A CRITICAL SITUATION.

The loganberry is an Oregon product, utilization of which IN INDEPENDENT NEWSPAPER by Salem manufacturers with the national advertising and sales lighted every evening except by Saiem manufacturers with the national advertising and Saies by The Capital Journal Print- campaigns for loganberry products, has created a nation-wide Telephones Circulation and Busical abling the loganberry grower to demand fabulous prices, which PUTNAM, Editor and Publisher, are bound, eventually, to destroy the market for his product.

The situation is a most sinister one to the industry. High prices to the canners, jelly, jam and beverage makers, force pro-BUBSCRIPTION RATES
carrier 56 cents a month. By
for a month, \$1.25 for three
products at an extortionate price, people cannot afford to and products at an extortionate price, people cannot afford to and will all off, cheaper substitutes will not buy them, the demand will fall off, cheaper substitutes be utilized, and the established trade disintegrated.

Its re-establishment in future years will require even a more costly carryager, than has been required in the past, and in the costly carryager, than has been required in the past, and in the costly carryager.

Monkey. Its re-establishment in future years will require even a more "Lately I've been spending my "Everybody!" the Major answered costly campaign than has been required in the past, and in the time travelling," the Major replied with a wave of the hand that took in meantime the loganherry, with constantly increasing production, "But you know I'm a soldier. And the whole valley. will become a drug in the market and prices drop to pre-war levels.

The loganberry grower is entitled to a good profit-a big profit, if you will. He must, however, curb his profiteering rapacity lest he sacrifice the future for the present. There is a limit to what the people will pay and there are many indications that the high cost of living has passed the peak and is on the slow but sure decline. By the time the present year's crop is manufactured, an exploited people will refuse to buy anything except essentails at many times their real value-and loganberry products are not an essential.

The future of the loganberry lies in quantity production and quantity consumption. To keep pace with production, the market must be annually extended. When only the wealthy are consumers, the doom of the producer is sounded as well as the fate of the industries dependent upon the raw product sealed.

A recent circular letter to growers from W. H. Paulhamus, sheriffs who go up from \$125 to \$145 of the Puyallup and Sumner Fruit Growers Canning Company, \$125 to \$145; ton deputy essents which operates a cannery at Albany, calls attention to the crisis while I'm in Pleasant Valley I intend

The After Effects • of Pneumonia

This is No. 2 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—eften leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's Vapo-Rub may be of value in this condition.

'Get everybody to come to the edge of the woods, near the pasture, early omorrow morning," Major Monkey of the lungs. An inflammation ing process.

Nightly applications of Vick's "Aren't you going to do any of the work?" Mr. Crow demanded. "I thought generals didn't have to do 'It's easier for you to get about than it is for me. But as soon as we have our army together I'll take enpump harder, just as stepping on tire charge of it," Major Monkey ina hose increases the water pres-Mr. Crow was satisfied. After all sure, which is the reason why, it wouldn't really be work, he told himself, to fly around and tell the people the news. In fact, the more he thought about the plan the better he so carefully.

After recovery the lungs are filled with a mass of wreckagethe debris of the battle-which must be gotten rid of by a process known as resolution. Frequently, inflamed spots remain, congestion persists, cough hangs on, and the least exposure brings on a cold that is hard to get rid of. If neglected, such damaged air passages may easily develop serious disease of the lungs.

Such cases should always continue under a physician's care

Pneumonia attacks the air cells | properly continuing the rebuild

off which causes the air cells to VapoRub will aid nature in this solidify, thus preventing the work. Because Vicks acts locally natural flow of blood thru the by stimulation thru the skin to This "backing up" of draw out the inflammation, atthe blood causes the heart to tract the blood away from the pump harder, just as stepping on congested spots and relieve the cough. In addition, the medicinal ingredients of Vicks are during this disease, the physician vaporized by the body heat. watches the overburdened heart These vapors are breathed in all night long, thus bringing the medication to bear directly upon

the inflamed areas.

Vicks should be rubbed in over the throat and chest until the skin is red-then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying, swallow a small bit of Vicks the size of a pea.

Samples to new users will be sent free on request to the Vick and frequent examinations should | Chemical Company, 232 Broad be made to see that nature is Street, Greensboro, N. C.

Against Colds

The Parker Idea in Dentistry

THE Parker Idea is to spread in-▲ formation everywhere about the importance of good teeth, because good teeth stand for good health; —to make everything in dentistry perfectly plain to the people;

-to render to the great masses, at a moderate price, the same class of dental work that only the few could afford in the past;

-to practice dentistry according to a System such as is used in banks, trust companies and other successful

business institutions;

-to conduct the dental business on a large scale, because that is the only way the cost of good dentistry can be cut down;

-to improve the lot of the dentist himself, so that he can make a better living than when he works alone; -to take the fear of pain out of dentistry and give full satisfaction to patients; -to put good dentistry within the reach of all.

There are twenty-four offices where the Parker Idea is carried out under the E. R. Parker System.
