Mayor William Hale Thompson of so little co-operation from the victims except one for committeeman, thereby gaining complete control of the Cook ounty organization for four years.

General Wood, the only candidate to make a campaign in the state, carried McDonough, Alexander and Pulaski counties in addition to Cook but all the other 98 counties went to Governor Lowden, who on the incomplete unofficial returns scored a majority of 19,-381 over his oponents. The governor colled up a vote down state that reached a margin of as high as 7 to 1 in one two counties, bringing him to the Cook county line with nearly 100,000 lead over General Wood.

The surprise of the primary according to supporters of both Governor Lowden and General Wood was the large number of voters who wrote in the name of Senator Johnson who had made no speeches in Illinois and had no organization. Supporters of both egular candidates asserted that the Johnson vote burt their candidate to he benefit of the other. Never in Illimis or possible national politics had so many voters voted a sticker tienet. The largest previous spontaneous vote ecorded in Illinois was that for Theotore Roosevelt in 1916 when some 12,-000 votes were written from him. In Chicago, where the bulk of the John-General Wood.
