

MUTT AND JEFF—That's a Lot to Expect From a Hot-Water Bag.—By Bud Fisher.

Trade Problems Are Considered By Salem League

The principal address at Tuesday night's meeting of the Business Men's League was given by Edward A. McLean, secretary of the Oregon State Retail Merchants association. Mr. McLean was a member of the intermediary faction that succeeded in uniting the two rival retail merchants associations of this state. He expressed his appreciation of the progressive spirit shown by the Salem league in working for the one co-operative state association.

Mr. McLean declared that government interference and control of industry had hampered progress in many ways. He produced a letter sent out by coal distribution and sales associations, calling attention to the enormous quantities of coal when the distributing salesmen could have disposed of the fuel readily, thereby relieving the acute situation in eastern states. He found satisfaction in the fact that the government had recently discontinued coal restrictions and stated that "the fuel men could get along without inefficient interference by federal agencies."

During the evening, Mr. McLean also gave illustration of press articles that charged profiteering on the part of retailers. Such publicity was harmful, he stated and urged that means be taken to prevent recurrence of such "harmful publicity." William Caldwell added to the matter by referring to articles appearing in the Portland Oregonian, where news items stated that coffee had dropped 8 to 15 cents per pound when "no lowering of the market has actually taken place." F. E. Fullerton took special umbrage at an article recently published in Oregon publications where an expert in his report to federal investigating circles had stated that "there is some profiteering by producers and distributor, but the retail merchant is the most flagrant offender."

It was emphasized that any publication given such unfounded statements was extremely hurtful to all dealers. Walter Denton spoke pointedly in reference to this lack of understanding between the press and the retail trade. "Advertisers liberally in the home papers," urged Mr. Denton, "let the public know that you are selling a fair article at a fair price and gradually business will become universally representative of the 'Your Home Town First' idea. He asked the business men to study carefully the value of cooperation through the local press, declaring that by wise and consistent publicity you will win the confidence of the buying public. "We must all grow by working together," he said, "soon Salem people must realize that the farther away their dollars are sent, the longer it takes for those dollars to return."

While Tuesday night's meeting of the Business Men's League was supposed to be a desolate and forbidding Sahara for all political aspirants, the ban was finally lifted and the assembly gave consideration to brief addresses made by Hal Patton, Alderman candidate, and J. C. Perry, J. J. Riggs, candidates for the state legislature.

CANNON BALL LODGED IN TREE STRUCK BY SAW
Vancouver, B. C., April 21.—An old fashioned cannon ball of the 25 pound variety, used many years ago on this coast by the admiralty ships, caused the Pales Creek Lumber Company a loss of \$250 the other day. It was embedded in the center of a huge log cut at Duncan Bay. The tree had grown around the ball and concealed it so well that it was not discovered until the saw struck it. The missile must have been discharged many years ago by a passing warship.

Cherry trees are in full bloom in Hood River valley and peary are burning their blossoms.

Harding to Face Wood at Polls in Ohio's Primary

Columbus, Ohio, April 21.—Whether Ohio is to remain loyal to the "favorite son" tradition in the expression of choice for presidential candidate will be decided at the state-wide primary, April 27th.

So far as the democratic party is concerned, the "favorite son" tradition will be maintained by sending a solid delegation of 45 members to the San Francisco convention, pledged to Governor James M. Cox. The governor has no opposition on the preferential ballot, and all candidates for delegates are pledged to him.

General Leonard Wood is contesting with Ohio's "favorite son" Senator Warren G. Harding, for republican preference, for the delegation to the Chicago convention.

The fight between Wood and Harding has developed into one of the hottest contests waged within the party ranks for years.

Candidates for delegates, pledged to General Wood, have been entered in all but three of the twenty-two districts and two candidates for delegate-at-large also are in the field. A complete list of candidates for district delegates and delegate-at-large, pledged to Senator Harding, are in the race.

In general, the Wood organization is headed by men who were prominent in the Progressive party in 1912. Senator Harding's campaign for the most part, is in the hands of men affiliated with the local party organizations. H. M. Dougherty, the Senator's manager, was republican state executive chairman in the 1912 campaign. Then, he pursued an uncompromising policy with the Progressives. The opposition to Senator Harding in the present campaign is directed chiefly against Mr. Dougherty.

Though all candidates for delegates on the democratic ticket are pledged to Governor Cox, local conditions have resulted in contests in a few districts. In the sixteenth district (Canton) the "wet" and "dry" question resulted in a number of candidates being entered, while the same question and factional differences are said to be responsible

SURE WAY TO GET RID OF DANDRUFF

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.
