organization that it may function even more effectively in

reaching the individual woman who comes to the convention for a real message to take back to her home town. The convention will last six days with every session replete with important work.

On Tuesday evening, the newly organized Queen Esther circle of Jason Lee Memorial, celebrated with a "pot luck" supper and general good time at the home of Miss Carrin on North Church street.

The ladies of Sedgwick W. R. C. No. 1 are planning a sale of cooked food, fancy needlework and Easter novelties for the Saturday preceding Easter. The funds derived therefrom will be used to complete their share of the pledge made by the national organization to contribute \$20,000 for

the care of soldiers injured in the late world war.
