THEY HARDLY KNEW HER AT FIRST SIGHT

"When my wife began taking Tanias she weighed only ninety five pounds; now she weighs one hundred and forty three and her wonderful recovery is the talk of our neighborhood," said Ben White, of 111 Chococent ave., Peoria, Ill. "Mrs. White has been suffering from stomach trouble and nervousness eighteen years," he continued, "and for a long time had been unable to leave the place. We spent all the money I could get for treatments and medicines but she never got any better. She was a complete nervous and physical wreck and I have seen her nearly die with cramps in her stomach and after eating she could hardly breathe for the gas. Headaches drove her nearly distracted and I have stayed home with her weeks at a time, fearing she would never pull through, for she was getting worse all the time."

"After hearing so much talk about Tanias I bought some for my wife and in just a few days she could eat and sleep better. She has now taken about twelve bottles and is the very picture of health. Why, some of her friends hardly know her at first sight now. She is as well and happy as a person can be."

Tanias is sold in Salem by Tyler's drug store and leading druggists in other towns. (Adv.)

A WILLING WITNESS

Is This Salem Resident? What stronger proof of the merit of Doan's Kidney Pills can Capital Journal readers demand than the statement of a well known local resident? The evidence that follows should convince the most skeptical doubter. P. W. Brown, retired farmer, 1499 State St., Salem, says: "Hard work weakened my kidneys and I often felt the effect in lameness and soreness across the small of my back. Finally my attention was called to Doan's Kidney Pills, and I got some. The backache and soreness entirely left me."

Over ten years later Mr. Brown said: "I am ready to confirm any time what said in my former statement regarding my experience with Doan's Kidney Pills. I still consider them a medicine of merit and they always do good work when I take them."

Doctors Tell Why You Should Quit Tobacco

Dr. Kress says cigarette smoke acts powerfully on lung tissue and induces pulmonary tuberculosis, while it causes permanent degeneration of the cells of the nervous system, including those of the brain, and thus weakens the mental faculties.

Dr. Keeley says tobacco enfeebls digestion and lays the foundation for nearly every nervous disorder now common to the American people. It produces color blindness, epilepsy, bronchitis, rheumatism and asthma, dyspepsia and catarrh, tobacco heart and cancer of the stomach.

Dr. Solly, surgeon of St. Thomas Hospital and expert in diseases of the brain and nervous system, says: "I know of no single vice which does so much harm as smoking. It is a snare and a delusion. It soothes the excited nervous system at the time to render it more irritable and feeble ultimately. I know of no other cause or agent that so much tends to bring on func-

tional diseases and through this in the end to lead to organic disease of the brain."

Mr. Smoker, can you afford to indulge this habit? Let Nicotol help you to throw off the fetters of tobacco. Nicotol kills the craving and sets you free. It makes the tobacco habit quit you and keeps you feeling fine and fit all the time. Get Nicotol tablets of any druggist.

Note—When asked about Nicotol tablets, one of our leading druggists said: "It is truly a wonderful remedy for the tobacco habit; away ahead of anything we have ever sold before. We are authorized by the manufacturers to refund the money to every dissatisfied customer, and we would not permit the use of our name unless the remedy possessed unusual merit." Nicotol tablets are sold in this city under an iron clad money back guarantee by all up to date druggists, including D. J. Fry. (adv.)

TODAY there are more than 7,000,000 of them in the country. Pretty soon nearly everybody in this section will be traveling around in his own automobile.

It's all very well to take some dealer's word about a tire—if you know who he is and his object in selling it to you.
