

Bearcats Make Preparations to Mix With Aggies

By taking advantage of the two sunny days last week and plodding along in the rain the rest of the time, the Willamette baseball team is speedily making its preparations for the games with O. A. C. Friday and Saturday. The rainy weather has been a handicap, however, in that no practice games have been played, so that the strength of the team as a whole is an unknown quantity. However, one or two practice games will probably be played against the Moscow jaw team, which is practicing on Sweetland field.

It is certain that Willamette will have a good fielding team, the infield being particularly strong. The question the fans are asking, however, is whether they can hit, and how Coach Athews' pitching staff is going to stand up against conference batsmen. Jackson looks good but has never pitched college ball. Brewster is a veteran pitcher, but probably cannot pitch nine innings. Irvine and Page can throw, and either might be developed into a heater if he were not needed so badly in the infield. Warren and Corbett are hardly up to standard as college pitchers. It seems to be up to Jackson to do the bulk of the hitting, and the fans are watching to see how he pans out.

The stick work of the team is the other misty detail which will have to be cleared up by a real game. For the past two years Willamette teams have not been wonderful hitters, and this most of the men look good in practice, nobody can tell yet what the batting order will look like. If the men get their hitting eyes working, however, and if the pitching is up to standard, the airtight infielding which the team has shown in practice will land them in the win column in most of the games.

BOY STAR IN MARK TWAIN FILM PROVES HE CAN SWIM

Mark Twain's immortal boy hero, Huckleberry Finn, was a "regular guy." So is Lewis Sargent, the talented actor who plays the part of Huck in the film version of the famous novel, which is entertaining throngs at the Oregon theater. Moreover, he proved it to the satisfaction of every boy in Los Angeles recently. One of the newspapers in that city has equipped a winning hole especially for boys, and every day it is crowded with a splashing, shouting

Painful Piles

Sure Death to Corns

"Gets-It" Makes 'Em Luss Their Grip and Lift off Painlessly

The first thing "Gets-It" does when it lands on a corn or callus is to snuff out the pain. Then it shrivels the corn or callus and loosens it.

"Gets-It" Spells "Relief" for Corns

Soon, it is almost ready to lift off. You help it just a little by lifting it off "twixt thumb and finger. You don't even feel it, because there is no hurt left in it. Millions have proved it the easiest, surest, safest and the most pleasant method.

"Gets-It" the never failing, guaranteed money back corn remover costs but a trifle at any drug store. Mfg. by E. Lawrence & Co., Chicago. Sold in Salem and recommended as the world's best corn remedy by J. C. Perry, D. J. Fry, Capital League, Wm. Neimeyer, Frank H. Ward, Oregon drug stores.

mob of youngsters. Young Sargent, by reason of the fact that he plays "Huckleberry Finn" in the Paramount picture, was invited to be the guest of honor at a "Huck Finn day" at the "hole." Did he accept? You bet.

He spent over two hours with the boys, taught them new stunts in the water, did a few dives that went one better than any that they had tried, and gave them some inside stories about picture production. To top it off, he arranged some races and gave prizes to the winners.

Lewis, freckle faced and red headed is every inch a "boy's boy," and it's little wonder that he's just naturally a big success as Huck Finn.

Fulton Offers to Meet Carpentier

Rockford, Ill., April 2.—Fred Fulton has offered to box Georges Carpentier here at any time and any number of rounds, it was announced today at the Camp Grant Athletic department. A letter from Fulton making this statement said he would devote his share of the proceeds to wounded soldiers.

Captain C. C. Herrick athletic officer will attempt to persuade Carpentier to agree to the match.

Mines Suspend Operations In Butte District

Butte, Mont., April 20.—Mining operations in the Butte district practically were suspended this morning. Only a few mines succeeded in getting through the lines of the pickets posted by the strikers who are asking for a six hour day with wages of \$7 and in most of the mines no attempt was made to hoist ore. An exception was the Elm Orie, a W. A. Clark property, where sixty men out of six hundred reported this morning.

The strikers were well organized and picked to the number of about 700 covered all approaches to the mines and swarmed over the hill on which most of the big shafts are located. These men stopped all miners who sought to reach the shafts. A particular effort was made to turn back hoisting engineers and pump men. Although in some instances very late, these men managed to get through to the mines. Neither the engineers nor pump men have joined the I. W. W. strike declared yesterday morning against the mining companies. No arrests were made this morning and only a few cases of actual assault reported. Miners who wanted to work for the most part remained away from the hill with the result that there were few clashes. The miners who were injured last night are reported to be resting well today and none of them is in a serious condition.

At I. W. W. headquarters today strike leaders reported that the strikers were thoroughly organized and that they proposed to close the mines down and keep them down. No demands have been made on the companies by the strikers. The streets of Butte are crowded with idle men today but the city is orderly and only a few cases of assault have come to the notice of the authorities.

POINDEXTER HEADED HOME
Seattle, Wash., April 20.—Senator Miles PoinDEXter, who reached Spokane yesterday, will arrive in Seattle tomorrow. It was announced today. Senator PoinDEXter plans to attend the republican state convention at Bellingham and will make a three weeks tour of Oregon in the interest of his campaign for the republican presidential nomination.

Claiming serious injury to himself and to a cartload of horses in transit, Melvin Hansen of Eugene has filed suit against the United States railroad administration for \$6000 damages.

Chicago Trying To Curb The Rent Hog by Building

Chicago.—This city is attempting to prevent rent profiteering by regulating increases in rates and by organizing a \$100,000,000 corporation to build homes and sell them on easy payments. Meanwhile Chicago's flat dwellers have been forming unions to wage war on alleged profiteering landlords and committees in the city council have been investigating increases in rents ranging up to 100 and even 200 per cent.

Several hundred families have solved their individual housing problems by making their homes in houseboats moored in the branches of the Chicago river, the Calumet and lakes in south Chicago. Once in possession of a house boat, the owner only has to pay \$1 a month for the privilege of mooring his craft. If he does not like his location he can move his home boat elsewhere. Many of these boats cost \$1000 each and have five rooms, parlor, dining room, kitchen and two bedrooms.

In some cases groups of tenants have solved the rent problem by forming cooperative companies and buying the apartment houses in which they live.

The housing corporation, which has been financed by banks and business men, has under consideration a plan to build a row of model homes in Grant Park, on the lake front. Examples of many types of standardized homes would be erected, furnished and surrounded by settings of trees and shrubbery so that prospective purchasers of a new home could look over the styles before placing his order.

Attempts have been made to check rent profiteering by co-operation of the city council and the Cook county real estate board which investigated complaints and, when increases were found to be excessive, advised the landlord to withdraw his demands. In general the investigators have allowed an increase of about 30 per cent over last year's rents.

A proposal was made to erect scores of portable houses but the carpenters' union declared its opposition to that plan even if the houses came from union factories.

The recent tornadoes which destroyed 100 houses and damaged 400 more in Chicago and its suburbs have suggested a housing shortage which has already become acute through suspension of building operations in the war and long drawn builders' contracts.

Workers Given Credit
"You know them, you know them, all division chiefs, bureau chiefs, editors, correspondents, reporters, operators, working tirelessly, faithfully, efficiently, intelligently. You know that these men are the salt of the earth, the pride of our profession and the rethor your opinion nor mine can be fitly expressed, on an occasion of this sort, of the ignoramuses, the blather-skites or the liars who defame them."

Mr. Noyes, in introducing Vice-President Marshall, the principal speaker at the luncheon, said:
"Some men shrink in stature on further acquaintance, while a few grow. As the people of the United States have observed one of the cases of their servants from day to day and from year to year there has been an increasing appreciation with each day and each year not only of his delightful personality and of his great tact in a very trying and difficult position, but of his resolute cheerfulness and sturdy good sense—and that is saying a great deal in these days and especially of a man who has been in his precise geographical position."

"It gives me great pleasure to present to you the vice-president of the United States, Thomas R. Marshall."

Decrees defining and describing the rights of water users on Three Creek, Snow creek and Hood river have been issued by the state water board.

Strike Absence In Belgium Aid To Industries

Brussels.—Belgium has made rapid progress toward industrial recovery since the armistice largely owing to the fact that the country has had no serious strikes, says M. Jaspars, minister of economic affairs. He estimates that the nation's industrial output has now attained perhaps 70 per cent of its pre-war record and that its mines are producing as much coal as in the year before the war.

"About 70 per cent of our material which was taken out by the Germans has been returned but Belgium has thus far received no indemnity from Germany."

For Stomach Agony Ask Your Druggist About Mi-O-Na. It Gives Relief in Five Minutes

Your druggist will tell you that Mi-O-Na is guaranteed to relieve quickly and safely, upset stomach and indigestion, or your money will be refunded.

Have you gas on stomach? One Mi-O-Na Tablet and the misery is ended.

Willamette Glee Praised By Those In Other Cities

The approval with which the Willamette University Glee club which will appear in concert in the Opera house Wednesday evening, April 21, has been greeted in its tours this winter is clearly shown in the letters of commendation received by the manager from numerous cities where they appeared.

A letter from Bremerton, Washington, says that "The Willamette Glee club completely captivated the audience. Words of praise were heard on every hand. I hope it will be possible for you to give us a return date next season."

The Milton Eagle in speaking of the concert says: "The concert was given in place of one of the Lyceum numbers which failed to appear and was in every way comparable to the regular line of scheduled entertainments. The Glee club has prepared a special program for Salem, and the indications are that it will be one of the best of entertainments of this kind ever presented in the city."

The county court of Douglas county will make a rebate as soon as it is shown that it has exceeded the 6 per cent tax limitation in the adoption of this year's budget.
