Berry Acreage Near Silverton Increases Fast

Silverton, Or., Apr. 12.—From the rapid advancements that have been made here during the past year in the planting of berries, Silverton bids fair to become prominent as a berry producing section. It is said that the acreage has been more than doubled in the past year and notwithstanding the fact that the freezing weather last winter damaged vines considerably there is certain to be a great yield here this season.

In speaking of the future possibilities of Silverton as a berry section a prominent grower said in the presence of a Journal representative recently:

"The cultivation of small fruits is worth more to the individual homes of Oregon than to the commercial growers—possibly a hundred times. The home garden pays no charges for boxes, express or commission, and the commercial grower has to meet its value to health beyond the reach of figures or any value we can place upon it."

"Much is said today about balanced rations for our stock, which is just and proper. But we need and deserve as good treatment as any animal life."

"I am firmly convinced," said the husbandman, "that the average citizen of Oregon wishes all the fresh fruit he can use in the summer and enough canned for the balance of the year; and there is no way so positive of good results as a farmer's small fruit garden cultivated with as much system as any crop on the farm. If it is planted with any other idea the garden is destined to be a failure."

The soil and climate are highly favorable to the production of fruits and with the recent establishment of a cannery factory in this city there is every reason to believe that berry production is going to be a profitable vocation.

Silverton Mill Strike Turns To "Waiting Game"

Silverton, Or., April 12.—Difficulties growing out of the strike in this city are having a somewhat demoralizing effect upon the business interests of the city, and rivalry existing between the two timber workers' organizations here is as unfortunate as it is unneeded for. Business men dare not express a sentiment favorable to one or the other and those of them who have been made victims of boycott and contempt, by one faction or the other.

The Silver Falls Timber company has taken an attitude of indifference in the matter from the start and the mill has been in operation every day since the strike was declared, running with a small crew, but employing men to fill the vacancies as fast as possible. The difficulty seems not nearer a settlement now than it was when the walkout was first started. Mr. Woodard, manager of the Silver Falls Timber company, maintains that the men who went out last week will never be reinstated. Unless the national federation of labor takes a part in the difficulty and the company is forced by some means to put the men back on the job, many of the timber workers will not be able to hold out. Through privation, it is believed, they will be forced to seek employment elsewhere, leaving the way clear for Loyal Legion and non-union men to fill the vacant positions.

Four highways are to be constructed in St. Louis county, Mo., to cost \$1,872,000.

Louise Huff's Beauty Talks

That dainty and charming actress Louise Huff, is famous for her beautiful complexion and as an author of many articles on the subject of beauty, she has been persuaded to tell the readers of this paper how they may quickly acquire a soft, smooth ray which complexion like hers. She says: "To get the best results the skin should be thoroughly cleansed, then apply Derwillo which can be obtained at the toilet counter of any up to date drug or department store." This instantly beautifies the complexion and its continued use makes the results permanent. Over five hundred thousand girls and women are using Derwillo in preference to face powder and other beautifiers and they are just as enthusiastic over it as Miss Huff. Be sure to read his large article on the complexion soon to appear in this paper. In the meantime get Derwillo which she recommends and try it today. You will be delighted with it and soon have a complexion for which everyone will compliment you. (Adv)

Crowds Swarm To Silverton's First Automobile Show

Silverton, Or., Apr. 12.—The first auto show ever held in Silverton was staged Saturday by the Keolan Motor Car company and from a standpoint of attendance, if no more, it was a greater success than the company had anticipated. The show opened at 11 o'clock in the forenoon and from that hour until 11:30 in the evening there was a constant stream of people passing through the new building to view the line of cars, trucks and tractors placed on exhibition. It is estimated that fully three thousand people from Silverton and tributary towns and country attended the exhibition. The room was beautifully decorated in forest effect and the machines on display included a line of the latest models in Overland, Studebaker, Oldsmobile and Commonwealth cars, Franklin, Republic and Oldsmobile trucks and Samson tractors, all of which will be handled in Silverton by the Keolan Motor Car company in their new quarters. The display was remarkably beautiful and the show served as a dedication event and grand opening of the new garage just erected for them by Dr. A. E. Wrightman and Fred Uphoff on North Water street.

A musical concert was given from 7 in the evening until 9 and dancing was enjoyed from nine until eleven-thirty, when the greatest function in the history of Silverton automobile dealers was consummated.

When every detail is arranged the Keolan Motor Car company will have the best equipped garage and machine shop in eastern Marion county and one of the best in Oregon. W. M. Gardie of Seattle, formerly in charge of the Cadillac garage in that city has arrived here with his wife and will be in charge of the service department of this enterprise.

Physician Returns From Army Service

Mt. Angel, Ore., April 12.—Dr. Webb, formerly lieutenant in the army, is expected to arrive here this week from California where he has been receiving medical treatment since his discharge from the service several months ago. He was injured at Camp Lewis by having been thrown from a horse. Mrs. Webb and children moved from Camp Lewis several weeks ago. Before entering the service Dr. Webb was a practicing physician in Mt. Angel for many years. He will resume his practice as soon as he recovers from his injury.

Hubbard Plans To Hardsurface Streets of City

Hubbard, Or., April 12.—The city council has planned a street improvement which will take in practically all of the territory in this city not heretofore improved with hard surface pavement. A factor has been procured to haul the grader and work will be commenced immediately following the "clean-up" days proclaimed by the city council which occur next Friday and Saturday. In past improvements in some sections of the city have already commenced.

The citizens of Hubbard have started a general crusade against vice as well as insanitary conditions. After next Thursday the state laws relating to all games of chance will be rigidly enforced. This is done by order of the city council at a recent meeting. Persons operating punch boards and all games of chance have been notified by the city authorities that the lid is on to stay.

This act of the council was taken subsequent to a petition signed by many citizens which was placed in the hands of the administration at the regular meeting of the council.

Brooks Shipper Predicts 12-Cent Spuds On Coast

With potatoes at present selling at 7 cents a pound, with promise of reaching the 12 cent mark before the next crop is in, the potato situation is critical all along the Pacific coast, according to Clyde Harris, potato and onion shipper of Brooks, who paid a business visit to Salem Saturday.

The unusual frost and cold of the past season is responsible for the present situation. The few potatoes that have not been spoiled by the frosts are being diverted to planters for seed, and housewives are searching for vegetables that will serve as a substitute until the new crop is harvested.

Woodburn Board Elects Teachers

Woodburn, April 12.—The following teachers have been engaged for the next term of the Woodburn public schools: W. J. Mähler, city superintendent; High school: O. L. Hopp, H. P. Butterfield, J. P. Brown, Maude M. Mochel, Dorcas Elliott, Irene Forsythe, Elizabeth Tebbin, Ella Ken-

ard, Grades: Anna Ely Schloemer, principal; Maude K. Moore, Fresh; Bohm, Bessie Swepe, Mary Scollard, Mabel Simpson, Annie Jensen, Millie Branigan.

Cars Damaged In Woodburn Clash

Woodburn, April 12.—A head-on collision occurred Friday night on the Pacific highway just outside of Woodburn between two automobiles.

One car, northbound, was occupied by a Mr. Haack, Dr. John Welch of Portland was in the other car. Both men were badly cut up and had their wounds dressed by a Woodburn surgeon.

Light and power are supplied to 184 surrounding villages from a single central station in Germany.

Wisconsin has 12,000 miles of railroads against 77,000 miles of highways.

Stops Medicine—Health Recovered by Internal Baths

Mr. A. Czarniecki, 657 Montgomery St., San Francisco, Cal., writes Tyrell's Hygienic Institute of New York as follows:

"I must admit that the use of the 'J. B. L. Cascade' has cured chronic constipation from which I suffered. Since May 12, 1912, I have never even tasted any kind of patent medicine or purgative. My health is excellent in every respect."

Over half a million bright, keen, intelligent Americans have found that internal bathing is more essential to their health than external baths—

Have found that used occasionally at night they feel like different people the next morning. No more of that bilious, tired, nervous feeling, but having by nature's own cleanser—antiseptic warm water—removed all the poisonous waste from the lower intestine, they awake thoroughly refreshed by normal sleep, with all their functions acting properly, clear headed, happy and confident, eager and capable for the duties of the day.

Why not learn more about this rapidly growing and natural practice? The "J. B. L. Cascade" is the invention of Chas. A. Tyrell, M. D., of New York, a specialist on internal baths for 25 years, and is now being shown and explained by Daniel J. Fry, wholesale druggist and manufacturing druggist in Salem, Or., who will give you—free on request—an interesting booklet on the subject called "Why Man of Today is only 50 percent Efficient." (Adv)

A SPECIAL OFFER

Spring Apparel

Charm In Suits

This is a special offer! Through a most fortunate coincidence, we were able to purchase these suits now being shown at a most reasonable price and we are giving you the benefit. The materials are Serges, Jerseys, and Tricotines in shades of navy, brown, open and heather Jersey. The prices are:
