Condor Hotel company, Condon, \$45,000 to \$100,000.

France Awakening To Danger Of Slow Death; Births Low

Paris—France is at last arousing itself to the danger of dying out. The privately conducted, uphill fight for a higher birth rate has been taken over by the government through the creation of a Higher Council of Natality. This council of thirty, appointed by J. L. Breton, minister of hygiene, was asked to act immediately. Mr. Breton, father of five children, is known as a strong friend of large families. Three others of the new cabinet are advocates of measures to increase the French birthrate. War cost France roughly 1,500,000

MRS. R. T. BUTTS, of Kansas City, who says her life, was miserable for two long years before she began taking Tanlac. She now declares she is enjoying the best of health and that she has gained twenty pounds.

"If it had not been for Tanlac I would still be a sick woman, so I feel like I ought to tell everyone what this wonderful medicine has done for me" was the sincere statement made recently by Mrs. R. T. Butts, 1224 Troost avenue, Kansas City, Mo.

"By the help of Tanlac I have gotten rid of a severe case of nervous indigestion that had made my life miserable for the past two years. I could not eat anything without suffering afterward. The gas on my stomach would rise up into my chest and press on my heart and at times would almost cut off my breath. My nerves were so upset that the least unexpected noise would almost distract me. I seldom slept well and was so nervous I would often roll and toss until after midnight and what little sleep I did get seemed to do me no good. I was also a great sufferer from headaches and would often get so dizzy I would have to hold on to something to keep from falling.

"One day I happened to see a testimonial for Tanlac, describing a case like mine, so I bought a bottle and before I had finished it I began to feel just like a different person. Those terrible headaches disappeared and my appetite returned. When my first bottle was gone I got another and I kept on improving until now I can eat just anything I want and I never suffer any more from indigestion. I am not the least bit nervous and rest well at night and never know what it is to have a headache or a dizzy spell.

"Tanlac has not only relieved me of my suffering, but I have actually gained 20 pounds in weight and have not enjoyed such good health for years. Tanlac is certainly a wonderful medicine and I will always be grateful for what it has done for me. I want to recommend this medicine to all my friends because I believe it will benefit anyone who is suffering as I did."

Tanlac is sold in Salem by Tyler's drug store and leading druggists in other towns. (Adv)

lives. A low birthrate, during the war years, cost France 1,772,722 loss of population. These statistics, made into striking pictures to illustrate their effect on the nation, industry and war-damage are being used in a vigorous campaign by the National Alliance, for the increase of the French population. This campaign is being conducted by letters to members of parliament, posters, a magazine, "The Woman and the Child", and through the many socially and politically powerful persons interested in the movement.

The plainest sorts of truths are told the French about the decreasing birthrate. The National Alliance and government official hold that a family should have three or more children. To encourage such families government allowances of 60 to 200 francs a year are granted for each year. The Alliance also asks for legislation to provide for the construction of cheap attractive homes, available only to large families, establishment of "super-subsidies" in industries to heads of such families, preference in government employment, the plural vote, giving the father as many votes as there are persons in the family, and real war on "birth control", known here as Neo-Malthusianism.

Chinese Troops Used by Soviet As Executioners

Amsterdam.—The correspondent of the Handelsblad who recently returned from a trip in Soviet Russia gives the following account of his investigations of the activities of the Chinese employed there by the Bolsheviks as executioners.

"Such horrible stories were being told in Europe about these Chinese I learn more about them. As a joke, I asked one who asked my opinion of the Bolsheviks to show me some 'real man-killing Chinese', but I was always told that they couldn't produce any just now because they had all gone to the Denikine front.

"I was told the Chinese, if commanded by their own officers were excellent soldiers, but they ran like hares if their officers were killed. Executions are now very rare in Moscow, but, in August, when thousands of 'counter-revolutionaries' were slaughtered, it was carried out by the Chinese because the authorities feared the Russian soldiers would refuse to do the work.

"The Chinese do this work indifferently—like they do all other work they are ordered to perform. They are blind, conscienceless tools in the hands of the men who feed them and pay them and who raised them from the position of coolie in which they came to Russia to the rank of soldier of the guards.

"If the 'Bolshak' his name for Bolshoi, orders something, the Chinese show it, and he does it in his typical, victim dig his own grave and then shoots him with his revolver. He is not cruel about it, just practical.

"When Bolshak may kill, then he kills with an unperturbed face. And when Bolshak says 'you may stop now,' with the same cool face he lets his victim go."

The correspondent after some weeks in Russia, left when he was refused permission to make investigations freely as he pleased.

Direct Routes To South America For Mail Are Sought

San Francisco.—Revision of the mail routes to Central America so that mail from the Pacific Coast may go down the west coast or else follow the most direct lines on the east coast is being sought by trade development bodies of San Francisco. At present the only method of utilizing the speediest route is to specify the name of the ship on which the letter is desired to travel. Otherwise mail goes through New Orleans and may go as far as Panama and then back to Nicaragua, instead of entering the latter republic by a shorter and more direct line, according to those interested in the move.

The experience of one San Francisco business man, who had to send a package from Montevideo, Uruguay, to Panama via France, instead of directly up the west coast of South America via Valparaiso, is cited. This was merely because of an old postal agreement, and resulted in the package being delivered just a year later, because French steamship lines to Panama had been withdrawn during the war.

Southern Russia Refugees Awaiting Chance To Escape

Novorossisk, Russia, Apr. 13.—Fifty thousand refugees from all parts of southern Russia have been camping in the streets of Novorossisk for several weeks waiting for transportation to take them across the Black sea to a place of safety. Most of them are families of officers and leaders of the army of Denikine. All the resources of the American Red Cross mission to South Russia have been employed in extending relief to the refugees.

Every shelter of any description has been crowded with humanity. Idle factory buildings, grain elevators and rooms used as offices during the day have been filled with refugees at night. Thousands have spent their days walking the streets and at nightfall have spread their blankets and scant coverings upon the pavement to sleep.

Editor Journal:—In your editorial of April 3 you are making quite a fuss about the Marion county taxpayers and the teachers salaries. I am going to give you some figures to prove to you that the farmers aren't any better off than the teachers, but nobody cares a darn for them.

We are in the dairy and hog business, two girls and myself are milking 20 cows and I am taking care of 40 hogs: You will notice that our business is almost as important as the schools. What would become of our children if they didn't have milk, meat and bread? I guess they would get along without the loganberry you mention in your editorial.

Now for the figures:

1910	1920
Butter fat	\$.35 \$.60
Hogs	.10 .15
Teachers salaries in the county	\$5.00 \$0.00

Now please notice the taxes on the same farm:

1910	\$ 41.98
1920	229.95

Also special levy about 9.57 minimum 3 per cent rebate.

Taxes increase very near 600 per cent.

Japanese Strike Leaders Fail To Tie Up Plantation

Honolulu, T. H.—Despite the fact that the Japanese Federation of Labor stands firmly by its walkout order, issued late in January in an attempt to force up plantation labor wages, the sugar mills on the six island of Oahu plantations affected are increasing their grinding time.

Kahala mill recently was reported on full time, twenty-four hours daily, while the others are running from twelve to fifteen hours. The planters say they have more than 2,000 strike-breakers in the fields, exclusive of another 2,000 Filipinos who have returned to work and the hands who refused to walk out when the Japanese Federation and the Filipino Union declared a strike.

At the time the general strike on

SIMPLE WAY TO END DANDRUFF

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

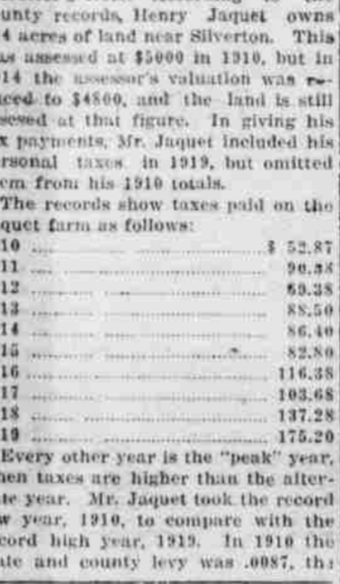

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. (adv)

Harry Files For Delegate To Big Frisco Convention

G. Y. Harry of Portland, commissioner of conciliation in the national department of labor, has filed his declaration of candidacy as delegate at large for the state of Oregon to the democratic national convention at San Francisco this June.

During the 1916 campaign Mr. Harry visited this section in his travels

G. Y. Harry.

when covering the state for the Woodrow Wilson league of which he was general organizer and manager. He has asked that the following 12 words be printed on the official ballot after his name:

"There is no greater honor than to delegate to the democratic national convention."

In his 100 word statement that accompanied his declaration of candidacy to the secretary of state, Mr. Harry said:

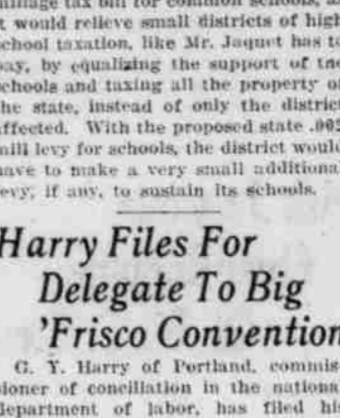

"I have been actively interested in

school district .0025 and the road district .003. In 1913, the state and county levy was .01468, in 1912 .0106, in 1913 .0147; in 1914 .0135; in 1915 .015; in 1916 .0153; in 1917 .0157; in 1918 .0163; in 1919, including the 4 per cent excess of limitation, which will probably be refunded, 0.216.

The increased taxes in 1919 are due largely to the special district taxes, the school tax being doubled and the road district tax having increased from .003 levy in 1910 to .019 in 1919, both voted by the people of the district and not by the state or county.

Mr. Jaquet's communication is really an argument for the passage of the millage tax bill for common schools, as it would relieve small districts of high school taxation, like Mr. Jaquet has to pay, by equalizing the support of the schools and taxing all the property of the state, instead of only the district affected. With the proposed state .002 mill levy for schools, the district would have to make a very small additional levy, if any, to sustain its schools.
